WELCOME

When you are choosing a university for your postgraduate degree, one of the most important things to consider is its reputation. You want to study somewhere with a strong research culture; an institution that is at the forefront of discovery and innovation. You want a university that measures up to your expectations with a lively and diverse community. We believe we can provide the opportunities, facilities and experts to match your ambition and aspirations.

UNIVERSITY GUIDE
2018 RANKINGS*

Postgraduate students have always been at the heart of our university life. Whether you join us on one of our taught programmes or are embarking on doctoral research, you will be an integral part of our community, bringing global experience and new perspectives, all of which contribute to the academic and social richness of our global university.

We encourage bold, independent thinking, and provide exceptional academic programmes that will stretch and challenge you. Our

strength lies in understanding that every student is an individual with a unique learning style. Our Graduate School provides the best possible research and education environment – from dedicated postgraduate space in which you can work, to events and training programmes to support your development.

The reputation of a great university depends not only upon the quality of education, but also on the quality of research; and our strong placement in global rankings demonstrates this

academic force. Birmingham is a place for leading scientists, professionals and students who want to be involved in world-class research and achieve a degree that will enhance professional opportunities around the world.

Our ambition means that we strive to do more: appointing and developing outstanding academic talent across the breadth of our disciplines, investing in substantial new research programmes and scholarships, and building new national and international research collaborations.

More than 81% of all research is rated as 'world leading' or 'internationally excellent' in terms of its originality, significance and rigour. RESEARCH EXCELLENCE FRAMEWORK (REF) 2014

6,500 INTERNATIONAL STUDENTS FROM OVER 150 COUNTRIES CALL BIRMINGHAM HOME

We are committed to investing in our success and our historic Edgbaston campus is undergoing one of the most exciting and transformational redevelopments since the original buildings were completed in 1900, providing you with exceptional new facilities and accommodation.

The University of Birmingham has a history of firsts and we are now the first global top 100 and Russell Group University to establish a campus in Dubai; building on our extensive international research and teaching

collaborations and demonstrating our ambition as an outward-looking, world-class institution.

We strive for even greater success to enhance the impact that our graduates and research will make around the world. We look forward to welcoming you to campus, and to playing our part in your future success.

PROFESSOR SIR DAVID EASTWOOD
VICE-CHANCELLOR,
UNIVERSITY OF BIRMINGHAM

WHY CHOOSE BIRMINGHAM?

As a Birmingham postgraduate, you can expect to engage with challenging debates, theories and concepts and, in doing so, grow as an original thinker.

You may have various motivations for pursuing a postgraduate degree. The prospect of improved employment opportunities and entry to specific careers is important to a large number of postgraduates, but also a major factor for many is the opportunity to explore your chosen area of interest in depth and to develop your understanding in a subject area about which you are truly passionate.

We have the strength and variety of programmes to suit your individual needs and interests, backed up by the academic expertise, facilities and influence of a global university.

1

Our outstanding academics provide expert teaching and supervision. Along with their research, they attract continued investment and resources to Birmingham.

You will be taught by experts in their fields and work alongside supportive and innovative academics in our world-leading centres.

You will work in an environment in which excellence, innovation and delivery are made possible by brilliant people, outstanding facilities and strong collaborative networks. Within this nurturing academic community, you will be able to shape policy, change lives and influence society.

'To achieve teaching excellence we are ensuring that all of our staff have access to career-long professional development in learning and teaching.'

Professor Kathy Armour, Pro-Vice-Chancellor (Education)

2

Our professional and academic skills development will make you a highly desirable graduate in the job market

A Birmingham degree will help you grow and develop, boost your professional prospects or even change direction in your career. As the second most targeted UK university by top employers (see page 4), we know the skills and development required to make you a highly desirable graduate for employers locally, nationally and internationally.

The advanced knowledge acquired through postgraduate study is also highly valued and enhances your employability: you are more likely to enter professional and managerial occupations and to earn more over your lifetime.

'We value our employer relationships very highly and this is reflected in our ever-growing reputation with a range of top graduate recruiters.'

Eluned Jones, Director of Student Employability

'Many of our disciplines have world-leading research cultures. We support research excellence with major academic investments and have established signature collaborations at home and overseas.'

Professor Tim Softley, Pro-Vice-Chancellor (Research and Knowledge Transfer) and Fellow of the Royal Society

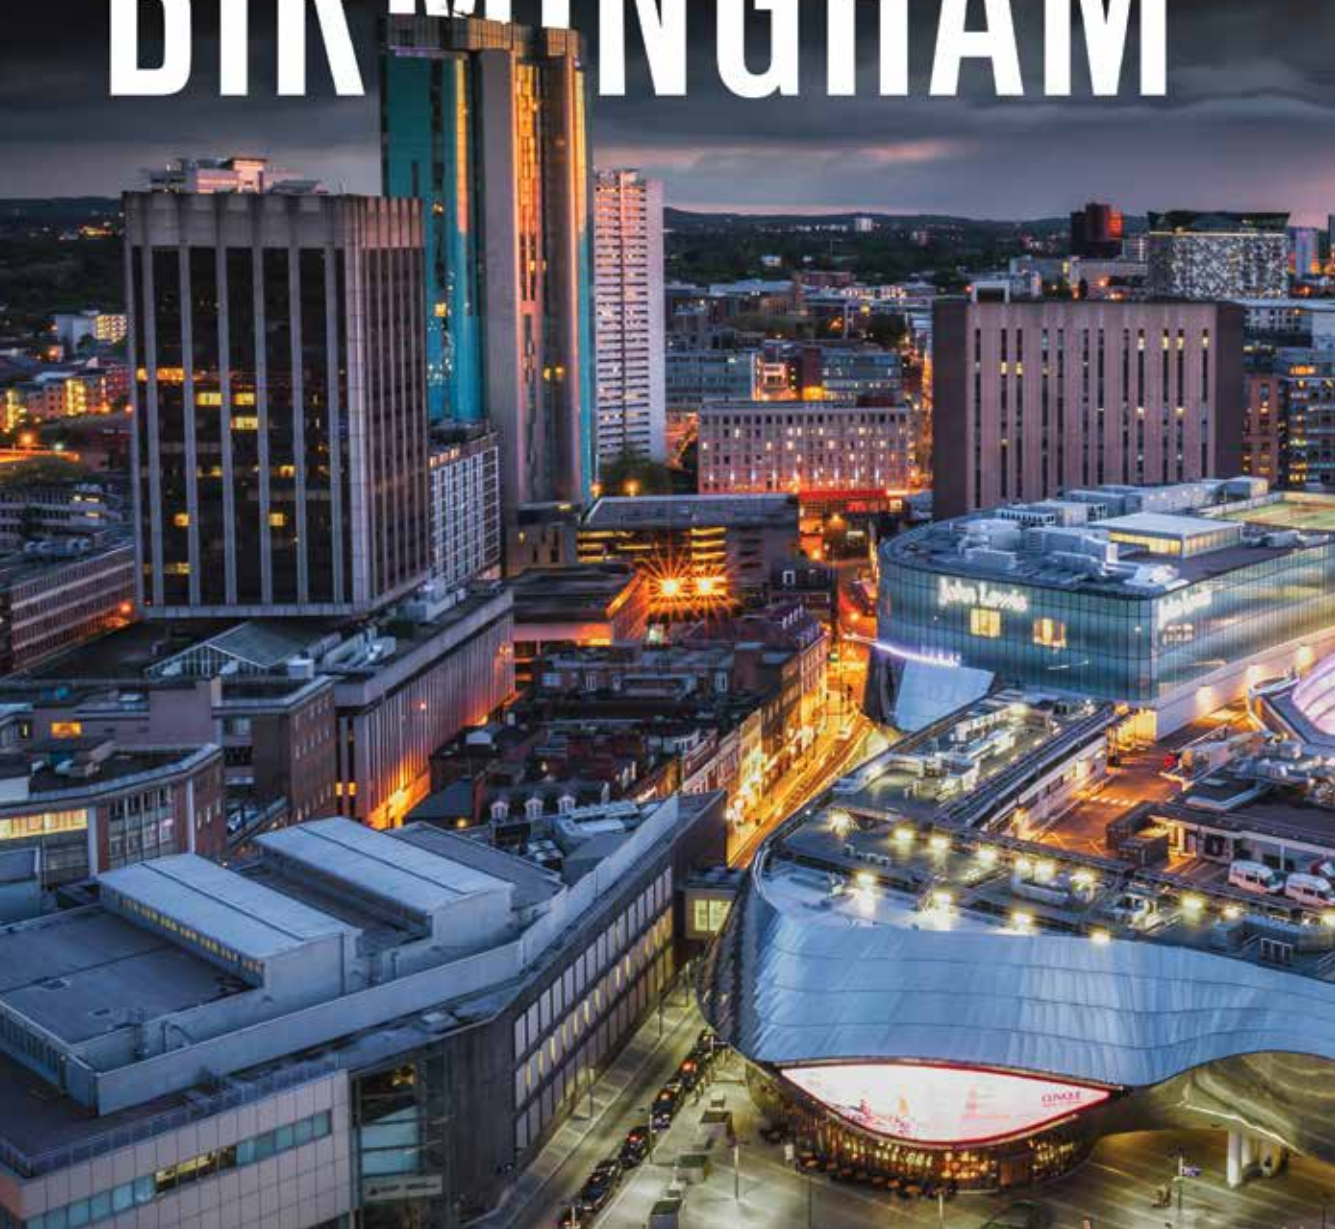

3

You will join a university ranked in the top 100 in the world

We are recognised internationally for our excellence in teaching and research. Our strong league table position is based on indicators including graduate prospects, the number of highly cited researchers and the number of articles published in top journals. We also encourage interdisciplinary initiatives and we are the university partner of choice for industry, the health and public sectors.

The latest *QS World University Rankings by Subject 2019* – a survey of more than 500 universities worldwide – demonstrates our continued strength across a number of subject areas. With 27 subjects ranking within the world top 100, seven of which are in the top 50, the survey recognises the outstanding research-intensive education that we offer.

LIVING IN BIRMINGHAM

Birmingham is an inspiring place to live; it is the UK's most populous city after London, boasting a diverse culture and unique history.

THE CITY

Birmingham is a vibrant and thriving city with a diverse community. We are Europe's youngest city, with 40% of our population under 25. We are also the top regional city for quality of life in the UK. In fact, our students love Birmingham so much, 48% decide to stay in the region after they graduate. Birmingham is more than somewhere to study; it's somewhere to build a successful future.

ACCOMMODATION

There are many accommodation options available to you while you are studying in Birmingham. You can choose from University or private accommodation, with each having numerous options to suit all budgets.

LOCATION

Studying here, you will enjoy the best of both worlds: a beautiful, historic, green campus that is just a few minutes away from the heart of an exciting, modern city. With our own railway station on campus, you can be in the city centre in less than seven minutes. There is something for everyone in Birmingham and you are sure to receive a warm welcome in one of the most culturally diverse cities in Britain.

RETAIL

The city centre offers a first-class retail experience; from famous brands to independent stores, Birmingham has something for everyone. You will find a wealth of choices, from large shopping centres like Bullring, Selfridges, Mailbox and Grand Central, to diverse vintage clothing stores and artisan workshops in the world-famous Jewellery Quarter.

CULTURE

Birmingham has an exciting culture and history. From our world-leading museums and art galleries to the historic industrial district of Digbeth, there is so much to explore at the heart of our city. Birmingham is also proud to host many annual urban festivals such as MADE, Pride and the Mostly Jazz, Funk & Soul Festival.

FOOD

Birmingham is filled with foodies, which means new restaurants and food festivals are always popping up across the city. The multi-award-winning Digbeth Dining Club hosts independent food stalls, while our very own monthly farmers market on campus offers locally sourced and environmentally friendly produce.

Independent Birmingham also hosts regular events across the city, promoting new places and helping you to discover new favourites.

UNIVERSITY ACCOMMODATION

Our dedicated postgraduate accommodation is located across our three student villages: The Vale Village, Selly Oak Village and Pritchatts Park Village; all of which are within walking distance of the Edgbaston campus.

SELLY OAK VILLAGE

A five-minute walk from campus, with the vibrant Selly Oak high street on your doorstep. Our postgraduates are located together in Jarrett Hall, which offers en-suite rooms with shared kitchens. Prices range from £147–151 per week. This is the perfect environment to make new friends while allowing you to concentrate on your studies.

 To secure your place in University-owned halls you will need to make a pre-payment of £550 at the time of booking your accommodation. This is deducted from your remaining balance.

HALLS OF RESIDENCE

RESTAURANTS

THE VALE VILLAGE

THE VALE VILLAGE

Just a 15-minute walk from campus, The Vale is set in a tranquil conservation area surrounded by trees and a lake. Our postgraduates live in Shackleton, Mason and Chamberlain residences. Prices range from £206–257 per week. A bar, restaurant, café, convenience store and laundrette contribute to a community atmosphere so you feel right at home.

We have more than 30 places to eat and drink across our campus and accommodation.

PRITCHATTS PARK VILLAGE

Close to campus, Harborne and University station, Pritchatts Park provides self-catering accommodation for postgraduates in a lovely landscaped setting. The Park's design creates a sense of community, with shared facilities such as meeting rooms, an airy lounge, a licensed bar and a games room offering the perfect environment to get to know your fellow postgraduates. Prices range from £108–254 per week.

COMMUNITY

If you are studying at the Shakespeare Institute, there are many sources of accommodation in Stratford-upon-Avon and we will give you as much assistance as we can to help you to find somewhere to live nearby.

www.birmingham.ac.uk/stratfordliving

TRAVELLING TO AND FROM CAMPUS

There are several ways to travel to our campus. From bike lanes to canal paths, we are well connected to many areas of our city.

Birmingham Cycle Revolution is making cycling easier. A 4km fully segregated cycleway will link Selly Oak and the University with the city centre. Due for completion in January 2019, the cycleway will provide a safe, healthy and green method of travelling around the city.

Our campus is also well served by bus routes. From the city centre, the 61, 63 and X64 run frequently to our campus. From Moseley, the 1A stops right outside the University and from Harborne, the 48 and 244 provide services which drop you close to the University.

As we have our own railway station, University, you can get regular trains travelling from Birmingham New Street to campus in just seven minutes, making trips to and from the city centre quick and easy.

PRIVATE ACCOMMODATION

CITY CENTRE LIVING

Many of our students choose to find housing in the private sector. A variety of housing options, including single flats, shared houses and properties for families, can be found in the local area. Selly Oak is the closest residential area, just a five-minute walk from the University campus. The weekly cost of rent ranges from £55–120, averaging at £75, usually excluding utilities.

BIRMINGHAM STUDENTPAD

Birmingham Studentpad is our official property search engine. Only Midlands Landlord Accreditation Scheme (MLAS) landlords can advertise their properties through our website. This means all landlords must have copies of a number of safety certificates, the correct licences and Tenancy Deposit Scheme details. Use our property finder to search for short- or long-term accommodation: www.birminghamstudentpad.co.uk

GUILD LETTINGS

Guild Lettings is a lettings agency run by our Guild of Students. It charges no fee to student tenants and only advertises MLAS-accredited landlords who sign up to a code of standards guaranteeing the quality and condition of housing. For more information, visit: www.guildlettingsbirmingham.co.uk

SELLY OAK

Find more advice on private accommodation in Birmingham:
www.birmingham.ac.uk/rentingprivately

CITY LIVING

Some of our postgraduates prefer to live in the heart of the city. The commute is an easy seven-minute train journey from New Street to University station, making city living an appealing choice. We work with private accommodation providers to offer a fantastic range of options to suit your individual needs.

Host

Host offers two choices for our students: Host Student Apartments and The Metalworks. Offering en-suite rooms and premium studios, Host Student Apartments are located just a few minutes' walk from campus, with prices starting from £175 per week. The Metalworks sits right on the edge of campus and offers a variety of rooms, with prices starting from £152 per week.

CRM students

With a choice of rooms, including en-suites and access to on-site gyms, CRM students provide quality accommodation in central locations, with prices starting from £120 per week.

Liberty Living

If you're looking for a place in the city, Liberty Living offers city centre accommodation, less than a mile from New Street station. They also provide residences just five minutes' walk from campus. Prices start from £110 per week.

Also popular...

If you're looking to immerse yourself in suburban Birmingham life, the villages of Moseley and Harborne are popular with our students. With many bars, cafés and restaurants, these cosmopolitan areas are perfect for young professionals and students, with many privately rented properties available. For a slightly cheaper – but by no means less desirable – option, Kings Heath neighbours Moseley and is a lively, popular area to live.

FESTIVALS IN MOSELEY PARK

OUR CAMPUS

An aerial photograph of a university campus. The foreground features a large blue sports field with red markings and a red fence. Behind it are several green tennis courts. The middle ground is filled with various university buildings, including a prominent red-brick building with a large arched entrance. The background shows a dense urban area with many smaller buildings and trees under a clear blue sky.

The main campus in Edgbaston is set in 250 acres of parkland with spacious lawns, trees, a lake and significant works of sculpture enhancing its landscape. With its domed red-brick buildings, the campus is rich in heritage and beauty. We have all the amenities of a small town, including shops, bars, cafés, banks, medical and dental surgeries, sports facilities, and even our own railway station.

Away from our main campus...

Our Selly Oak campus, two miles from Edgbaston, is a green 80-acre site with a village atmosphere. We also have a satellite campus in the historic town of Stratford-upon-Avon (the Shakespeare Institute).

The School of Dentistry is located at the new Birmingham Dental Hospital at Pebble Mill, which is less than a mile from the main campus. It is the first stand-alone, integrated dental hospital and dental school to be built in the UK for almost 40 years.

With magnificent architecture and a green, leafy site, our campus provides an inspirational environment for your studies.

CAMPUS FACILITIES

Our campus is currently undergoing a huge transformation, with over £600 million invested in redeveloping the campus and facilities. From outstanding new accommodation to a state-of-the-art library, students at Birmingham benefit daily from our new developments.

Our newly developed Green Heart offers lush new parkland in the centre of campus. Measuring over 12 acres, it will provide a unique space for performances, socialising, meeting and studying.

Our main library houses state-of-the-art facilities for students, staff and researchers. It is a modern space providing informal seating, group study spaces and individual desks alongside a wealth of new technology including wireless mobile charging, media rooms and video editing booths. Whether you are working in groups or independently studying, our library has the perfect facilities for learning.

GREEN HEART

MAIN LIBRARY

Alongside our main library, you can find further facilities throughout our Colleges. Supporting the Arts, Shakespeare Studies, and the Dental and Medical Schools, our libraries offer additional study spaces and resources to further your development.

Explore our campus online:
www.birmingham.ac.uk/campus

At the heart of our campus, the Aston Webb Student Hub is home to the Careers Network, Registry and Student Services. Dedicated teams provide our students with information and support, from consulting with students on thesis submissions, visas and ID cards to counselling, wellbeing coaching and specialist learning support. We also offer appointments and workshops run by our specialist services in our consultation rooms to help you succeed at Birmingham.

OUR RESEARCH FACILITIES

We continually invest in resources and improve research facilities to ensure our postgraduate researchers are able to pursue their ideas and transfer their knowledge. We have an extensive variety of labs supporting innovative research in 21st-century disciplines such as robotics, gene therapy, human biomaterials and hydrogen gas fuelling.

Explore our facilities online:

www.birmingham.ac.uk/researchfacilities

NEW DEVELOPMENTS

Supporting the modern learning experience at Birmingham, our new Teaching and Learning building is a hub for education, providing a large and small lecture theatre and a space for 1,000 students to carry out group or private study.

TEACHING AND LEARNING BUILDING

ASTON WEBB STUDENT HUB

The Guild of Students plays an important role in our students' lives. With over 250 student groups, societies and associations, the Guild helps our students develop skills, have fun and get the most out of their time at Birmingham. The building is a hub of activity, with shops, a bar, food and drink outlets and support services hosted here.

SPORT

At Birmingham, sport is for all – from world-class performance to general fitness. The power of sport to motivate and inspire goes so much further than sporting ability. From keeping fit and leading healthy balanced lifestyles to learning a new activity, you will never have a better opportunity to get involved, have fun and make new friends.

Our Sport & Fitness club on campus is a facility for staff, students and the community in the heart of Edgbaston. The club provides world-class opportunities for everyone in the region and offers an unrivalled fitness experience.

We offer over 100 sports scholarships, 55 student sports clubs, over 150 fitness classes a week and flexible membership options.

WELCOMING WORLD-CLASS ATHLETES

Birmingham is one of the UK's leading sporting universities. We have a reputation for providing a world-class training environment on our Edgbaston campus, not only for our own international student-athletes, but also for Team Jamaica who trained here ahead of the London 2012 Olympic Games and the IAAF World Championships in 2017.

Our new squash courts and hockey pitches will become competition venues during Birmingham 2022, following the city's successful bid to host the Commonwealth Games, meaning our staff and students can look forward to welcoming world-class athletes to campus once again.

Off campus, the Raymond Priestley Centre in the Lake District provides the opportunity to try a host of outdoor activities including sailing, windsurfing, mountaineering, rock climbing, kayaking and canoeing. We also have access to the nearby Edgbaston Reservoir and a boathouse in Worcester (on the River Severn).

There are over 55 different sports clubs to choose from. From badminton to volleyball, there's something for everyone to get stuck into. Whether you're a beginner or already playing sport at a national level, joining one of our sports clubs is the perfect opportunity to discover your sporting passion.

Our facilities and services include:

- 50-metre pool with boom and moveable floor
- 200+ station gym
- Arena-style sports hall with 800 spectator seats and a smaller sports hall
- Around 150 group exercise classes per week
- A range of pitches for a variety of sports, including floodlit water-based, 3G synthetic, natural-turf and rubber-crumbs pitches
- Dojo (martial arts)
- Performance and Wellbeing Centre
- Performance gym
- Six glass-backed squash courts
- Specialist Human Performance Lab offering training assistance, nutritional advice and performance monitoring
- Steam room and sauna
- Ten-metre climbing wall

CULTURE AND MUSIC

The arts and culture scene is constantly evolving. From the Barber Institute of Fine Arts to the Bramall music building, there's something for everyone to immerse themselves in.

THE BARBER INSTITUTE OF FINE ARTS

Major works from celebrated names in the history of Western art, such as Botticelli, Monet and Picasso are included in our outstanding art collection at the Barber Institute. We have been praised as 'the last great art collection of the twentieth century' and 'one of the finest small galleries in Europe' (*The Observer*).

SPECIAL COLLECTIONS AND ARCHIVES

Built up over a period of 120 years, our Special Collections and Archives consist of approximately 120,000 pre-1850 books dating from 1471 and some 3 million manuscripts, all of which distinguishes us as a major UK research library.

THE LAPWORTH MUSEUM OF GEOLOGY

The Lapworth Museum dates back to 1880, and is one of the oldest specialist geological museums in the UK. The Lapworth Museum provides a valuable resource for students, schools and colleges, research workers, enthusiasts and anyone with a desire to learn about geology.

CULTURE AND MUSIC

THE RESEARCH AND CULTURAL COLLECTIONS

The Research and Cultural Collections include extraordinary artefacts, from West African masks in the Danford Collection, to important 20th-century paintings such as Peter Lanyon's mural in the Arts Building.

WINTERBOURNE HOUSE AND GARDENS

Winterbourne is a stunning Arts and Crafts house and garden that is free to enter for all Birmingham students. You can relax in the flourishing gardens, or attend an event, such as special interest tours, exhibitions and lectures.

THE BRAMALL

The Bramall is home to our Department of Music, which boasts two symphony orchestras, a jazz orchestra, new music ensemble, choirs and many other groups that regularly perform at the Bramall. Seating 450 and featuring world-class acoustics, the main auditorium provides an intimate environment for enjoying everything from comedy nights to classical music evenings.

AND THAT'S NOT ALL!

Many of our facilities on campus offer the opportunity for classes, workshops and tours, making the campus a hub for learning and exploring.

We offer our postgraduate students the opportunity to develop their language skills, either for personal development or to support their studies, via our open access language courses, all of which are taught on campus with convenient day or evening sessions.

We also host several large events each year, such as our Birmingham Prom and Community festival, alongside graduation balls, alumni events and international conferences. These events also give you the opportunity to engage the public in your studies and research; vital to illustrating your research impact.

COMMUNITY FESTIVAL

BIRMINGHAM PROM

Photo: Victoria Beddoes

THE GREEN HEART FESTIVAL

From 7–9 June 2019 we begin our Green Heart official opening celebrations. Hosted in your new space, the Green Heart Festival will launch with a free weekend of performances, music, food and activities. The weekend begins a year of seasonal events to showcase the parkland, until May 2020.

www.birmingham.ac.uk/greenheart

OUR RESEARCH

Our research is not only world leading, but world changing.

Our outstanding academic expertise, operating across continents, distinguishes us and fuels the research that has a direct and positive impact on the lives of many thousands of people every year.

Our vision is to encourage and inspire you in your independent research, enabling you to thrive by equipping you with the skills, knowledge and confidence to make a major impact on global society, in whatever field you pursue.

OUR RESEARCH FOCUS

We are committed to research that is pioneering and significant. We have created a research environment in which academic rigour, innovation and delivery are made possible by brilliant people, outstanding facilities and strong collaborative networks. Our goal is to do more and even better research, and to tackle the great challenges of our day.

We are proud to be focusing our efforts on tackling nine of the United Nations' Global Goals, exploiting our research strengths to produce practical solutions to some of the greatest challenges facing mankind.

Our distinctive multi- and interdisciplinary research strengths help to address key national and global challenges; our collaborative and cross-disciplinary approach to tackling these new and emerging challenges is what sets us apart.

GLOBAL OPPORTUNITIES

As a member of Universitas 21, an international network of universities that enables global research collaboration and opportunities, we are able to offer a number of scholarships each year to enable our doctoral researchers to travel to our Universitas 21 partners. You could spend time at some of the most prestigious universities worldwide and the incoming students from these universities add diversity to Birmingham's student body, providing experience and cultural insights that are of benefit to our entire community.

EXPERT SUPERVISION FROM TALENTED ACADEMICS

We ensure that our research generates practical solutions and knowledge transfer for the economy, policy and society. This real-world practicality is an embedded and natural component of all our research activity; as important and relevant as the knowledge generation itself. We disseminate to our peers, engage with the public and provide support to government and industry.

Within this thriving and transformational research community, we want you to thrive as an independent researcher and professional in your field.

OUR RESEARCH CENTRES

The spectrum of research undertaken at Birmingham creates opportunities for collaborations between interdisciplinary subjects and with national and international institutions. We also foster partnerships with business and industry, working closely with our academic partners to create research teams that are of international significance in the quality of their work.

Our Institutes and Centres of Excellence ensure we can produce the best quality research at world-leading standards through funding, cross-sector partnerships and a range of resources that promote excellence, innovation and creativity in the delivery of interdisciplinary teaching, learning and research.

OUR RESEARCHERS

Our researchers feature prominently in the public eye, helping to question and change society. Read more about their research in action.

How is beauty transforming the self?

The demand to be beautiful is increasingly important in today's visual and virtual culture. Rightly or wrongly, perfection has, for some, become an ethical ideal by which to live and judge ourselves as successes or failures.

HEATHER WIDDOWS, Professor of Global Ethics, Department of Philosophy

Heather's research on beauty is currently formed of two main strands: *Perfect Me*, her latest book, and the Beauty Demands Project and Network.

Perfect Me explores how looking beautiful has become a moral imperative in today's visual and virtual world. It examines the changing nature of the beauty ideal, showing how it is more dominant, more demanding and more global than ever before.

The Beauty Demands Project has, over the last two years, brought together cultural theorists, historians, lawyers, doctors, philosophers, sociologists and psychologists with medical and nurse practitioners, artists and journalists to consider the changing requirements of beauty. Together they have explored the psychological, ethical, regulatory and legal issues of beauty demands.

'Do we have a duty to be beautiful? It's not surprising that how we look matters in an increasingly visual and virtual world; the pressure to be perfect is something that young men and women increasingly feel.'

Professor Heather Widdows

Women's role in policy

In 2018, International Women's Day was celebrated amid scandals around the abuse of vulnerable women across many sectors, including aid, multi-national companies and the film industry. Women's rights, responsibilities and gender equality are a focus of many of our researchers' work.

FIONA DE LONDRA, Professor of Global Legal Studies, Birmingham Law School

Professor Fiona de Londras is a regular media commentator on legal, political and constitutional affairs, and her research concerns constitutionalism, human rights and transnationalism. Fiona was heavily involved with abortion law reform, educating the public before the referendum on the *8th Amendment* (Article 40.3.3 of the *Constitution*) in Ireland.

Alongside Máiréad Enright (Senior Lecturer in Birmingham Law School), Fiona ran the website www.aboutthe8th.com, working to inform and empower the electorate to engage with the legal arguments for and implications of the repeal of the *8th Amendment*.

DR KATHERINE BROWN, Senior lecturer in Islamic Studies in the Department of Theology and Religion

In her work, Katherine researches how counter-terrorism and counter-radicalisation programmes impact on religious women's rights and Muslim communities. Recently she has given expert advice and testimony in the UK in a number of cases involving radicalisation.

Gender-mainstreaming ensures the different implications on men and women in any policy are considered and valued equally, and Katherine has worked for the UN on gender-mainstreaming in countering violent extremism. She has also given talks with the EU on violent extremism and radical beliefs, and provided academic oversight for think tanks.

How do regimes continue to rig elections and get away with it?

With electoral fraud in the media spotlight, both in the UK and internationally, it is important to explore how the electoral process can be undermined and exploited by those in power.

NIC CHEESEMAN,

Professor of Democracy and Fellow
of the Institute for Global Innovation

Nic's research into democracy, representation and electoral malpractice has attracted considerable academic, policy and media attention around the world, especially after the launch of his new book, *How to Rig an Election*. The book is based on his, and co-author Brian Klaas's first-hand experiences as election watchers and their hundreds of interviews with presidents, prime ministers, diplomats, election officials and conspirators.

Nic has commented on topics ranging from elections to gender inequality. He is the author of *Democracy in Africa: Successes, Failures and the Struggle for Political Reform*, and regularly provides analysis to the UK and US governments. He is an advisor to, and writer for, the late Kofi Annan's African Progress Panel, and also leads a new research programme on innovative ways to tackle gender inequality in health and wellbeing as part of the University's new Institute for Global Innovation.

‘Given the pressure that the media puts on us to provide glib answers and big predictions, we should be careful when it comes to forecasting the future, and always make sure that we bring in some complexities in a historically rooted analysis.’

Professor Nic Cheeseman

Genomic sequencing at the heart of outbreak response

Genome sequencing in disease outbreaks is useful to understand how a virus evolves, but the information has to be available quickly in order to guide control efforts. Portable DNA sequencing systems allow outbreak genome sequencing in real time, impacting directly on the response to a virus on the ground, as well as helping to build a picture of its evolution.

PROFESSOR NICK LOMAN,
Professor of Microbial Genomics and
Bioinformatics, School of Biosciences

Nick Loman and his team first saw success during their 'lab in a suitcase' genomic surveillance of the Ebola outbreak, before shifting their focus towards Brazil, and the spread of Zika.

They worked with health partners in Brazil to combat Zika by deploying a pair of mobile DNA sequencing laboratories on a medical 'road trip' through the worst-hit areas of the country.

Using portable, USB-powered genome sequencing equipment to analyse virus samples, the team used data gathered to track the spread of the virus and spot its emergence in large towns and cities; a crucial tool in the fight against these outbreaks.

YOUR PERSONAL DEVELOPMENT

Whatever your plans after completing your degree, we offer a range of schemes and services that will help you to identify your options, develop your opportunities and work towards your goals from the day you arrive at Birmingham.

PROFESSIONAL DEVELOPMENT

We want to ensure that success in your postgraduate degree leads you onto a fulfilling career.

Our aim is to help you grow intellectually and gain the skills, understanding and attributes that lead to the career you want. You will benefit from access to award-winning services including careers support from the Careers Network guidance service and University Graduate School.

SUPPORTING YOU

Whatever your motivation for postgraduate study, we are here to support you to achieve your personal goals. We expect a lot from our postgraduates, but you can expect a lot from us. We continually invest in the academic environment and ensure we support your wellbeing with tutors, dedicated teams and a suite of resources.

YOUR PROFESSIONAL DEVELOPMENT

Whether you're looking for a career as an academic, moving into a new sector or building your professional experience, we can offer you advice and guidance both during and after your degree.

Through our services, we can help you identify your career aims, contact prospective employers and develop your skills.

Birmingham postgraduates are highly sought after: we are the second most targeted university in the UK by top employers, according to the High Fliers' *Graduate Market in 2018* report. Our extensive links with major employers mean we have access to the most up-to-date information to enhance your employment prospects and offer a wide range of services that give our graduates the edge in the job market.

In addition to our work with major companies, we also work closely with the public sector, charities and not-for-profit agencies, as well as having very close ties with the region and its rich community of smaller employers across sectors.

WHAT CAN WE OFFER YOU?

We offer many opportunities for you to make the most of your postgraduate experience, on and off campus. We can help you gain experience, develop a broad range of skills and make useful contacts for your future career.

- One-to-one career guidance from College-specific advisors
- CV and job application advice
- An annual programme of careers fairs on campus
- Employer presentations – make contacts and find out more about what companies and organisations have to offer
- Careers workshops to help you with areas such as interview skills and finding work experience

For up to two years after graduation, you can access our full range of support at Careers Network.

- Graduate mentoring
- Skills training for postgraduates, including real-world business challenges
- Bespoke careers support, events, skills training and careers conferences specifically for postgraduate researchers
- Entrepreneurial skills training – support and advice on setting up your own business
- Online career action planning tools and self-enrolment career development courses – use in your own time to support your career planning
- International Careers Consultant and International Employer Liaison Officer

Each of our five Colleges also has its own careers and employability team. These teams deliver tailored programmes of careers events for you, and can provide you with advice and guidance services at locations within the Colleges.

Over the next pages, meet some of our graduates and learn what they went on to do in their careers after postgraduate study.

Through Alumni Impact funding I attended a Heritage Interpretation Conference and developed my networking skills with new, important contacts. Being able to network successfully is a vital skill to have for academic and career development.

AMELIA EVANS, MA INTERNATIONAL HERITAGE MANAGEMENT

How to make the most of our support

Your time at Birmingham is what you make of it, and we encourage you to participate in the various activities and opportunities available while you study. Rebecca has taken advantage of our campus activities and funded internships to ensure she builds a strong CV. She:

- Is the current Chair of Freedom from Torture society
- Was selected for a Careers Network 'Masters Campus Team Internship', working with Oxfam
- Volunteers for Child In Need India and is undertaking an internship at their head offices in Kolkata, India
- Took a module within her programme at the University of Delhi, funded by the University of Birmingham
- Received funding from her department to undertake dissertation fieldwork abroad

REBECCA READ, MSc International Development
(Birmingham Alumni Scholar)

BUILDING YOUR CONNECTIONS

Talking to employers can help you gain a greater understanding of your future job roles, and we provide many opportunities to meet prospective employers face to face. This can give you an insight into the skills that employers regard as the most valuable when applying for jobs or progressing your career.

'Getting to know' drop-in sessions with employers

These give you the opportunity to clarify information for job applications or find out more about specific companies and sectors. In the Spring Term we also hold a sector events series where you can hear from and network with various speakers, including alumni, about their experiences working in specific sectors.

Developing employability and entrepreneurial skills

We create opportunities for you to develop skills for the job market and to work for employers on campus, competing in real-world business challenges such as the Masters Consultancy Challenge.

Planning to move from Masters to PhD?

We also provide support if you are considering progressing from a Masters to a PhD at Birmingham or elsewhere, offering application advice and support with a careers advisor, informal cafés with current students and an online alumni networking portal.

WHERE COULD YOUR DEGREE TAKE YOU?

'My role is the most amazing job on the planet... it allows you to make a difference every single day.'

'Birmingham is such a fantastic diverse city... it's a place where you can really develop your talents.'

SARAH-JANE MARSH, MSc Russian and East European Studies; MSc Health Care Management

Sarah-Jane Marsh built a career in the NHS after studying at the Centre for Russian and Eastern European Studies then making a move into the Health Services Management Centre at Birmingham.

Sarah-Jane has led Birmingham Children's Hospital since 2009, when she became the youngest-ever NHS chief executive. She is also chair of NHS England Maternity Transformation Programme, making maternity care safer, including additional support for women with mental health issues.

'I had a fantastic start in the subject: my tutors were excellent in terms of what they taught me academically and in all the opportunities that they gave me – not least in introducing me to the organisation that I eventually ran for five years as Director, and in helping me to get my first work in Egypt.'

WHERE COULD YOUR DEGREE TAKE YOU?

When considering postgraduate study, it is useful to know the type of roles and career routes previous students have followed on graduation.

Our postgraduates help to make an impact across sectors, nationally and internationally; from social enterprise and cultural engagement to ethical business.

Whether you have just completed your undergraduate degree or have been out of higher education for many years, we can help you to build your unique career journey.

You may also come to realise you want to pursue a different career or passion, so if you are considering a career change – like some of our featured alumni – or looking to supplement your skills, it is possible to change career direction at postgraduate level in many programmes.

Across these pages you can see a small sample of the diverse career journeys our graduates have taken.

Explore your chosen field online, where you will find careers subject guides and profiles of a variety of alumni, working nationally and internationally.

www.birmingham.ac.uk/pgcareers

1 Gary started as an apprentice in Birmingham's world-famous Jewellery Quarter, where he climbed to Managing Director for Merrell Casting and Hockley Mint.

Having left school with just one O level, Gary was conscious that he had no formal management training, and so he chose Birmingham to complete his MBA to push himself as far as he could go. Now he wants to lead a revolution in ethical stones and metals. Five years ago Gary decided to become an ambassador for Fairtrade. He visited a non-certified mine in Tanzania, seeing young children working in dangerous conditions and learning why it was so important to ensure change.

'When you set yourself a career goal it is important that you build the scaffolding of knowledge and skills to enable you to deliver the role to the best of your ability. During my MBA, I learned that as a leader, it's your role to make positive change. By steering your company ethically, you can influence a whole sector. Now we're already working with 30 shops across the UK, providing the training and support they need to guarantee you can be proud of every aspect of your jewellery.'

GARY WROE

MBA alumnus and Managing Director for Merrell Casting and Hockley Mint

2 Marie strives to bring the contemporary visual arts to everyone in Birmingham and to help others get started in the arts. In her role with the Royal Birmingham Society of Artists (RBSA) she recently collaborated with Sense, a national charity that supports people with complex communication needs and helps them to enjoy more independent lives. Since Marie was a teenager she had wanted to work in the visual arts.

She now helps students and graduates prepare for a job in the arts, introducing them to creative industries through paid internships. Created by donors to the University, these internships enable students to develop practical experience that helps turn their passion into a career.

'University is a great forum for discovering what gives you purpose. Studying at Birmingham I learned to make my own to-do list in life, not to wait for others to make it for me. I learned how to think through challenges creatively, an approach relevant in every sector.'

DR MARIE CONSIDINE

PhD History of Art alumna and Gallery Director of the Royal Birmingham Society of Artists (RBSA)

Birmingham helped to shape my thinking and supported my growth, from developing leadership style to being introduced to world-class tutors and lectures.

GARY WROE

3 Chris Meah founded the School of Code during his PhD to ensure that no one is left behind as technology advances.

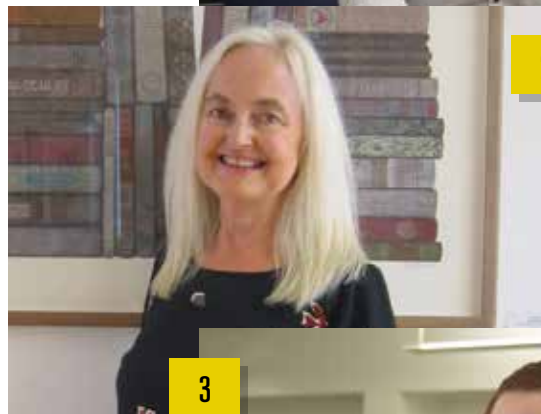

Companies who urgently need more employees with coding skills sponsor the School's boot camps, so they can offer the courses free of charge – removing barriers and getting more and different types of people into technology.

The 16-week course takes new learners from zero to coding professional; then helps them into jobs. The School has applicants from many backgrounds, including a baker, a school leaver, a musician, a chemist and a stay-at-home mum. Now 60% of the class are already in coding jobs.

'I hadn't seen a line of code before I came to university, and I saw the massive advantages that coding knowledge can give you in the modern world. So I wanted to share the skills people will need for the future.'

DR CHRIS MEAH

PhD Physical Sciences of Imaging in the Biomedical Sciences alumnus and School of Code founder

THE POSTGRADUATE COMMUNITY

Choose Birmingham and you will join one of the UK's largest postgraduate communities, with over 14,000 postgraduate students making up more than 40% of the total student population.

This means that you will be among like-minded people and receive the stimulation, support and challenges you need to succeed.

Our postgraduates have a distinctive voice and are highly valued members of the University. We ensure this through student representation and dedicated facilities and resources, such as our University Graduate School.

Life as a postgraduate student involves much more than just studying for your degree. You can get involved in research and special interest groups, contribute to publications, talks and conferences, and take advantage of a broad range of opportunities to gain new skills.

Once you graduate, our global community of over 300,000 alumni includes people living in more than 190 countries around the world. We have alumni groups – from the USA to Hong Kong – that provide the chance to keep in touch with fellow alumni locally, share memories and build valuable professional connections.

UNIVERSITY GRADUATE SCHOOL

The University Graduate School (UGS) supports our postgraduate community. The UGS is a gateway to advice and support for postgraduates, working with the other University support services to ensure you have access to high-quality training, facilities, tutoring and supervision.

The UGS will give you formal and informal opportunities to raise your profile, network with peers and colleagues, and help you make the most of your time here.

'We are here to ensure that all postgraduates across the University are equipped to do the highest quality study and research during their time at Birmingham, and that they have the skills needed to pursue the career they choose.'

PROFESSOR GAVIN SCHAFFER,
Director of Graduate Studies

GROUPS AND SOCIETIES

There are many groups and societies for postgraduates, in addition to over 250 active student groups and societies hosted by the Guild of Students, covering a wide range of interests, charities and causes. Each School also runs its own social activities, research fora, seminars and groups for postgraduates, all of which you will find out about as you progress to beginning your degree.

REPRESENTATION

The **Postgraduate and Mature Students Association (PGMSA)** is the representative body for postgraduates and mature students that works with the Guild and the University to champion your needs. The PGMSA also organises a programme of social and orientation events that runs during Welcome Week and throughout the academic year, including the Postgraduate Housing Event and weekly socials in Staff House – the on-campus bar exclusively for University staff and postgraduate students.

The Guild is your students' union and, if you choose to continue your studies at Birmingham, you will automatically become a member. The Guild is proud to have a full-time elected Postgraduate Officer; one of only a few in the country.

GET IN TOUCH

postgraduate@guild.bham.ac.uk

🐦 @guild_postgrad

📘 /guildpostgraduate

📷 @guild_postgrad

Our global community provides opportunities for you to travel and undertake study or work experience at other universities. We have partner universities all over the world, from Australia and the USA to Malaysia and the West Indies, and throughout Europe and Latin America.

'The Guild is a democratic student-led organisation that exists independently from the University to ensure you make the most out of university life. As your Postgraduate Officer, I am here to support you and make sure your voice is heard.'

'I know first-hand that postgraduate study can be challenging but it's important to remember that there's a life outside academia. There are so many ways to get involved with your university community, such as volunteering, joining a society or becoming a Student Rep. If you have any questions about the postgraduate community here at Birmingham, feel free to get in touch with me using the contact details on this page.'

JESSICA SMALL, Postgraduate Officer
at the University of Birmingham

SUPPORTING YOU

At Birmingham, we expect a lot from our postgraduate students, but we have created and continue to invest in an academic environment that will help you realise your potential.

We understand that there may be occasions when you need some assistance to make the most of your time with us. We provide a wide range of student services to meet the needs of our diverse student community. The Student Hub brings many of these services together at the heart of our campus in the Aston Webb Building. Our services are also available online through Student Help, providing a range of advice resources. Whether you are looking for information, guidance, emotional support or a specific student service, the Student Hub is a great starting point.

YOUR GRADUATE SCHOOL

The University Graduate School (UGS) acts as your central resource point, giving you access to a wealth of services to support you in your studies or research, develop your skills and prepare you for success in a competitive global market.

The UGS runs a number of development activities, networking opportunities, advice events (including finance and careers guidance) and conferences

that will provide you with valuable opportunities to meet and learn from peers and colleagues across the University.

Our Welcome programme also enables you to get to know other new postgraduates in a friendly, informal setting and build networks that can last a lifetime.

www.birmingham.ac.uk/ugs

SKILLS TRAINING AND DEVELOPMENT

The Academic Skills Centre (ASC) offers a wide range of training courses for Masters students, designed to develop both your academic skills and transferable workplace knowledge. Whether you need to deliver a presentation, improve your writing skills or get to grips with project management, we offer courses that will help you.

We also offer in-session English language support for you during your degree to help you become comfortable in your studies and in written work.

www.birmingham.ac.uk/bia

ACCESS ONLINE

Our Virtual Learning Environment (iVLE), Canvas, grants online access to course content, programme materials, assessment, discussion boards, webinars and recorded lectures, giving you the flexibility to work independently and in your own time.

Explore our support:
www.birmingham.ac.uk/pggsupport

ENABLING DISABLED STUDENTS

We aim to create an inclusive learning community. If you have a disability (including long-term health conditions, specific learning disabilities such as dyslexia, or a mental health difficulty) our Disability Learning Support and Mental Health Service can help you to have the best possible experience at Birmingham. Disclosing a disability will not affect your academic course admission but will ensure that you receive any support or adjustments you require. Our professional team is available to provide you with specialist advice and support, including helping you to identify any disability funding support you may be entitled to.

ARE YOU STUDYING AS A PARENT?

Your family matters! If you are juggling your studies with the care of young children, we provide two day nurseries, situated close to the heart of campus, offering a high standard of care and experience. Both are open five days a week for 51 weeks of the year, to fit around your academic life.

SUPPORTING YOUR WELLBEING

We provide a confidential service to help you manage practical, emotional and psychological issues that may have an impact on your life at university and your academic success. Our team of professional counsellors and wellbeing advisors offer one-to-one sessions, including online counselling, and facilitate a number of support groups covering many issues that students experience while at university. Guild Advice also offers a free, impartial and confidential advice service for students at Birmingham. Their fully trained advisors offer practical advice on diverse subjects relating to student life, from academic and financial matters to questions about immigration, housing and employment.

FAITH AND FRIENDSHIP

The University's Multi-Faith Chaplaincy is for students of all faiths and none. Meet for worship, relax in the Oasis Lounge, or see a chaplain for spiritual or religious advice and pastoral counselling. We have chaplains from most major faith traditions, as well as many student-led faith groups and societies.

OUR PROGRAMMES

With more than 600 taught programmes and a range of research opportunities to choose from, Birmingham is one of the most popular UK universities for postgraduate study.

WHICH PROGRAMME SHOULD YOU CHOOSE?

We recognise that in an increasingly fast-paced world, flexibility in terms of how and where you undertake your studies is important. Our portfolio of programmes offers a modern solution for today's postgraduate students.

From part-time and distance learning options through to degree programmes taught by our faculty overseas, we offer a range of opportunities to suit your personal or professional needs. Learn more about your options in this section and find out how to apply.

MASTERS-LEVEL PROGRAMMES

These are usually one year in length (and a minimum of two years if taken part time). Comprising a number of modules, they are assessed by a combination of coursework, examination and dissertation, and lead to the award of a Masters qualification.

Our **taught Masters** programmes are the next step after undergraduate study and can be pursued to further your knowledge and expertise, to prepare for a research degree, to gain a vocational qualification or even to change careers.

A **combined research and taught Masters**, such as the MRes, is often taken as a stepping stone to doctoral study. These combined programmes will provide you with taught modules to increase your knowledge of a subject, and the opportunity to complete an extended research thesis with the appropriate training and supervision.

A **research Masters**, such as the MSc by Research, is a good way to investigate a topic in greater depth, to prove your capacity for undertaking research and/or to demonstrate your suitability to progress to a doctoral degree.

DOCTORAL RESEARCH PROGRAMMES

These involve the completion of original academic research. They also include research skills training that will equip you to become an independent researcher, capable of advancing knowledge in your field.

Doctoral degrees, such as the PhD, are the highest level of academic qualification, for which you will conduct original research and make a contribution to a field of knowledge. Doctoral researchers often teach undergraduate classes during their degree programme and you will usually contribute to the research life of your department by presenting papers at seminars and conferences.

We also offer programmes at our Dubai campus, as well as in Singapore, in partnership with the Singapore Institute of Management (SIM).

See pages 122–125 for details on these programmes.

My course provided such a great diversity of opportunity; from the courses and modules on offer, to the people that it attracted from around the world. It was a great eye-opener about how diverse our world is and how interesting a place it can be.

THOM TOWNSEND, MSc CONFLICT, SECURITY AND DEVELOPMENT AND SENIOR POLICY ADVISOR AT THE CABINET OFFICE

'My course has been filled with opportunity and has allowed me to develop as a writer and independent thinker. Undertaking part-time study, I found the modules and tutors flexible and accommodating, and I had extra time to commit to development and research opportunities.'

NIALL GALLEN,
MA Literature and Culture (part-time)

Once you have decided which level and type of degree is most appropriate for you, you can find more details on the degree, support and funding for each level of study on our Course finder pages at www.birmingham.ac.uk/pgcourses

From part-time and distance learning options through to degree programmes taught by our faculty overseas, we offer a range of opportunities to suit your personal or professional needs.

DECIDE YOUR MODE OF STUDY

Flexibility in the mode of learning enables you to undertake learning and assessment through different methods and formats. On some of our courses, you can choose which mode of study you take; whether it is campus-based, block delivery, blended or distance learning. Some courses are offered by more than one mode and you may be able to transfer from one mode to another.

FULL-TIME OR PART-TIME?

Although full-time study is still the most common choice for our students, we know that many of our postgraduates, for professional, family or financial reasons, prefer to take their degree course on a part-time basis, either on campus or through distance (online) learning. Some of our programmes now offer these options. Please note that due to visa restrictions, international students (from non-EU/EEA countries) studying on campus are normally only eligible for full-time study.

'Engineering and business has always been connected, and I wanted to build my career in marketing. A conversion course gave me marketing knowledge that I lacked before and polished my mathematical, analytical and project management skills – an advantage in the increasingly digital and data-driven practices of marketing.'

APRIL CHEUNG, MSc Strategic Marketing and Consulting alumna

DISTANCE LEARNING?

If you have commitments that don't allow you to study via the standard on-campus mode, or you prefer an online learning format, then you may like to consider applying for a distance learning programme (a mode of study that is sometimes also referred to as distance education). The main advantage of studying by distance learning is its flexibility. You can study at home, in your own time and at your own pace, so you can combine achieving a qualification with work or family commitments.

HOW ARE OUR TAUGHT PROGRAMMES COMPLETED AND ASSESSED?

All our degrees are set within a credit framework designed to measure your academic achievements. You acquire credits by taking a number of compulsory and optional modules.

MASTERS-LEVEL QUALIFICATIONS

We expect all students to accumulate 180 credits in each full year of study on a Masters-level course. Credits are acquired by taking compulsory and optional modules, which are part of each degree programme. These credits are equivalent to 40 hours' learning a week, through a combination of independent study and contact time in lectures and seminars. Modules may be based around a single subject or a small part of a much broader area.

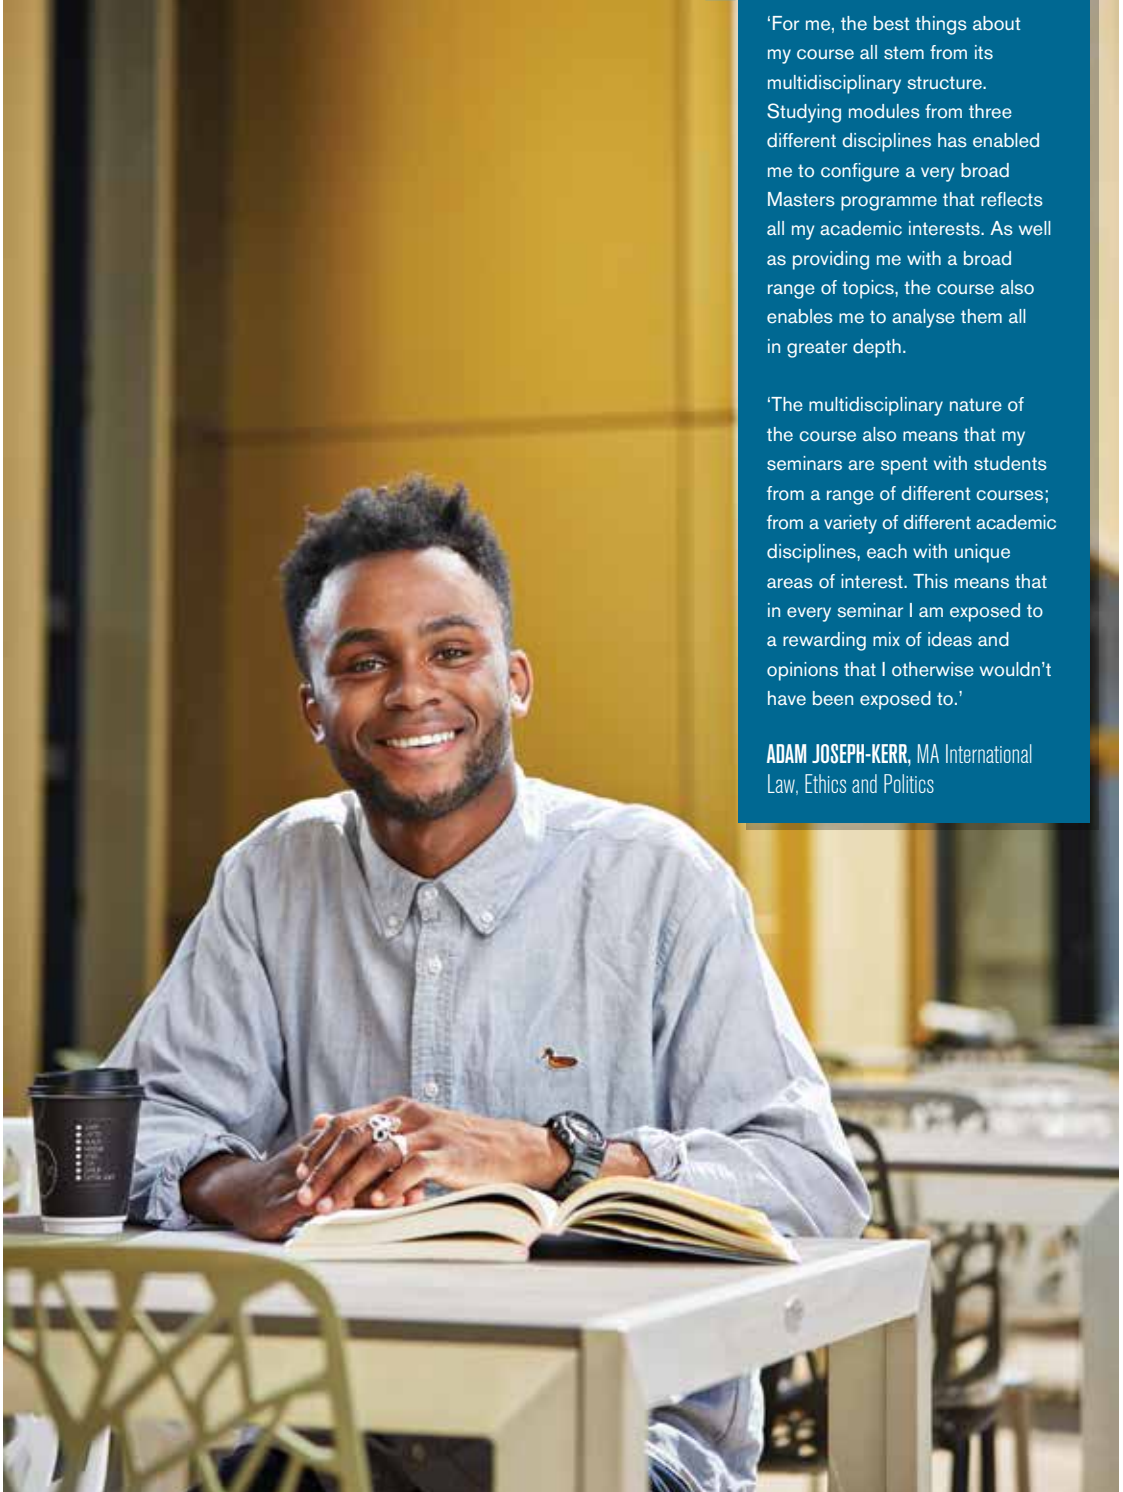

HOW CAN CREDITS BE USED?

The European Credit Transfer and Accumulation System (ECTS) is a credit system designed to standardise degree programmes or training. You can show your credits to employers and other institutions to show the equivalency of your qualification.

TYPES OF MASTERS DEGREE

QUALIFICATION	KNOWN AS	CREDITS	ECTS CREDITS	TYPICAL LENGTH OF COURSE
Masters	MA/MSc/LLM	180	90	1 year full time, 2 years part time
Master of Education	MEd	180	90	3 years
Master of Public Health	MPH	180	90	
Master of Business Administration	MBA	180	90	12-month intensive full time, or extended to 2 years with preliminary courses Over 2-4 years part time, in intensive blocks
The below qualifications can usually be 'topped up' to Masters qualifications by completing further credits, usually in the form of a dissertation, and are usually 'exit qualifications' for those studying Masters.				
Postgraduate Diploma	PGDip	120	60	9 months or less
Postgraduate Certificate	PGCert	60	30	9 months or less

'For me, the best things about my course all stem from its multidisciplinary structure. Studying modules from three different disciplines has enabled me to configure a very broad Masters programme that reflects all my academic interests. As well as providing me with a broad range of topics, the course also enables me to analyse them all in greater depth.'

'The multidisciplinary nature of the course also means that my seminars are spent with students from a range of different courses; from a variety of different academic disciplines, each with unique areas of interest. This means that in every seminar I am exposed to a rewarding mix of ideas and opinions that I otherwise wouldn't have been exposed to.'

ADAM JOSEPH-KERR, MA International Law, Ethics and Politics

RESEARCH PROGRAMMES AT BIRMINGHAM

Our research programmes involve the completion of original academic research, or a piece of scholarship, which you will conduct under expert supervision from a Birmingham academic. You will also be supported by a thriving academic community of internationally renowned research staff and talented research peers, alongside research skills training.

We are proud of the breadth and depth of the research undertaken across the University. Our programmes and expert supervision will equip you to become an independent researcher, capable of advancing knowledge in your field.

You have the opportunity to pursue research at either Masters or Doctoral level through our suite of programmes and qualifications. Depending on your background and career plans.

MASTERS-LEVEL RESEARCH DEGREES

QUALIFICATION	KNOWN AS	TYPICAL LENGTH OF COURSE	TYPICAL LENGTH OF THESIS	COURSE TYPE
Master of Arts/Science by Research	MA/MSc by Research	1 year	40,000 words	Research
Magister Juris	MJur	1 year	40,000 words	Research
Master of Philosophy	MPhil	2 years	60,000 words	Research
Master of Research	MRes	1 year	15–20,000 words	Taught and research

RESEARCH DEGREES

QUALIFICATION	KNOWN AS	TYPICAL LENGTH OF COURSE	TYPICAL LENGTH OF THESIS	COURSE TYPE
Doctor of Philosophy	PhD	3 years full time, 6 years part time, plus writing up	50,000–80,000 words	Research
Doctor of Medicine	MD	2 years, part time	50,000–80,000 words	Research (with some taught options)
Doctor of Engineering	EngD	4 years	50,000–80,000 words	Research and taught
Professional Doctorates	EdD, ClinPsyD, ForenPsyD, AppEd, ChildPsyD	3 years	50,000–80,000 words	Research and taught
Doctor of Philosophy with integrated study	PhD	4 years	50,000–80,000 words	Research and taught

ROUTES INTO RESEARCH AT BIRMINGHAM

There are, generally, two routes to a Birmingham research degree:

- You can apply to an ‘advertised PhD’, which means it is part of an established research project and is usually funded by the University or other funding body. Generally, advertised PhDs are associated with the physical and life sciences subjects. Some advertised PhDs will be pre-defined but some may require you to propose your own research.
- Apply to any of our PhD programmes and propose your own research that is ‘self-funded’ (by you, a sponsor, or other sources not explicitly attached to the PhD on application). Usually you submit a research proposal and identify your proposed supervisor. These are generally associated with the arts and social sciences.

If you are applying to an advertised PhD:

Find and identify your project via our advertised PhDs database:
www.birmingham.ac.uk/findaphd

If you are proposing your own research:

Begin your supervisor search via our staff search, where you can view research interests:
www.birmingham.ac.uk/findasupervisor

FUNDING YOUR DEGREE

We have invested more than £28 million in student support and scholarships to help you to pursue postgraduate study. You will have access to a range of resources and advice to help you find funding and manage your finances while you are studying.

FUNDING AND SCHOLARSHIPS FOR YOUR MASTERS

We understand that continuing your education to postgraduate level is a significant financial commitment. We aim to provide you with information on all the associated costs so there are no surprises once you begin your course.

WHAT DOES IT COST?

Tuition fees for your course

Tuition fees vary depending on the course you choose and whether you are a home (UK/EU) or international student. You can find details of the tuition fees for individual courses on our website or in the course directory (pages 66–125).

How to pay your fees

You can choose to pay your tuition fees in full or make monthly or termly instalment payments using the University direct debit scheme from a UK bank account on our website.

Find out more:
www.birmingham.ac.uk/pgfees

POSTGRADUATE LOAN

The Postgraduate Masters Loan is available for home (UK/EU) students undertaking Masters study. Up to £10,609 is available for the 2018–19 academic year. It will be a contribution towards the cost of study, and whether you use the loan for fees, maintenance or other costs will be at your own discretion. The loan is available across all subject areas for full-time, part-time and distance learning Masters programmes, so long as you don't already have a Masters qualification (or equivalent).

www.birmingham.ac.uk/pgtloan

Students from Wales, Scotland and Northern Ireland

There are different loans available to students joining us from Wales, Scotland and Northern Ireland.

Wales: Receive up to £13,000 available towards your Masters course (2018–19).
www.birmingham.ac.uk/wales-pgl

Scotland: Full-time students can receive up to £5,500 towards tuition fees and £4,500 towards living costs (2018–19).
www.birmingham.ac.uk/scotland-pgl

Northern Ireland: Receive up to £5,500 towards your tuition fees (2018–19).
www.birmingham.ac.uk/ni-pgl

MASTERS SCHOLARSHIPS

We offer a number of scholarships to help you invest in your future. We support our students to flourish in their careers, providing subject and University scholarships, as well as providing you with support on alternative ways to fund your degree.

Your programme and its department sit within one of our five Colleges, all of which offer their own scholarships and awards. The majority of these provide help towards fees, although some may also contribute towards living costs.

SEARCHING FOR FUNDING?

Use our funding and scholarships database to find sources of funding that may be available to you. Use the search to find all University and third-party scholarships for which you are eligible to apply:

www.birmingham.ac.uk/pgfunding

Government funding may be available to cover UK tuition fees in the following areas:

- Initial Teacher Training
- Social work – through a social work bursary
- Medical or healthcare courses – through an NHS bursary

www.gov.uk/funding-for-postgraduate-study

FUNDING AND SCHOLARSHIPS FOR YOUR RESEARCH DEGREE

There are many ways to finance your research degree; from scholarships and studentships to loans and partial funding from other sources. Below we will explore your options, although you can find many more sources online via our funding database.

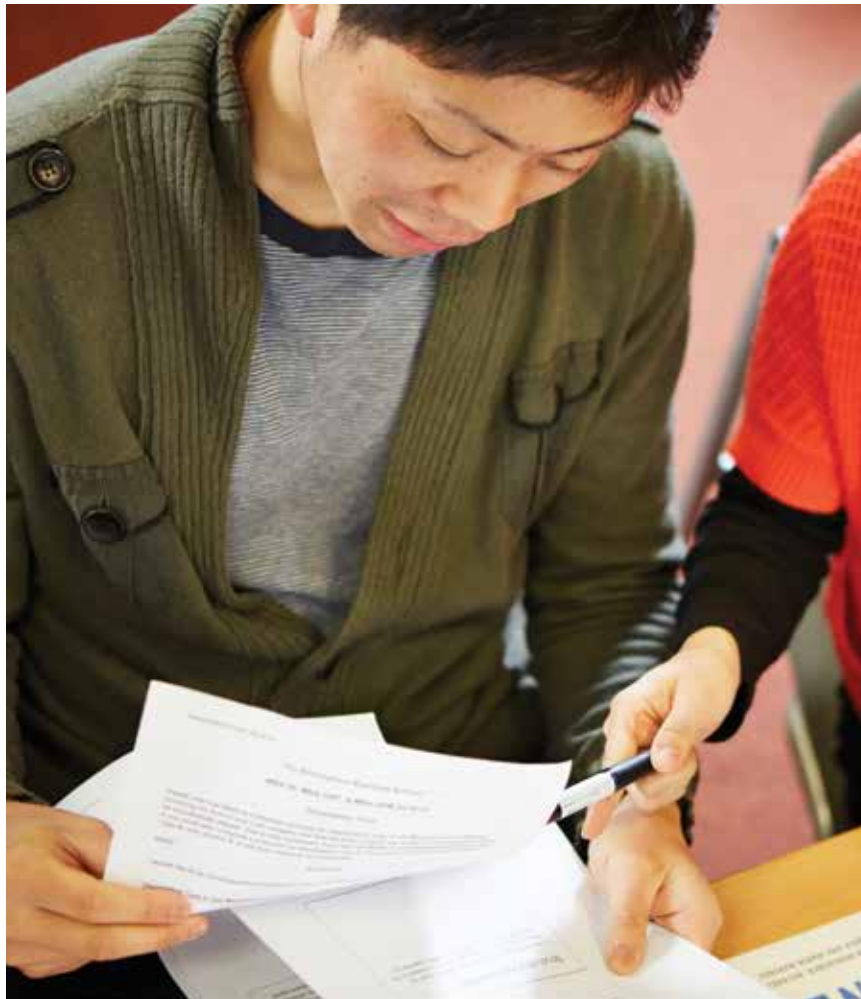

WHAT DOES IT COST?

Tuition fees for your course

Tuition fees are charged annually. You can find your course fees on our website or in the course directory (pages 66–125). There may also be additional costs associated with field trips, travel and undertaking research off-campus.

How to pay your fees

You can choose to pay your tuition fees in full or make monthly or termly instalment payments using the University direct debit scheme from a UK bank account.

Find out more:
www.birmingham.ac.uk/pgfees

POSTGRADUATE DOCTORAL LOAN

The Postgraduate Doctoral Loan is a new government loan for the 2018–19 academic year. You can use the loan to help with course fees and living costs. UK or EU nationals who normally reside in England can borrow up to £25,000 that will be divided equally across each year of your course. Your course can be full or part time and last between three and eight academic years.

www.birmingham.ac.uk/pgdloan

RESEARCH COUNCIL FUNDING (UKRI)

There are seven government-funded research councils, known jointly as UKRI (United Kingdom Research and Innovation) that offer financial support to postgraduate students:

- AHRC (Arts and Humanities Research Council)
- BBSRC (Biotechnology and Biological Sciences Research Council)

- ESRC (Economic and Social Research Council)
- EPSRC (Engineering and Physical Sciences Research Council)
- MRC (Medical Research Council)
- NERC (Natural Environment Research Council)
- STFC (Science and Technology Facilities Council)

Full UKRI awards cover the cost of tuition fees and also provide a maintenance grant to support you during your studies. Find out more about our funded centres and partnerships on page 58.

APPLYING FOR FUNDING

We offer scholarships to support research postgraduates to invest in their future, along with a number of funded studentships offering generous support.

Funding support for PhD study can be provided in different ways, with some covering the programme fees and including a stipend (maintenance costs), while others may simply be a one-off financial award.

Your first consideration for funding should be our advertised PhDs, UKRI (United Kingdom Research and Innovation), or the many funding bodies listed on our Postgraduate Funding database.

There are two main ways to fund your PhD:

- 1 Apply for a PhD that already has funding attached.** These are most common in STEM (Science, Technology, Engineering and Medicine) subjects, but they can sometimes be available for pre-defined research projects in the arts, humanities or social sciences. These may be advertised as fully funded (with fees and a stipend) or competition funded, meaning the projects compete against other projects at each institution. Search funded projects: www.birmingham.ac.uk/findaphd
- 2 Self-fund, or search for funding or a studentship once you have an offer.** You devise your own PhD topic, find a supervisor, write a research proposal and apply to the relevant programme. If you're offered a place at Birmingham, you can then apply for studentships or funding from various sources.

Searching for funding?

Use our funding and scholarships database to find sources of funding that may be available to you: www.birmingham.ac.uk/pgdfunding

DOCTORAL TRAINING PARTNERSHIPS AND CENTRES

We have strong partnerships that provide an inspirational and interdisciplinary research environment with access to studentships and funding to help you complete your research degree.

DOCTORAL TRAINING PARTNERSHIPS AND CENTRES

A significant proportion of the UK research council's funding for postgraduate research studentships is now awarded to institutions via Centres for Doctoral Training (also known as DTCs or CDTs) and Doctoral Training Partnerships (DTPs), Industrial Doctorate Centres (IDCs) or Engineering Doctorate Centres (EDCs).

These are funded by UKRI (UK Research and Innovation), with each research council supporting academic excellence in its specific field through flagship doctoral training.

We are proud to continually secure this competitive funding for our centres and partnerships with other universities. These research council studentships are regarded as some of the most prestigious postgraduate awards available in academia and are highly sought after; competition is extremely fierce.

We host a number of centres, drawing upon the expertise and facilities of a broad range of collaborative partners and interdisciplinary networks, all of which offer full studentships to enable you to undertake and complete your doctoral degree at Birmingham.

As a Birmingham doctoral researcher, you will have the opportunity to work across disciplinary boundaries, both within the University and with a range of business, industry, higher education and research council partners. Some of our many UKRI-funded arrangements are listed here.

Biotechnology and Biological Sciences Research Council (BBSRC)

The Midlands Integrative Biosciences Training Partnership delivers innovative, world-class research training across the life sciences to boost the growing bioeconomy across the UK.

www.birmingham.ac.uk/mibtp

Arts and Humanities Research Council (AHRC)

The Midlands4Cities DTP brings together eight leading universities in the Midlands to combine research expertise that encourages the professional and personal development of Arts and Humanities doctoral researchers.

www.birmingham.ac.uk/ahrc

Natural Environment Research Council (NERC)

The Central England NERC Training Alliance (CENTA) DTP and the NERC CDT in Oil & Gas work to provide excellence in doctoral research training, giving postgraduates extensive training and confidence in all aspects of their research.

www.centa.org.uk

www.nerc-cdt-oil-and-gas.ac.uk

RESEARCH COUNCIL-FUNDED COLLABORATIONS

Medical Research Council (MRC)

The Integrated Midlands Partnership for Biomedical Training (IMPACT) DTP combines research from the universities of Birmingham, Leicester and Nottingham to provide motivated postgraduates with the support and expertise to make a difference.

www.birmingham.ac.uk/mrc

We also host several DTPs and Centres of Excellence with the Wellcome Trust and Arthritis Research UK. Explore our training partnerships and centres:

www.birmingham.ac.uk/dtp

Engineering and Physical Sciences Research Council (EPSRC)

We have a range of centres, from Clean Power to Manufacturing, providing training that equips engineers and scientists with the skills, knowledge and confidence to tackle today's big issues.

www.birmingham.ac.uk/epsrc

Economic and Social Research Council (ESRC)

The Midlands Graduate School DTP offers postgraduate researchers 17 different training pathways that span various social sciences disciplines. The DTP consists of six partner universities: Birmingham, Aston, Leicester, Loughborough, Nottingham and Warwick, and also offers funding for doctorates.

www.birmingham.ac.uk/esrc

DREAM: jointly funded CDT

Funded by NERC and ESRC, DREAM is a CDT in 'Data, Risk and Environmental Analytical Methods', supporting 37 students to undertake research that will help implement risk mitigation strategies in the environmental sciences.

www.dream-cdt.ac.uk

WHAT'S THE DIFFERENCE?

Doctoral Training Partnerships (DTPs) support PhD studentships across all areas of a research council's subject remit. They may have specific areas of expertise, based on available supervisors and facilities, but the studentships they have available can be used for a broad range of projects.

Centres for Doctoral Training (CDTs) or Doctoral Training Centres (DTCs) have more specific goals. They recruit PhD students to build up research expertise in target areas.

Industrial Doctorate Centres and Engineering Doctorate Centres combine PhD-level research projects with taught courses, and students spend about 75% of their time working directly with a company.

HOW TO APPLY

Applying to our postgraduate courses is an easy, online process. Formal applications are made directly to us using our online Course finder, but the process will vary depending on your programme and how it has been advertised. In these pages, find out more about the application process for each level of study.

THE APPLICATION PROCESS

Before you begin your formal application, read the guidance below and make sure you follow our step-by-step guide to applying to either our taught or research programmes on the following pages.

Once you have submitted your application, you will be able to track its progress at every stage of the admissions process, update your personal information, view decisions and accept any offers you may receive.

Choose your level and course using our online tools:
www.birmingham.ac.uk/pgcourses

YOUR DOCUMENTS

All documents must be in English or have a certified translation. If you provide documents by uploading them into the online postgraduate application system (found through Course finder) and are made an offer, you will be required to send certified copies or original documents as a condition of the offer.

Visit our website for information and guidance on document submission and the full application process at Birmingham:
www.birmingham.ac.uk/pgapply

We recommend you supply all of the following documents at the point of submitting your application to ensure that there are no delays:

- Your academic transcripts and any other supporting material
- If not submitted within the application form, a personal statement explaining why you are interested in studying your chosen programme
- If required, additional information to be submitted such as a CV or a sample of work (this will be stated within the application form)
- If English is not your first language, a certificate to show competency in the English language will be required (see page 62)
- Your research proposal (if required)

International students

If you require a visa to study in the United Kingdom, you will need to apply by 1 July 2019. We are not able to consider applications for 2019 made after this date.

ESSENTIAL INFORMATION

Before you apply, visit our website to view essential information for all applicants. This page includes important terms, conditions and requirements that the University will apply and rely upon in its future relationship with you. It is essential that you read them carefully. If you decide to accept your offer, a contract will be formed between you and the University.

Your rights and obligations to the University and the University's obligations to you arising under that contract are set out on our website and form the terms and conditions of your student contract.
www.birmingham.ac.uk/applicantinformation

ENTRY REQUIREMENTS

To gain a place at Birmingham, you will need to meet the specific entry requirements for your chosen course.

Our postgraduate programmes usually require a **good Honours degree (normally a 2:1 or above)**, or an equivalent qualification if you were educated outside the UK. There may also be additional requirements, such as prior or practising work experience.

If you are applying for a PhD then you may also need to hold a good Masters qualification, however, for some programmes, this may not be a requirement.

Specific entry requirements for individual courses can be found in the course directory (pages 66–125), in supplementary subject brochures or online via our website:
www.birmingham.ac.uk/pgcourses

ENGLISH LANGUAGE COURSES

If you do not have the required level of English, you can enrol on one of our pre-sessional English programmes before the start of the academic year, delivered by our Birmingham International Academy. Passing the appropriate programme means you will automatically meet the English language requirements of your offer and can progress to your academic studies here.
www.birmingham.ac.uk/bia

ENGLISH LANGUAGE REQUIREMENTS

If your first language is not English then you will need to demonstrate that you have a high level of written and spoken English by providing evidence of an English Language qualification.

Certificates should be no more than two years old at the time of admission.

The table below details the IELTS or TOEFL scores you will need but we also accept other qualifications.

Check the equivalency of other language qualifications on our website:
www.birmingham.ac.uk/intreqs

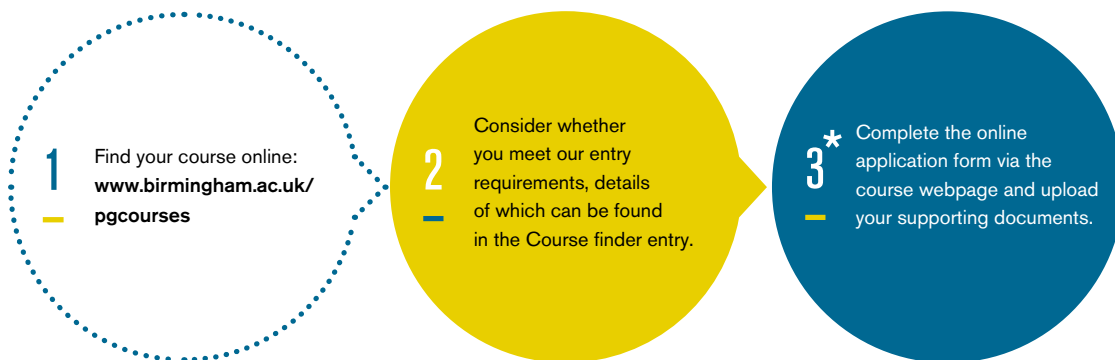

ACADEMIC AREA	IELTS	TOEFL
Engineering, Science	6.0 with no less than 5.5 in any band	80 with no less than 19 in Reading, Listening and Writing, and 21 in Speaking
Arts*, Business (see exceptions below), Education (taught), Health Sciences, Public Policy, Social Sciences	6.5 with no less than 6.0 in any band	88 with no less than 21 in Reading and Writing, 20 in Listening and 22 in Speaking
Dentistry, Education (research), Law, Medicine, Business: Human Resource Management, Marketing, International Marketing, Economics and International Economics	7.0 with no less than 6.5 in any band	95 with no less than 22 in any band

*Some programmes require higher grades. Please see individual course entry requirements for further details.

APPLYING FOR A TAUGHT PROGRAMME

Formal applications for taught programmes are made directly to us using Course finder: www.birmingham.ac.uk/pgcourses

Applying for a taught programme usually involves three easy steps:

* Some taught courses may charge a £50 application fee. For further information, visit www.birmingham.ac.uk/pgappfee

ARE YOU APPLYING FOR TEACHER TRAINING OR SOCIAL WORK PROGRAMMES?

You will need to apply to our Social Work and Initial Teacher Training programmes through UCAS. You can register and apply as soon as the UCAS portal opens (usually in October).

APPLYING FOR A RESEARCH PROGRAMME

At Birmingham, there are generally two routes to a research degree. Follow the application steps on this page, or next, depending on your preferred route.

APPLYING FOR AN 'ADVERTISED PHD'

You can apply to an 'advertised PhD', which means it is part of an established research project and is usually funded by the University or other funding body. Generally, advertised PhDs are associated with the physical and life sciences subjects.

Find your course online:
www.birmingham.ac.uk/pgcourses

Search our advertised PhDs:
www.birmingham.ac.uk/findaphd

1

Find and identify your project via our advertised PhDs database
www.birmingham.ac.uk/findaphd

2

Apply via Course finder to the relevant PhD subject area. In most cases, the advertised listing will direct you to the correct course page. You may be applying to the specific project or be asked to apply to a larger subject area and identify the project title within your application.

3

Prepare your statement and supporting documents.

4

Submit your application online via Course finder and upload your supporting documents.

APPLY TO PROPOSE YOUR OWN RESEARCH

You can propose your own research rather than join an existing research project. You will need to submit a research proposal to conduct a unique piece of research and identify your proposed supervisor. Funding can be found from other sources such as scholarships, charities, loans and self-finance. Generally, these PhDs are associated with the arts and social sciences.

Search for a potential supervisor:
[www.birmingham.ac.uk/
findasupervisor](http://www.birmingham.ac.uk/findasupervisor)

1

Choose which research degree (PhD, MA/MSc by Research or MRes) and consider the research area and themes.

2

Begin your supervisor search ([www.birmingham.ac.uk/
findasupervisor](http://www.birmingham.ac.uk/findasupervisor)).

3

Consult with a potential supervisor or department.

4

Explore your funding options: [www.birmingham.ac.uk/
pgfunding](http://www.birmingham.ac.uk/pgfunding)

5

Write your research proposal using our online advice ([www.birmingham.ac.uk/
proposalwriting](http://www.birmingham.ac.uk/proposalwriting)).

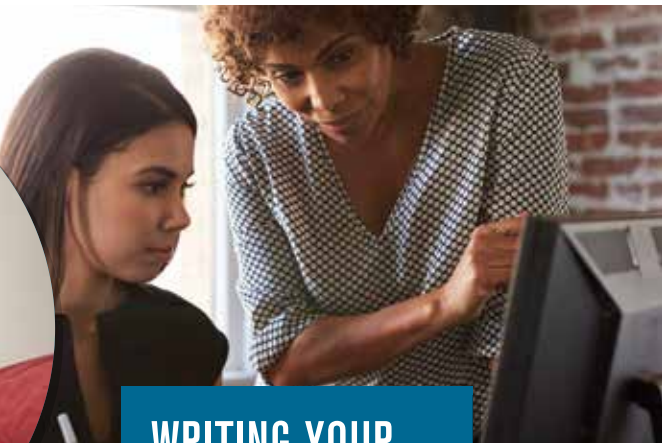

6

Submit your application via Course finder and upload your supporting documents, including your research proposal and potential supervisor name(s).

WRITING YOUR RESEARCH PROPOSAL

A research proposal is a concise and coherent summary of your proposed research. It is a key part of your application, on which potential supervisors will decide if your research is something they can support.

We've provided help and advice for each of the steps of writing your proposal here: [www.birmingham.ac.uk/
proposalwriting](http://www.birmingham.ac.uk/proposalwriting)

COURSE DIRECTORY

Use our directory to find the right course for you.

FIND YOUR PERFECT POSTGRADUATE DEGREE

Our programmes are listed alphabetically by subject area, to help you find all programmes available in your subject(s) of interest.

HOW TO USE OUR DIRECTORY

Programmes are sorted by level, identifying the Masters, Masters-level research and doctoral research options by colour. Visit the website, or send an email, using the details listed in the final column to get more information on your chosen programme.

The typical duration of study for each level can be found in the adjacent table.

Where the length of programme does not fit the standard duration, the programme length will be listed in brackets.

Full-time fees are listed for UK/EU and international students, by using a colour key. Normally, fees for a PG Diploma or Certificate are two-thirds or one-third of the Masters fee, respectively. Part-time fees are pro rata (or a proportion of the full-time fee) or may be charged on a modular basis.

Programmes available on our Dubai campus and through the Singapore Institute of Management can also be found on page 122–125.

LEVEL	FULL TIME (FT)	PART TIME (PT)
PGDip	Usually 8 months to 1 year	Minimum 12 months
MA MSc	Usually 1 year	Usually 2 years
MPhil	Usually 2 years	Usually 4 years
PhD	Usually 3 years (plus writing up)	Usually 6 years (plus writing up)

To explore our courses, view module information and apply, use our Course finder:
www.birmingham.ac.uk/pgcourses

YOUR NEXT STEPS

A prospectus can only tell you so much. The best way to find out what Birmingham can offer you as a postgraduate student is to see for yourself.

POSTGRADUATE OPEN DAYS

Campus open days are an excellent way to explore the campus and local accommodation, and you can also speak with our expert support and academic staff to find out more about Birmingham and your course.

Our next dates are:

- Saturday 24 November 2018
- Wednesday 20 March 2019

Reserve your place:
www.birmingham.ac.uk/cafemasters
www.birmingham.ac.uk/cafephd

CAFÉ MASTERS AND CAFÉ PHD

These regular events offer an opportunity to get first-hand, impartial advice on what it is actually like to be a postgraduate at Birmingham. The Cafés are informal social events designed to enable anyone interested in postgraduate study to network with current students over a few drinks.

CAMPUS TOURS AND CONVERSATION

We run monthly guided tours of the campus, at which you will be shown around by a postgraduate student from your subject area. They are a great opportunity to get first-hand advice and to network with current students.

Advance booking is essential:
www.birmingham.ac.uk/pgtours

Offer-holder events

If we offer you a place on a postgraduate programme, you will receive a personal invitation to an Offer-Holder Day in June, where we'll help you answer any questions, process documents and support you with accommodation searches and other important next steps.

Find all events, fairs and online chats on our website at:
www.birmingham.ac.uk/pgvisit

We work with partners to offer the following events on our campus:

- Russell Group Roadshow – Wednesday 7 November 2018
- PG Live! Birmingham (with FindAUniversity) – Tuesday 29 January 2019
- Regular Teacher Training events

POSTGRADUATE STUDY FAIRS ON CAMPUS

Study fairs are an excellent forum for students to talk to representatives from higher education institutions from all over the world and offer an opportunity to attend a series of free seminars on various aspects of postgraduate study.

ONLINE EVENTS

If you can't make it to campus or want to chat to us online, you can speak to us via our regular online events. Academics, staff and students can answer your questions and give advice via our virtual platform. You can also watch videos giving advice about our courses and the Birmingham experience, or take a virtual tour of our campus.
www.birmingham.ac.uk/pgchat

Ask us a question

If you still have questions or want to explore something in depth, you can visit our dedicated postgraduate site, where you can take part in online events, ask questions to our current students and alumni, and read our current students' blogs and insight into postgraduate study.
