North West

(The Complete University Guide 2015)

Welcome from the Vice-Chancellor

Having recently celebrated its 176th anniversary, the University of Chester continues to enhance its global influence through the ongoing development of links with overseas higher education partners, welcoming international students from over 130 countries worldwide, together with the involvement of staff and students in a variety of activities that promote greater understanding of diversity and interaction with other cultures.

The University of Chester is committed to maintaining the highest academic standards and preparing its students to secure rewarding employment on graduation. At the same time, we believe that Chester students should develop as individuals, gaining in self-confidence and developing a sense

of enterprise. You will find that the University of Chester is a lively learning community on a human scale, in which it is still possible to foster a sense of individuality and personal development. We will encourage you to contribute towards that community as well as ensuring that you benefit from it.

Canon Professor Timothy Wheeler
DL, BA (Hons), PhD, FE Teachers Cert, CPsychol, CSci, AFBPsS, FSS, FRSA, MIPR, MIOSH, MIIRSM

The University of Chester

The University of Chester is one of the oldest providers of higher education in the country, with our academic roots stretching back to the early 19th century. Founded in 1839, we pre-date all but a handful of other English higher education providers.

We work hard to offer a life-transforming experience to our students in a creative, caring and encouraging environment.

Across our specialist sites, we also maintain vibrant relationships with the local, national and international community, using the power of teaching, learning and research to make distinctive contributions to business, industry, the arts, media, science, health and the public services.

For our students, employability lies at the heart of our offering, and we are committed to providing you with an unforgettable experience and a world-class education. Throughout our 177-year history, we have always been

proud of our traditions and of our concern for the individual, as well as our ability to keep pace with the demands of a constantly changing world. Now, as a forward-looking University, we continue to grow in esteem and popularity.

In choosing Chester, you will be selecting an institution with a strong learning tradition that will challenge you to give the best of yourself in your academic work, sport and recreation, and your contribution to our student community. We want to ensure that you can take advantage of the unique opportunities we have to offer both inside and outside of your studies. In doing this, we will work with you to become a unique and highly employable graduate, whilst providing you with one of the best experiences of your life.

In Their Own Words

Lora Misikova
BSc Accounting and Finance

"What I liked about the programme offered by the University of Chester was the fact that in the second year I will have an option to do a 5 week work placement and that the course offers many exemptions from CIMA and ACCA.

Another important factor for me was that the tuition fees and the cost of living in Chester were lower than London. I want to enjoy my life outside the classroom and have money to travel and afford a range of activities to diversify my social life."

Rodrigo Santos Lima
BSc Biomedical Science

"Living in Chester has fulfilled my dream of living in a historic place and enjoying a rich culture, with the Roman Empire ruins, the old style of the buildings and a variety of activities to do. I am living one of my biggest dreams and I am very glad for having this opportunity."

Wai Him Crystal Law
MSc Psychology

"The year studying at University of Chester is one of the best years of my life. As a student who's concerned about future career prospect, the University's career centre provided me with professional advice which helped to build my future career path."

Buyu Shen
BA Marketing

"Chester is a small city with a great University. As the Secretary-General of Chinese Student and Scholar Association (CSSA, Chester), I feel the international students bring their diverse cultures into the University and with all the social events, the international community has become a big family!"

Nur Syahiirah
BA Business Management

"One thing I really like about Chester is that the classes are smaller and thus it has been very easy interacting with the lecturers and fellow students. We are acquiring the skills that are necessary for our future employment, such as the training to improve team work and presentation skills"

Yuki Ban
MSc Psychology

"What a lovely atmosphere this city has! Its historical character has charmed me since my first visit to Chester last April. People living here are warm hearted and very friendly. Studying at the University of Chester was an enjoyable and precious experience for me."

Kanayo Onyeka
MSc Biomedical Science

"Studying in the UK was a dream I nurtured. Studying and living in Chester is living that dream. If I had to describe the city of Chester in two words, I'd say it's a 'giant museum'. The tutors and members of staff are very supportive. I particularly benefited from the feedback I received from every coursework submitted. This experience brought a whole new meaning to the word 'learning.'"

Maria Pedersen
BSc Chemical Engineering

"I chose Chester mainly because of the city and how incredibly beautiful it is here. Everything from lovely cafés, clubs, race course, incredible buildings, parks and lots more. The University has a lot to offer. I think what I like the best is how welcoming and helpful everyone is, whether it's guidance or securing a summer placement."

Shaheel Palliyalil
MBA

"I have especially enjoyed attending sessions organised by the Careers Department and the hands on training organised by the Riverside Innovation Centre, where I can learn from and network with managers and CEOs from multinational companies (most recently from NatWest Bank)."

Jedidah Tetteh
MSc Public Health Nutrition

"Chester is a lovely place with warm and welcoming people. The weather is so amazing for me as an International student. The tutors and the international office are always willing and ready to help you achieve the best in your studies. I am very glad I chose University of Chester as an international student."

Ahmet Umit Genc
MSc Management with Marketing

"It is a small city with cultural and historical heritage, people are so nice, teachers and staff are extremely helpful. It is located close to the big cities like Liverpool and Manchester, and you will notice that there are many students like you in the city. As far as I'm concerned, I believe you'll love every second of your life here."

Hai Quynh Doan
MSc Management with International Business

"Choosing to take my MSc degree at University of Chester is of the wisest decision I have made so far. The school is an enjoyable place to study with excellent facilities, the teachers are supportive and I have classmates from many different backgrounds. I am also provided with many extra-curricular activities in which I can develop both professional and personal skills."

Our Campuses and Sites

Parkgate Road Campus, Chester

The Parkgate Road Campus in Chester, which provides our students with outstanding social and cultural features and facilities, is only a short walk from the lively city centre. The campus creates a friendly, secure and supportive environment for modern living and studying, while managing to retain many of the traditions from its 177-year history. There is a range of accommodation, from self-catered to fully catered options, and more details can be found on page 34-37.

University life is not just about getting a degree. The social and leisure activities outside your studies are also an important and long established part of campus life. The £2 million Chester Students' Union (CSU) centre was built to cater for the University's growing student population and is at the heart of the campus, along with facilities for social activities and sport (see pages 28-33). On campus, you will also find a choice of modern catering outlets, a cashpoint, launderette, bookshop, bank, Starbucks, and faith spaces.

The CSU bar, CH1, is a contemporary student bar, including a club venue for big events. With a regular mix of resident and big-name DJs playing under the SU Friday brand, CH1 is the only place to be on a Friday night. For the rest of the week, CH1 plays host to comedy nights, karaoke, quiz nights, live music and big-screen sports, as well as serving food throughout the day.

Queen's Park Campus, Chester

The prestigious new Queen's Park Campus is situated only a very short walk away from the lively city centre, and provides a friendly, secure and supportive environment in which to study. The site provides specialist teaching facilities for students of University of Chester Business School.

Purchased by the University in March 2015, buildings feature the most up-to-date learning facilities including student-friendly learning zones, a dedicated business library, two 22-seat lecture theatres, open-access computer suites, and quiet areas for study in learning pods and student development rooms. Fabulous on-site catering facilities include a Starbucks 'grab-and-go' cafeteria and a top-floor brasserie-style dining room with a balcony and picturesque views over the River Dee.

With luxurious fittings and historic features, Queen's Park Campus will provide a prestigious environment for study which mirrors the corporate environment. Acting as a corporate hub, Chester Business School's many partners from the public and private sector will be regularly welcomed to the site for business events.

Thornton Science Park

Thornton Science Park is a state-of-the-art facility that is home to programmes in the departments of Chemical Engineering, Electronic/Electrical Engineering, Mechanical Engineering, Natural Sciences, Mathematics and Computer Science. Formerly the Shell Technology Centre, Thornton Science Park is a world-class seat of excellence and remains at the forefront of scientific research and development. The site and its pilot-scale, specialist facilities were donated to the University by Shell, and are used for practical laboratory work, lectures and problem-based learning.

Through our work at Thornton Science Park, the University is taking the lead in educational innovation using the most effective methods for engaging students, and by providing some of the most innovative learning spaces available anywhere in the country. As it is also a working science park, students are able to take advantage of working closely with on-site science and technology businesses

The site also offers catering facilities, a gym and astro-turf pitch, as well as a modern learning resource centre and library that includes open access computers, bookable work spaces and a gaming room. A free shuttle bus runs between the Parkgate Road Campus, Chester and Thornton Science Park as all residential students whose courses are based at Thornton are housed on or close to the Parkgate Road Campus.

Riverside Campus, Chester

This iconic Riverside Campus is located in the heart of the City of Chester, and is just a 20-minute walk (or shuttle bus ride) from the Parkgate Road Campus. Riverside provides in excess of 100,000 square feet of library, study, and specialist teaching facilities for most students in the Chester-based Faculties of Education and Children's Services, and Health and Social Care*.

The Riverside Campus is a base for students studying Chester-based courses, and features exceptionally high-quality and state-of-the-art facilities. The site provides an impressive location for students with extensive, refurbished general teaching space and specialist subject-specific facilities such as health skills laboratories, science laboratories, and music and art studios.

Riverside has its own café and coffee shop serving hot and cold drinks, snacks and delicious meals. The Riverside Student Space (developed in discussion with the Students' Union) overlooking the glorious River Dee provides social, group work and discussion space for students.

*Please note that some Faculty of Education and Children's Services, and Health and Social Care courses are based at the Parkgate Road and Warrington campuses. Please check the Course Facts sections on the course listing pages.

Kingsway Campus, Chester

The Kingsway Buildings are a 20-minute walk from the Parkgate Road Campus and are home to the Faculty of Arts and Media, which houses 11 state-of-the-art IT labs, an art gallery, an outdoor courtyard performance space, and two catering outlets.

Students of Dance, Drama and Theatre Studies and Performing Arts enjoy four large rehearsal and performance studios. Popular Music Performance students have access to music equipment, instruments, amps and PA gear, plus rehearsal space and professional-standard recording and computer facilities.

Facilities for Fine Art students include studios, printmaking workshops, sculpture and 3D workshops and foundry, a textiles workshop, printmaking facilities, a hot room for castings, digital and time-based facilities, a gallery and exhibition space. Graphic Design students can take advantage of studio space, two computer laboratories with specialist printing facilities, sound and video editing suites, a photographic studio with processing and dark rooms, and a reprographics room.

For Journalism students, our philosophy is to simulate a multimedia working environment. To achieve this, teaching takes place in three high-quality interactive journalism newsrooms.

Photography students benefit from analogue/digital workshop areas alongside lighting studios and seminar/ studio spaces. Specialist resources are dedicated to the production of the photographic artist's book and moving image editing.

Warrington Campus

Our Warrington Campus is an intimate learning community, providing innovative, forward-looking courses in Media, Business, Education, Nursing, Social Work, Sport, and the Public Services. The student community make the campus a close-knit and welcoming place. This creates a lively and dynamic campus, where diverse interests thrive.

The campus also provides a vibrant and energetic setting for students eager to acquire the knowledge and skills essential for a successful personal and professional life. There is a choice of catering outlets for all students on campus, and shopping facilities available within walking distance. Bar and Club Twenty10 is a self-contained 500-capacity venue and, as the hub for the campus community, hosts events from small club nights and society fundraisers to large-scale balls. Many big-name acts and DJs perform at the Club venue, often alongside our own students. It is open seven days a week, is licensed until 2am, and offers comedy, gigs, quizzes, live music, karaoke, big-screen sport and more!

The Warrington Campus provides a variety of amenities, from TV studios, music studios, a range of media production facilities and computer labs, to multimedia and journalism suites. As a result, students are often able to combine two subject areas that correspond more closely to their career ambitions. Cat 1251 AM, Warrington Campus' own 24-hour radio station, is presented, produced and run by students, and broadcasts locally as well as over the internet.

University Centre Shrewsbury

Based in a distinctive medieval town with a forward-looking and progressive attitude to modern day life, University Centre Shrewsbury is one of the UK's newest higher education establishments. With University of Chester at the heart of its creation, University Centre Shrewsbury delivers high-quality degree programmes that have been developed in consultation with employers, focusing on teaching you the skills that we know employers are looking for.

With a growing choice of courses being developed in varying professional sectors, Shrewsbury provides the ideal setting to study a high-quality and innovative degree course accredited by the University of Chester.

This new venture, therefore, provides you with the opportunity to experience all the distinct benefits that a University of Chester student would enjoy, in an alternative location and on a suite of entrepreneurial courses that focus on the reality of the workplace.

City Life

Chester is a modern and contemporary city, rich in history and culture. One of eight world famous British Heritage cities, Chester welcomes over eight million tourists each year with a wide variety of attractions. Ideally placed in the North West of England, it is less than an hour from Manchester and Liverpool, just a two hour direct train journey to London and close to both the beautiful Welsh coast and mountains. The ancient Roman walls still surround Chester's city centre, which along with the renowned Cathedral, Eastgate Clock, and Roman Amphitheatre, demonstrate its 2000 year old heritage.

Enjoy a cruise on the river, a day at the races or our annual music festival. Visit the UK's largest zoo, shark dive in the aquarium or celebrate festivities in the Christmas markets. Participate in a cycle race, marathon or parade. See the unique Chester Rows galleries, home to some of the best shopping in

Britain, or try one of our many international and award winning restaurants. Whatever your interests, come and experience it here in Chester!

Chester offers you an excellent backdrop for your studies and you will see that the University of Chester is ideally placed to furnish you with the skills, knowledge and experience you need to flourish in your chosen career.

The University of Chester has a long and distinguished history of academic excellence and community involvement. In choosing Chester, you will be selecting a world-class University with strong learning traditions that challenge you to give the best of yourself in your academic work, whilst simultaneously allowing you the freedom to enjoy the city, countryside, and rest of the UK. In return, we will give you one of the best experiences of your life.

Careers and Employability

The Careers and Employability Team at the University of Chester attach the utmost importance to securing excellent employment prospects for our graduates. We will provide you with a superb range of opportunities to help you to gain the experience, skills and knowledge that you need to succeed during your time at university and beyond. You will also be supported by information, advice and guidance services which have been nationally commended.

Receive Expert Advice and Guidance

The Careers and Employability team is the holder of a national AGCAS runner-up award for employer engagement, several of our students have been national or regional on-campus Employee of the Year winners. We have achieved accreditation four times under the national MATRIX standard for Information, Advice and Guidance.

- One to one career guidance
- E-guidance support
- Interview techniques
- Cover letter supervision
- CV development

Additional opportunities include:

- Careers fairs and employer visits
- UniJob – an opportunity to undertake well-paid work opportunities on the University's campuses
- Work Shadowing – giving students the opportunity to learn about the realities of particular careers by shadowing a professional in that field
- Enhance Your Employability (EYE) Training – a series of sessions and workshops designed to give students the skills to obtain a job and help explore future directions
- Graduate Head Start – a free, three-day programme which is designed to support University of Chester graduates who are looking for employment or wish to fulfil specific career ambitions.
- The Chester Difference Award – an initiative designed to encourage students to undertake a whole range of activities, in order to enhance their future employability
- An online vacancy service, including part-time jobs available while you study

Work Based Learning

The University of Chester has a national reputation for our innovative Work Based Learning (WBL) module, which you will have the opportunity to undertake during your undergraduate course. Work Based Learning will prepare you for employment by giving you the opportunity to develop the skills and competencies required in the workplace.

The University has links with a wide variety of organisations that offer a broad range of interesting placement opportunities and Work Based Learning could give you the chance to work with some of the most prestigious and innovative companies in your field.

During Year 2 (Level 5) of your undergraduate degree programme, you will have the chance to spend five weeks working for a host organisation.

Work Based Learning offers you a very valuable experience that will:

- provide you with opportunities to explore your graduate employment options and enhance your employability
- allow you to gain experience and expertise in a particular role or occupation
- enable you to apply academic subject knowledge in a work setting
- help you to develop practical, work-related skills such as team-working, project management, decision-making and negotiating
- provide you with opportunities to sample a possible future career
- count towards your second-year mark.

You may choose to attend an approved placement anywhere within the UK.

Lydia Lin

*Credit Risk Strategy Analyst
Bank of America Europe Card Services (MBNA)*

"Before starting the MBA course, I imagined classes full of theories, but they've all had a really good balance of theory and practical application. I find that one of the main themes of this course has been to push us out of our comfort zones; for example, class presentations have made me a more confident public speaker, assignments have helped improve my critical thinking – the list goes on. I believe these are all transferable skills essential to leadership.

In terms of my biggest professional gain, I'd have to say the ability to view work issues through different business senses. Being able to 'see the bigger picture' has given me more confidence in my position to tackle whatever problems that come my way."

Wafa Morjan

Senior Consultant at Ernst & Young

"It has almost been a year and a half since I received my Master's in Programme and Project Management from the University of Chester. Obtaining this degree, which was made possible to me through Chevening, enabled me to understand the core and basis of project management, a skill that I found extremely useful in my career. I have since relocated to Qatar, where I rejoined the Ernst and Young team. It is now my third month in the EY Doha office as senior consultant, where I found that my MSc has equipped me with the necessary skills to be an effective member of the Construction and Infrastructure Advisory."

Shreyas Malyavantham Shivaram

Customer Due Diligence Analyst at HSBC

"I chose to study MBA from the University of Chester, as I was very much aware of the requirements needed to succeed in the banking and risk management sector. Elective modules such as Strategic Management helped prepare me for my current role in risk management with HSBC, as strategy workshops, case studies and exchange programmes with German professors helped develop my understanding of risk management strategies. In my role as a CDD analyst, I need to analyse customer profiles to mitigate risk. My MBA from Chester provided me with the necessary skills to succeed in my daily work responsibilities."

Students' Union

The Students' Union represents every student at the University of Chester and is at the centre of all extracurricular activities. Through the Student Union you will get a chance to meet new friends and enjoy the social elements of university life.

The CSU organises big events with well-known DJs and also hosts comedy nights, karaoke, quiz nights and live music. With a range of clubs and societies, you will be sure to find one that suits your interests!

Societies:

Anime and Manga	Debating	History	Photography
Archaeology	Disney	Jazz Band	Psychology
Belly Dancing	Drama	Literature Society	Rock
Business	Events	Mature	Science and Engineering
Christian Union	Feminist	Midwifery	Swing
Circus and Magic	Food	Music	Thespian

SPORTS & RECREATION FACILITIES OPEN THROUGHOUT THE YEAR

Accommodation

University accommodation is guaranteed for all new international students whose accommodation application forms are received by the stated deadlines for our September intake.

Our university accommodation facilities include:

- Safety (24 hour, 7 days a week security team with CCTV cameras)
- Free Wi-Fi
- Includes utility bills, maintenance, cleaning and insurance

University Owned Accommodation

If your preference is to live in University owned accommodation, there are plenty of locations and options available depending on your budget and preferences, visit: www.chester.ac.uk/accommodation

Partnership Accommodation

The University has partnered with Fresh Student Living to

offer brand new stylish and modern self-catered accommodation in a great location within the city centre.

If you are interested in finding out more about the facilities available, visit:

www.freshstudentliving.co.uk/tramways

Private Accommodation

For international students arriving in January, or those who wish to find private accommodation, there are also plenty of options available to you. The majority of private sector accommodation can be found very close to the Parkgate Road campus.

If you are interested in finding out more about private sector, council approved accommodation, visit:

www.chesterstudentstamp.co.uk

GUARANTEED ACCOMMODATION IN YOUR FIRST YEAR

Catering Services

We offer a variety of meal schemes designed for students living in self-catered accommodation or private sector accommodation. The plans allow students to eat in our main dining halls, and provide an easy alternative to home cooking.

Lunchtime offers choices between a two-course meal or freshly made sandwiches, and also a salad and snack bar. The evening meal is a main course together with either a starter or a dessert, and also features our 'Taste of the World' menu.

Our award winning chefs provide a wide range of freshly cooked meals with each outlet offering a different style of food. We can cater for special diets and Halal or Kosher meals are also available.

**AWARDED
'FAIRTRADE'
STATUS**
(Supported by our Sustainable Food Policy
for continued commitment to quality)

Support Services

International Student Advisory Service

Airport Pickup: We provide a free arrivals collection service from either Manchester or Liverpool airports on specified dates.

Induction: We arrange induction sessions on your arrival to help you get settled in the UK. These sessions include information on everything you need to know about living in the UK, including setting up a bank account, introducing you to the Students' Union sports and societies, registering with a doctor and much more!

Visits and Events: Our advisory team organises a number of activities throughout the year for you to make new friends and explore areas around the UK.

Immigration Guidance: Our staff can offer general immigration advice and are experienced in guiding students making Tier 4 Visa applications.

Student Support and Guidance

We offer comprehensive and award-winning student support services to make sure that you get the care and guidance that you need, and that you never feel alone. We provide a number of welfare support and guidance services including counselling, disability support, study skills provision, support for mature students, and much more.

Further information can be found at: www.chester.ac.uk/campus-life/support-for-students/section

Personal Academic Tutor (PAT)

As an undergraduate student at the University of Chester, you are designated a PAT on your enrolment. Your PAT will be an academic member of staff within your department who can provide advice and guidance in relation to your course, give you a reference when you finish your degree and offer help or direction to resources for any personal issues you may encounter throughout your time at university.

English Language

Pre-sessional English:

We provide a number of pre-sessional English courses for students at all levels. These programmes will improve your general and academic English so that you are prepared for your degree course.

Among the areas covered will be the following:

- Development of language structures and vocabulary
- Competence in spelling, punctuation and use of grammar
- Academic discourse and styles
- Speaking for academic purposes
- Academic Reading and Writing
- Listening and note-taking skills
- Correction of errors and evaluation of work
- Referencing and research skills

In-sessional English:

All international students can take advantage of our free in-sessional English support. We offer one-to-one instruction and group classes for students wanting to improve their English abilities and help them succeed in their programmes and assignments.

We provide help with:

- Tutorials
- Academic Writing
- Presentations
- General Reading, Writing, Speaking and Listening
- Academic Vocabulary
- Pronunciation

Foundation School

The University of Chester's Foundation School offers programmes that enable you to progress to a wide variety of undergraduate degrees across the University. The Foundation School prepares international students with the English language and academic skills required to be successful during their studies. Specialist tutors and excellent pastoral and academic support are available at the Foundation School. Subject-specific areas of study relating to the chosen degree programme are integrated within the Foundation pathways.

International Foundation Programmes

International students who do not meet our academic and English entry requirements can complete this one year programme before progressing onto degree study.

Over 75+ progression routes to Bachelor's degree study

Start Dates:

September and January

Entry Requirements:

IELTS Academic for UKVI 4.5 overall with no elements below 4.0 and good high school grades.

Pathways:

- Business, Law and Social Sciences
- Engineering and Computing
- Life Sciences
- Creative Arts

Bachelor's degrees including a Foundation Year

International students who do not meet our undergraduate academic entry requirements, but have the necessary English language skills, can join this pathway to study for a degree.

Start Dates:

September 2017

Entry Requirements:

IELTS Academic for UKVI 6.0 overall with no element below 5.5 and good high school grades.

With over 50+ programmes to choose from, there are plenty of course options available. For a complete list of the degree programmes available, please visit <http://chester.ac.uk/international/courses/fda-school/year-degrees>

Kukua Amu Thompson

BSc Biomedical Sciences

"My course was well structured and I got in-depth knowledge about the subject. The support from the lecturers is exceptional and it gave me the confidence I needed to excel! Chester is a safe and peaceful city with lots of sites to explore. Studying here has been a rewarding experience."

Pre-Master's Programme

Our 17 week Pre Master's Programme prepares international students for postgraduate study. Students who have obtained a Bachelor's degree with marks equivalent to UK third class, or who do not meet the postgraduate entry requirements, can complete the Pre Master's Programme to progress to join a number of business Master's programmes.

Dates:

- May - Sept 2017
- Sept 2017 - Feb 2018

Entry Requirements:

- Bachelor's degree with third class honours or equivalent
- IELTS Academic for UKVI 5.5 Overall, no less than 5.5 in any band

Fees:

- £5,200

Successful completion of the Pre Master's Programme, with at least 65% in English, enables a student to progress to the following Master's programmes in the Faculty of Business and Management:

September 2017
MBA
MSc Creative Industries Management
MSc Digital Marketing
MSc Health Services Management
MSc Management
MSc Management with Finance
MSc Management with Human Resource Management
MSc Management with International Business
MSc Management with Marketing
MSc Sport, Leadership and Management

Arts and Media

The Faculty of Arts and Media delivers a broad range of undergraduate and postgraduate media, visual and performing arts courses across the Chester, Kingsway and Warrington campuses. The Faculty of Arts and Media is shaped by its desire to nurture intelligent practitioners and informed critics, who challenge, debate, create and innovate.

Working with talented and inspirational teachers our performers perform, journalists write, broadcasters produce and artists create. Our aim is to produce graduates with highly developed critical, creative and technical skills much sought after by the creative and cultural industries and by a wide range of other employers.

• Music Creation, Recording and Mixing • Working in Music Industry • Live and Online Music Promotion • Music and Sound Production • Production for Visuals

BA Performing Arts (S) – Kingsway Campus, Chester

• Studio Practices • Digital Performance • Physical and Vocal Techniques • Dance Production • Drama Production

Ane Iselind Brogeland – BA Single Honours Dance

“What really sold me on the University of Chester were the tutors. They were so open and friendly, and you could just feel the safe and comfortable environment the University had. Chester offers good facilities, with three big studios, as well as many lecture rooms to rehearse and study in. There is a big library, opportunities for volunteering, work shadowing and University jobs.”

- Production Skills • Short Forms • Radio Sequence Programmes • Documentaries and Features • Management

BA Television Production (C) – Warrington Campus

- Factual Production • Drama Production • Broadcast Content • Broadcast Documentary • Non-Broadcast Video
- Reading the News

Dr Vera Slavtcheva-Petkova – Senior Lecturer BA Journalism

Vera is a Senior Lecturer in Journalism and joined the Department of Media in February 2012. After completing her PhD studies at Loughborough University in 2011, she went on to work at the Oxford Internet Institute, University of Oxford, as a researcher on a project investigating the evidence about the harm experienced by children as a result of online risks. She has published her research in international academic journals and presented her findings at a number of conferences organised by the leading media associations such as the International Communication Association, Media, Communication & Cultural Studies Association, the *European Communication Research and Education Association* and the International Association for Media & Communication Research. She was also a member of the Panel Selection Committee of the Children, Adolescents and Media Division of the International Communication Association.

Vera also has industry experience. She was a European editor at 24 *Chasa (24 Hours)* – a Bulgarian national daily newspaper, second in circulation in the country. Her duties involved mainly political editing and reporting, including the coverage of international events such as European summits at the top and official ceremonies. As part of her job Vera has interviewed (either exclusively or during press conferences) European Commissioners, Members of the European Parliament, European Prime Ministers and government ministers as well as the Bulgarian President and Prime Minister.

Business and Management

The Faculty of Business and Management at the University of Chester is highly renowned for the excellence of its teaching and learning, both regionally and internationally, and by its many international partners. Its innovative and continually updated suite of business courses have been designed with an international focus in order to provide students with outstanding skills and cutting-edge knowledge for today's business world.

It has a growing body of world class research, with 48% of the Faculty's research recognised internationally, or classed as internationally excellent / world-leading (REF 2014). It also manages the acclaimed work-based learning initiative, which sees students gaining enhanced employability through five week placements in industry.

Combined Honours degrees allow you to study two programmes at the same time. For example, you can choose to study Events Management, but also combine it with Marketing Management. Full details of all the course combinations can be found on our website.

12 month 'Work' Placements

University of Chester undergraduate students on select programmes within the Business Faculty will have the opportunity to register for a 4 year course, which includes a 12 month work placement.

Between the second and final year of the course, the faculty placement coordinators will work with you to find a suitable work appointment. The paid placements can take place throughout the UK and will provide a full year of practical experience prior to graduation.

Currently, our students are working with organisations of all sizes in both public and private sector throughout the UK and overseas. These organisations are as wide-ranging as financial institutions, county councils, IT consultancies and hospitality groups. Their roles are similarly diverse: marketing, market research, PR, advertising, financial, logistics, retail, IT, web design and human resources.

Tony Ward – MBA Director

Tony has a proven successful track record in: teaching and learning, commercial business management, programme and project management, mentoring partnerships, course design and evaluation, HR business partnerships, finance and budgeting, talent/career management, continuous improvement, and acting as an SME in Leadership, Management and Business. He has also written and delivered lectures in strategic management, business law, business management, finance, HRM and leadership, and is currently the Masters in Business Administration (MBA) Director at the University of Chester's Business School. This experience has been developed both in the Public and Private sectors over the past 30 years working at strategic, operational and tactical levels.

Mukarram Jamil – MBA

"I have been volunteering as a University Student Ambassador, helped out with University Open Days and other events. Shortly after arrival, I visited Career Services; the staff re-designed my CV and gave me valuable advice on my CV content. I managed to secure a part-time job at the famous Chester Racecourse. I also attended various free, hands on sessions on business planning, start-up costs and funding at Riverside Innovation Centre."

Education and Children's Services

The role of the Faculty of Education and Children's Services lies at the very core of the University's beginnings, in 1839, when it was first established as a teacher training institution. The education and training of teachers at undergraduate and postgraduate level continues to be at the heart of the University and remains a core activity.

The Faculty has grown and changed to cater for all those involved in the education of children and young people, encompassing academic and professional programmes, as well as a broad range of CPD provision for teachers and educational professionals, partnership development, cultural and community work and research. The Faculty prides itself on having high standards and offering high quality experience to students who achieve excellent outcomes.

Pei Jie Yeong – BA Early Childhood Studies

"I really enjoyed my university experience at Chester. The close community feel of Chester gave me the opportunity to gain confidence and step out of my comfort zone to be independent. I will not forget meeting amazing people there!"

Simon Poole – Programme Leader MSc Creative Practice in Education

Simon Poole's areas of research interest and expertise are: Creativity; Folklore; Music; and Philosophy of Education. He lectures upon the Post Graduate and first degree programmes for primary and secondary in Initial Teacher Education and leads the Masters in Creative Practice in Education programme.

He has worked for several years with the CAMERATA orchestra (affiliated with the Royal Northern College of Music), in the devising and implementation of creative composition in primary schools and with Associate Teachers from the University of Chester, and been the Chair of the Governing body for the regions Music hub: Musical Routes.

Simon works with numerous international colleagues too, currently working with Finnish colleagues on creative compositions; he has also worked with colleagues through a process of critical analyses to revise ITT music provision for Palestine in the last few years. He continues to engage in joint ventures; collaborating with colleagues at Bethlehem university through a British Council funded comparative research project concerning the creativity pedagogies of the West Bank, Palestine and Chester, England; and as a practicing songwriter and singer recently performed a composition during a cultural symposium at Bethlehem University in the summer of 2016.

He is also a fellow of the Royal Society of Arts and a Senior Fellow of the Higher Education Academy.

Health and Social Care

The Faculty of Health and Social Care is a major provider of health and social work programmes across Cheshire, Wirral and Warrington. It offers a large and diverse portfolio of programmes to meet the needs of health and social care employers and students, including foundation degrees, bachelor's degrees, and a number of taught and research postgraduate qualifications.

Research is a central and growing part of the Faculty's activities, and they have significant achievements reflected in published work, research grants and postgraduate supervision. Learning in practice is a central part of professional programmes, and student employment rates remain high. The Faculty has considerably enhanced its international profile over the years, in relation to courses of study (including work with partner organisations), bids, exchanges and development work; this has created a more outward looking experience for both staff and students.

- Mental Health • Domestic Violence

BA Social Work (S) – Warrington Campus

- Values and Ethics • Law and Policy • Direct Practice • Sociology and Social Policy
- Human Growth and Development • Practice with Adults

Supasuta Sukcharoenphol – MA Art Therapy

"I am an art therapy student at University of Chester since 2015. The thing I love most about studying this course is the staff. As an international student being abroad for the first time, I have been welcomed with warm and friendly instructions from the tutors and staff. Whenever I have questions, I always feel comfortable to ask for help. The structure of the course is very useful; both lectures and experiential classes help me to discover and learn the material I need in order to qualify as an art therapist. The facilities provided include art studios with materials, so students can create their own artworks with privacy.

As English is my secondary language, sometimes I struggled with my writing. The University provides free in-session English classes to help students during term time. This helps me a lot, and also allows me to meet other international students from all over the world. It is really interesting to learn about differences in cultures.

My course is based at Riverside campus. The location is so peaceful, as the building faces the River Dee, the beautiful historic river in Chester. Chester is a small, warm, and kind city to live. I think this is the best choice for studying in the UK.

Postgraduate Courses

S = September Intake

MA Art Therapy (S) – Riverside Campus, Chester

- Theoretical Perspectives • Therapeutics and Communication • Integrating Theory and Practice
- Placement Preparation • Placement Experience

MSc Global Health (S) – Riverside Campus, Chester

- Global Health in Action • Policy for Development • Health Economics • Global Mental Health

Dr Mzwandile Mabhala – Programme Leader MPH Public Health & Doctor Public Health

Dr Mabhala is a Reader in Public Health Epidemiology with expertise in epidemiology, social justice and research in a wide range of public health projects. He has had several senior public health roles within the UK National Health Service and higher education institutions including his role as a senior public health skills development programme at the University of Oxford Institute of Health Sciences.

He is also a reviewer for the National Institute of Health Research, International Journal of Preventative Medicine and International Journal for Public Health Research and Environment. He is a Senior Research Fellow at Newman University, Fellow of the Royal Society for Public Health, and Fellow of the Royal Society of Medicine, while also an editor for OMICS Group International – eBooks. Andi has numerous publications in international peer-reviewed journals and also co-authored *Key Concepts in Public Health* and *Health Improvement and Wellbeing*, nominated for the British Medical Association Award 2015.

Humanities

The Faculty of Humanities is dedicated to excellence in teaching and research and committed to the provision of high-quality taught programmes, fully informed by scholarship and research. The Faculty attaches great importance to its many and varied collaborative activities (local, regional, national and international), since these conspicuously enrich the provision the Faculty is able to offer.

Our undergraduate programmes rate very highly in national measures of student satisfaction with the quality of teaching and student support. Faculty academics have many national and international networks for collaborative research and publish extensively. The most recent national research audit (REF 2014) identified research excellence in all our departments.

Dr Joanne Close – Senior Lecturer in English Language and Linguistics

Dr Close is a Senior Lecturer in English Language/Linguistics. She completed a PhD on the syntax of the English auxiliary system in non-standard varieties of English at the University of York in 2005 and was Research Fellow on *The changing verb phrase in present-day British English* project based in the Survey of English Usage, UCL, from 2007 to 2009. She joined the University of Chester in 2011.

Her main research interests are in syntactic theory, the English auxiliary system, corpus linguistics and language change, particularly the changes taking place in present-day English. She has presented papers on change in contemporary English at international conferences including ICEHL (the International Conference of English Historical Linguistics) and ISLE (the International Society for the Linguistics of English) and has published papers on changes in the English modal verbs and the progressive construction. She is the co-editor of *The Verb Phrase in English: Investigating Recent Language Change with Corpora* which was published by Cambridge University Press in the Studies in English Language Series in spring 2013.

- Ritual in the Hebrew Bible • Gender, Religion and Literature

MA War, Conflict and Society* (S) – Parkgate Road Campus, Chester

- Presenting Warfare: Military Museums • Vietnam War • Minorities in Modern Warfare • Kingship and Warfare
- Commemorating the Wars in Western Europe

Brian Costello – *PhD Archaeology*

As an American student, my experience at the University of Chester has been excellent. I first came to the University for my Master's degree in Archaeology and am now continuing my studies for a PhD. The transition from the United States university education system to the United Kingdom's system was made smooth and easy from the help of the staff at the University. The Archaeology department's lecturers were key to my success as they guided me, offered valuable advice, made new theories and topics clear and easy to understand, and were always available when I needed assistance. The quality of the of Master's coursework gave me the skills necessary to become a competent and diverse archaeologist. It was an easy choice in choosing the University of Chester for continuing my education for a PhD.

Medicine, Dentistry and Life Sciences

The Faculty delivers an extensive portfolio of undergraduate and postgraduate programmes informed by scholarship and research across subject areas including biological sciences, medicine, clinical sciences, food science and sports science.

The faculty provides a stimulating and supportive environment where excellence in teaching and research are highly valued. We are fully engaged in cutting-edge research and apply the knowledge we generate to the real world using our extensive links with the medical profession and industry. Many of our courses are accredited by external bodies and offer excellent career opportunities. Our students experience innovative approaches to learning and teaching in well-equipped laboratories and also benefit from work placements in a range of settings.

Undergraduate Courses

S = Single Honours Programme

C = Combined Honours Programme

Combined Honours degrees allow you to study two programmes at the same time. For example, you can choose to study Biology, but also combine it with Psychology. Full details of all the course combinations can be found on our website.

BSc Animal Behaviour (S/C) – Parkgate Road Campus, Chester

- Ecology and Habitat • Animal Handling and Husbandry • Genetics and Evolution • Animal Health and Disease • Wildlife Conservation • Wildlife Forensics

BSc Biochemistry (S) – University Centre Shrewsbury

- Origin and Diversity of Life • Cell Biology • Molecules of Life • Infection and Immunity • Integration of Metabolism • Molecular Biology • Proteins and Enzymes

BA/BSc Biology (S/C) – Parkgate Road Campus, Chester

- Physiology • Genetics and Evolution • Cell Biology and Biochemistry • Microbiology and Immunology • Biology of Disease • Forensic Toxicology • Immunology and Haematology

BSc Biomedical Science (S) – Parkgate Road Campus, Chester

- Physiology • Genetics and Evolution • Cell Biology and Biochemistry • Biology and Disease • Medical Microbiology and Infection Control • Clinical Medicine • Blood Sciences

BSc Biotechnology (S) – University Centre Shrewsbury

- Origin and Diversity of Life • Cell Biology • Molecules of Life • Infection and Immunity • Molecular Biology • Human Genetics • Integration of Metabolism

BSc Bioveterinary Science* (S) – Parkgate Road Campus, Chester

- Physiology • Haematology • Immunology • Animal Metabolism • Microbiology • Infection Control • Stress and Welfare

BSc Conservation Biology (S) – Parkgate Road Campus, Chester

- Genetics and Evolution • Forensic Identification • Wildlife Ecology • Global Biodiversity • Field Ecology • Conservation Techniques • Population Conservation

BSc Culinary Science* (S) – Parkgate Road Campus, Chester

- Food Science • Nutrition • Food Microbiology and Safety • Science of Cooking • Product Development • Food Processing • Bakery Technology • Food Analysis

BSc Exercise and Nutrition Science* (S) – Parkgate Road Campus, Chester

- Anatomy • Physiology • Metabolism • Nutrition • European and Global Cinema • Ownership and Control

BSc Food Science and Innovation* (S) – Parkgate Road Campus, Chester and Reaseheath College

- Food Materials • Food Safety in Manufacturing • Food Preservation • Nutrition and Labelling • Human Nutrition • Food Policy and Marketing • Food Packaging Technology

BA/BSc Forensic Biology (S/C) – Parkgate Road Campus, Chester

- Genetics and Evolution • Essential Physiology • DNA Forensic Analysis • Cell Biology and Biochemistry • Forensic Identification • Crime Scene Evaluation and Analysis

BSc Genetics and Evolution (S) University Centre Shrewsbury

- Origin and Diversity of Life • Cell Biology • Infection and Immunity • Human Genetics • Population Genetics • Evolution in Action • Medical Genetics

BSc Health and Exercise Science (S) – University Centre, Shrewsbury

- Health and Human Behaviour • Physiology and Human Movement • Causes and Actiology of Chronic Diseases • Applied Practice

BSc Human Nutrition (S) – Parkgate Road Campus, Chester

- Cell Biology and Biochemistry • Physiology • Human Metabolism • Food, Nutrients and the Consumer • Biology of Disease • Health Improvement

BSc Immunology* (S) – Parkgate Road Campus, Chester

- Molecules of Life • Infection and Immunity • Biology of Disease • Microbiology • Immunotherapy • Pathogenesis of Infectious Disease

BSc Medical Biochemistry (S) – University Centre Shrewsbury

- Original and Diversity of Life • Cell Biology • Chemistry for Biologists • Biology of Disease • Clinical Medicine • Pharmacology • Medical Genetics • Clinical Immunology

BSc Medical Genetics (S) – University Centre Shrewsbury

- Original and Diversity of Life • Cell Biology • Molecules of Life • Biology of Disease • Population Genetics • Clinical Medicine • Medical Microbiology • Cancer Biology

BSc Medical Science (S) – University Centre Shrewsbury

- Cell Biology • Human Physiology • Biology of Disease • Molecular Biology • Human Genetics • Population Genetics • Clinical Medicine • Pharmacology

BSc Microbiology (S) – University Centre Shrewsbury and Parkgate Road Campus, Chester

- Genetics and Evolution • Cell Biology • Molecules of Life • Microbial Genetics • Host Parasite Interactions • Microbial Communities

BSc Nutritional Biochemistry* (S) – University Centre Shrewsbury

- Original and Diversity of Life • Cell Biology • Molecules of Life • Biology of Disease • Integration of Metabolism • Original and Diversity of Life • Cell Biology • Molecules of Life • Biology of Disease • Human Nutrition • Original and Diversity of Life • Cell Biology • Molecules of Life • Biology of Disease • Human Genetics

BSc Pharmacology* (S) – Parkgate Road Campus, Chester

- Molecular Pharmacology • Drug Discovery • Current Topics in Molecular Science • Molecules of Life • Biology of Disease

BSc Physical Education (S) – Parkgate Road Campus, Chester

- Sports and Exercise Psychology • Exercise Physiology • Education Theory • Pedagogy of Physical Education • Issues in Physical Education

BSc Public Health Nutrition* (S) – Parkgate Road Campus, Chester

- Food, Nutrients and the Consumer • Physiology • Cell Biology and Biochemistry • Human Nutrition • Health Improvement • Behavioural Aspects of Food and Nutrition

BSc Sports and Exercise Sciences (S/C) – Parkgate Road Campus, Chester

- Exercise Physiology • Biomechanics and Kinesiology • Sports and Exercise Psychology • Sports Coaching • Sports Nutrition and Performance • Exercise in Health and Disease • Sociology of Sport

*Subject to validation

*Subject to validation

Postgraduate Courses

S = September Intake

MSc Biomedical Science (S) – Parkgate Road Campus, Chester

- Evidence Based Medicine • Science of Ageing • Analysis and Interpretation of Clinical Data • Blood Sciences • Clinical Immunology and Microbial Pathogenesis

MSc Cardiovascular Disease (S) – Parkgate Road Campus, Chester

- Causes and Effects of Cardiovascular Disease • Complications and Treatments • Therapeutic Management • New Therapies

MSc Cardiovascular Health and Rehabilitation (S) – Parkgate Road Campus, Chester

- Cardiovascular Diseases, Risk Factors, Investigations and Treatments • Anatomy and Exercise Physiology • Nutrition • Psychology, Health Behaviour and Education • Exercise Practice

MSc Diabetes (S) – Parkgate Road Campus, Chester

- Therapeutic Advances • Type 2 Diabetes and Metabolic Complications of Obesity • Clinical Practice • Clinical Medicine • Evidence Based Medicine

MSc Exercise and Nutrition Science (S) – Parkgate Road Campus, Chester

- Sports Nutrition • Physiology and Physical Performance • Science of Weight Control • Nutrition in Health and Disease • Biochemistry of Metabolism • Performance Enhancement

MSc Exercise Medicine (S) – University Centre Shrewsbury

- Physical Activity, Exercise and Sport in Public Health • Psychology and Human Behaviour • Comparative Exercise Physiology • Biomechanical Techniques • Pharmacy in Exercise

MSc Food Science and Innovation (S) – Parkgate Road Campus, Chester

- Functional Foods and Bioactive Ingredients • Food Nanotechnology • Packaging Innovation • Food Quality, Rheology and Sensory Science • Food Security and Integrity

MSc Gastroenterology (S) – Parkgate Road Campus, Chester

- Diagnosis and Management of Patients • Therapeutic Advance • Clinical Immunology and Microbial Pathogenesis • Clinical Practice • Evidence Based Medicine

MSc Haematology* (S) – Parkgate Road Campus, Chester

- Blood Sciences • Therapeutic Advances in Treating Haematological Problems • Clinical Immunology and Microbial Pathogenesis • Clinical Medicine • Evidence Based Medicine

MSc Human Nutrition (S) – Parkgate Road Campus, Chester

- Principles of Nutrition • Human Metabolism • Nutrition in Health and Disease • Sports Nutrition • Nutritional Assessment • Research Methods and Data Analysis

MSc Infection and Immunity* (S) – Parkgate Road Campus, Chester

- Infectious Disease • Case Investigations in Molecular Medicine • Advanced Immunology • Evidence Based Medicine • Analysis and Interpretation of Clinical Data

MBA Medical Leadership and Management* (S) – Parkgate Road Campus, Chester

- Managing Change in the Health Service • Leadership and Performance Management • Finance for Managers • Leading and Managing People

MSc Medical Genetics* (S) – Parkgate Road Campus, Chester

- Human Genetic Disease • Molecular Medicine • Case Investigations in Molecular Medicine • Clinical Medicine • Evidence Based Medicine

MRes Medical Science (S) – Parkgate Road Campus, Chester

- Cancer Biology • Cardiovascular Disease • Dementia • Diabetes • Gastroenterology • Immunology • Oncology • Psychological Medicine

MSc Medicine of Ageing (S) – Parkgate Road Campus, Chester

- Frailty Medicine • Organic Psychiatry and Psychopharmacology • Science of Ageing • Current Clinical Practice • Evidence Based Medicine • Analysis and Interpretation of Clinical Data

MSc Obesity and Weight Management (S) – Parkgate Road Campus, Chester

- Obesity Epidemic • Causes and Assessment • Dietary Approaches • Exercise and Weight Management • Behaviour Modification • Childhood Obesity

MSc Oncology (S) – Parkgate Road Campus, Chester

- Diagnosis and Management • Therapeutic Advances • Clinical Immunology and Microbial Pathogenesis • Analysis and Interpretation of Clinical Data

MSc Orthopaedics* (S) – Parkgate Road Campus, Chester

- Bone Disease and Complications • Therapeutic Management of Bone Disease • New Therapies • Research Methods

MSc Physician Associate* (S) – Parkgate Road Campus, Chester

- Evidence Based Medicine • Medical Science • Clinical Medicine • Pharmacology • Clinical Skills • Personal and Professional Development

MSc Psychiatric Medicine* (S) – Parkgate Road Campus, Chester

- Organic Psychiatry • Psychopharmacology • Brief Therapy Interventions in Mental Health • Assessment and Consultation • Medicolegal Practice and Criminal Proceedings

MSc Public Health Nutrition (S) – Parkgate Road Campus, Chester

- Nutrition in Health and Disease • Public Health Promotion and Policy • Developing Healthier Communities • Sociology and Psychology • Key Concepts of Nutrition

MSc Respiratory Medicine* (S) – Parkgate Road Campus, Chester

- Respiratory Problems and Complications • Management of Respiratory Disease • Research Methods

MSc Stem Cells and Regenerative Medicine* (S) – Parkgate Road Campus, Chester

- Molecular Medicine • Stem Cell Theory and Practice • Tissue Formation and Regeneration • Case Investigations • Evidence Based Medicine

MSc Sociology of Sport and Exercise (S) – Parkgate Road Campus, Chester

- Physical Education • Leisure • Sports Development and Policy • Health and Exercise • Sports Journalism and Mass Media • Contemporary Issues

MSc Sports Sciences (S) – Parkgate Road Campus, Chester

- Applied Sports Scientist Core Competencies • Experiential Learning in Applied Sporting Performance • Research Methods • Strength and Conditioning • Performance Analysis

MSc Wildlife Conservation (S) – Parkgate Road Campus, Chester

- Conservation Genetics • Wildlife Crime • Biodiversity Informatics • Behaviour and Welfare • Managing Wildlife Populations and Landscapes • Field Research Techniques

MSc Women's Health (S) – University Centre Shrewsbury

- Evidence Based Medicine • Gender Based Violence • Public Health Agenda for Women • The Older Woman • Oncology • Sexual and Reproductive Health

Science and Engineering

Based at Thornton Science Park, just outside Chester, the Faculty of Science and Engineering is located in a major research and innovation hub for the North. The Faculty offers an extensive portfolio of degrees in Engineering, Natural Science, Computer Science, Mathematics and Project Management using a strongly interdisciplinary teaching philosophy. All degree courses emphasise practical skills alongside theoretical knowledge to maximise the opportunities for our graduates.

We are fully engaged in research in all subject areas, benefiting from both our location and from working with the many companies that are also based at Thornton Science Park. With a developing focus on Energy in all its forms the faculty is rapidly emerging as one of the leading centres of study in this important field.

*Guardian League Tables 2017

Undergraduate Courses

S = Single Honours Programme

BSc Applied Chemistry with Biotechnology (S) – Thornton Science Park, Chester

- Thermodynamics • Chemistry Fundamentals • Analytical Chemistry • Separation Processes
- Chemical Reactors and Catalysis

BEng/MEng Chemical Engineering (S) – Thornton Science Park, Chester

- Materials Processing and Manufacture • Chemistry Fundamentals • Biotechnology and Biochemistry
- Thermofluids • Chemical Process Analysis • Chemical Reactors and Catalysis

BSc Computer Science (S) – Thornton Science Park, Chester

- User Experience • Computer Systems • Cisco • Programming • Systems Development • Networks
- Database Management • Web Based Technologies

BSc Cybersecurity (S) – Thornton Science Park, Chester

- Programming • CISCO Networking • Operating Systems Forensics • Ethical Hacking • Cryptography and Security
- Network Infrastructure and Management

BEng/MEng Electronic and Electrical Engineering (S) – Thornton Science Park, Chester

- Analogue and Digital Circuit Design • Power Systems • Electrical Machines • Signal Processing
- Electromagnetic Fields • Materials Science

BSc Games Development (S) – Thornton Science Park, Chester

- Fundamental Programming • Content Creation and Animation • User Experience
- Digital Entertainment Engineering • Digital Audio • 3D Modelling

BEng/MEng Geotechnical Engineering* (S) – Thornton Science Park, Chester

- Earth Processes • Mineralogy • Mapwork and Field Skills • Sedimentology • Structural Geology
- Hydrology and Water Resource Management

BEng/MEng Manufacturing Engineering (S) – Thornton Science Park, Chester

- Manufacturing Systems • Dynamics of Mechanical Systems • Manufacturing Technology
- Robotics and Automation • Applied CAD and CAM

BSc Mathematics (S) – Thornton Science Park, Chester

- Numerical Methods • Probability • Statistical Methods • Graphs and Networks • Complex Algebra
- Numerical Linear Algebra • Modelling • Quality Control

BEng/MEng Mechanical Engineering (S) – Thornton Science Park, Chester

- Materials and Manufacture • Statics, Mechanics and Dynamics • Control Systems Design
- Finite Element Analysis • Skills for Scientists and Engineers

BSc Natural Sciences (S) – Thornton Science Park, Chester

- Chemistry Fundamentals • Biotechnology and Biochemistry • Quantum Physics • Thermodynamics
- Materials Science

BSc Physics with Materials Science (S) – Thornton Science Park, Chester

- Classical and Quantum Physics • Chemistry Fundamentals • Thermodynamics • Analytical Science
- Mathematics and Modelling

BSc Software Engineering (S) – Thornton Science Park, Chester

- Programming • Web Technologies • Database Principles • Problem Solving
- Software Testing and Deployment • Website Production

*Subject to validation

Adeeb Mohammed – BEng Chemical Engineering

"What really appealed to me at Chester was the work placement you get on the course. And with the course also based at the University's science park, you immediately get exposure to the real world of work. I think the University have done a really good job of linking your studies with work-based opportunities, and the facilities for Engineering at Thornton Science Park really are outstanding. It's great to be able to get so much hands-on experience with industry standard equipment. That's the main reason why I came to do engineering here at Chester."

Dr Gavin J. Phillips – Programme Leader BSc Applied Chemistry with Biotechnology

Dr Gavin Phillips is a Senior Lecturer in Natural Sciences specialising in the study of air pollution and atmospheric chemistry. He has worked on snow chemistry at the Geophysical Institute at the University of Alaska Fairbanks, environmental chemistry and physics at the UK Centre for Ecology and Hydrology, and was a researcher at the Max Planck Institute for Chemistry in Mainz, Germany.

Gavin has published articles across the field of atmospheric chemistry in international journals and has been involved in fieldwork across the globe. He is an associate editor for the European Geosciences Union journal "Atmospheric Measurement Techniques". He also is the academic lead of the "Analytical Centre at Thornton", a well-equipped analytical facility providing services for industry and research at the University of Chester's Thornton Science Park.

Postgraduate Courses

S = September Intake

MSc Advanced Computer Science (S) –Thornton Science Park, Chester

- Virtual Environments • High Performance Computing • Programming • Algorithmics • Digital Forensics • Software Exploitation

MSc Cybersecurity (Conversion) (S) –Thornton Science Park, Chester

- Cyber Concepts and Techniques • Cyber and Business • Forensics and Penetration Testing • Software Exploitation • Dig Data Visualisation

MSc Mathematics (S) – Thornton Science Park, Chester

- Mathematical Modelling • Integral Equations • Numerical Linear Algebra • Partial Differential Equations • Convergence and Stability Theory

Social Science

The Faculty offers an extensive portfolio of undergraduate and postgraduate programmes, taught predominantly at the Parkgate Road Campus, Chester. A key feature of work in all four specialist subject areas: Geography and International Development, Psychology, Social and Political Science and Law, is the inter-relationship between social science and issues of everyday concern that have relevance for policy making.

The Faculty welcomes applications from international students who would like to work in an environment where theory and practice are combined to provide a challenging perspective on real world issues. We will do all that we can to ensure that you are exposed an experience that is innovative, challenging and relevant. As a Faculty we are committed to providing the best possible student experience so that your time in the UK and at Chester is both personally and educationally fulfilling.

Undergraduate Courses

S = Single Honours Programme

C = Combined Honours Programme

Combined Honours degrees allow you to study two programmes at the same time. For example, you can choose to study Law, but also combine it with International Relations. Full details of all the course combinations can be found on our website.

BSc Community Policing and Criminal Investigation (S) – Warrington Campus

- Investigative Interviewing • Intelligence, Legal Procedure and Evidence
- Policing Accountability Values and Ethics • Community Engagement and Partnership • Digital Crime

BA Counselling Skills (C) – Parkgate Road Campus, Chester

- Core Values • Development • Ethical Issues in Helping Relationship • Embedded Counselling Skills
- Managing Adversity, Transition and Change

BA/BSc Criminology (S/C) – Parkgate Road Campus, Chester

- Criminal Justice Process • Continuities and Change • Diversity, Discipline and Control
- State Power, Liberties and Rights • Crime, Harm and Victimisation

BSc Economics (C) – Parkgate Road Campus, Chester

- Skills for Economics • Macro and Micro • Quantitative Methods • Globalisation and International Trade
- Economic Development and Growth

BSc Economics and Business (S) – Parkgate Road Campus, Chester

- Economic Thought and International Politics • Managing People • Marketing Principles
- Micro and Macroeconomics • Econometrics

BA/BSc Geography (S/C) – Parkgate Road Campus, Chester and University Centre Shrewsbury

- Human Geography • Physical Geography and Geology • World Development • People, Hazards and Resources

BA/BSc International Development Studies (C) – Parkgate Road Campus, Chester

- World Development • Researcher Development • Challenges of Development • Sustainable Futures
- Excluded Peoples • Environment, Poverty and Health

BA International Relations (C) – Parkgate Road Campus, Chester

- Comparative Politics • Global Politics • Terrorism and Counter-Terrorism • Globalisation and International Trade
- International Political Economy

BA/BSc Law (C) – Parkgate Road Campus, Chester

- English Legal System • Critical Legal Skills • Contract Law • Public Law • Human Rights • International Law
- Commercial Law • Family Law • Land Law

LLB Law (S) – Parkgate Road Campus, Chester

- Contract Law • Property Law • Public Law • Crime, Tort, Human Rights and EU Law • International Law
- Commercial Law • Employment Law

LLB Law with Business (S) – Parkgate Road Campus, Chester

- Property Law • Contract Law • Public Law • Managing People • Marketing Principles • EU Law
- Business and Management • Human Resource Management

LLB Law with Criminology (S) – Parkgate Road Campus, Chester

- Property Law • Contract Law • Public Law • Criminology • Criminal Justice • State Power and Civil Liberties
- Child Law • Company Law • Employment Law

LLB Law with Politics (S) – Parkgate Road Campus, Chester

- Property Law • Contract Law • Public Law • British Politics • Theories of Politics • Global Politics
- International Relations • EU Law • Tort • Crime and Law

BA/BSc Natural Hazard Management (C) – Parkgate Road Campus, Chester

- Physical Geography and Geology • Hazards and Resources • Processes and Human Vulnerability
- Geomatics and Research Design • Climate Change

BA/BSc Politics (C) – Parkgate Road Campus, Chester

- British Politics • International Relations • Comparative Politics • Welfare Politics • Individual and the State
- Global Politics • War Crimes against Humanity

BA/BSc Psychology (S/C) – Parkgate Road Campus, Chester

- Psychological Well-being • Psychology and Lifestyle • Secrets of the Brain • Psychology of Parenting
- Psychological Therapies • Developmental Psychology

BSc Psychology: Applied Psychology (S) – University Centre Shrewsbury

- Psychological Investigation • Biological and Cognitive Psychology • Self and Society • Child Psychology
- Brain and Behaviour • Exploring Development

BA/BSc Sociology (S/C) – Parkgate Road Campus, Chester

- Sociological Imagination • Self and Society • Welfare Politics • International Political Sociology
- Shaping of Society • Social Theory

MT Low – BSc (Hons) Psychology

"Doing BSc (Hons) Psychology at the University of Chester is one of the most challenging things in my life, but also one of the most enjoyable. The course has been well- designed with the integration of practical activity and applied course work assessments. The course, including the placement year at Level 5 and the final year individual research project, helped me to develop a range of transferrable skills which are highly desired by many areas of employment."

Postgraduate Courses

S = September Intake

MSc Family and Child Psychology (S) – Parkgate Road Campus, Chester

- Child and Adolescent Development • Family Psychology in Society • Family Lifestyle and Transitions
- Practical Skills for Research • Advanced Skills for Research and Practice

LLM Contemporary Legal Studies (S) – Parkgate Road Campus, Chester

- Legal Theory in Common Law • Contemporary Issues in Criminal Law, Justice and Evidence
- Personal Injury and Medical Law • Employment Law • Discrimination Law

MSc Psychology (Conversion) (S) – Parkgate Road Campus, Chester

- Cognitive Psychology • Social Psychology • Biological Psychology • Developmental Psychology
- Individual Differences • Researching Thought and Behaviour

MRes Psychology (S) – Parkgate Road Campus, Chester

- Researching Thought and Behaviour • Advanced Skills for Research and Practice • Research Dissertation

Dr Rosa Fernandez – Programme Leader BSc Economics

Rosa is an environmental economist and has been a visiting researcher in different countries around the world. She is also involved in several international and interdisciplinary research initiatives related to energy, climate change and sustainability. While completing a PhD in Economics, she received a research award which allowed her to spend time researching in the UK to complete part of her thesis, comparing the energy systems of Spain and the UK.

Rosa is a Fellow of the Higher Education Academy and a member of the World Economy Society. She has many published book chapters and journal articles, and has been selected to present at a number of international conferences. In addition, Rosa has experience working in the public and private sectors and is a certified quality and environmental auditor. Other research interests apart from the already mentioned, include corporate social responsibility and SMEs.

Research

The University of Chester offers the opportunity to undertake a programme of research, leading to the awards of Master of Philosophy (MPhil) or Doctor of Philosophy (PhD).

The main topics of interest of our researchers are:

- Art and Design
- Biological Sciences
- Business and Management
- Centre for Work Related Studies
- Chester Centre for Stress Research
- Clinical Sciences and Nutrition
- Computer Science
- Education and Children's Services
- English
- Geography and Development Studies
- Health and Social Care
- History and Archaeology
- Law
- Mathematics
- Modern Languages
- Performing Arts
- Psychology
- Science and Engineering
- Social and Political Science
- Sport and Exercise Sciences
- Theology and Religious Studies

How to Apply

Once you wish to apply, please contact a potential supervisor to establish whether the appropriate expertise exists within the University to supervise your specific project. If you cannot find the details for your chosen department on our website, the Postgraduate Admissions office will be able to put you in touch with the right person.

Please visit www.chester.ac.uk/research/degrees for more information on subject areas and contacts

Fees and Scholarships

Scholarships

The University of Chester has a number of additional scholarship opportunities available for international students. These apply to undergraduate, postgraduate and research programmes and can be partially or fully funded scholarships.

We have a number of merit based and country specific scholarships available, so please visit our website for full details.

£1000 - £2000 scholarships available

- You will automatically be considered for the International Scholarship when submitting an application. Applies to undergraduate and postgraduate students, and the amount awarded will be shown on your offer letter.

International Merit Scholarship

- International Undergraduate applicants will receive an additional £1,000 merit scholarship if they have obtained high calibre marks in their previous studies
- International Postgraduate applicants will receive an additional £1,000 merit scholarship if they have obtained an equivalent to a UK 2:1 degree in their undergraduate studies.

£250 early payment award

- Self-funded students who pay the full fees prior to their enrolment will receive this discount

Payment Plans

- £3000 deposit
- 50% of remaining balance by enrolment
- Remaining fees due by January

Fixed Fees

- The undergraduate tuition fees are fixed at the entry amount, for the duration of your course.

Low Living Costs

- Compared to London and cities in the south of the UK, Chester is an affordable place to live. You'll be able to take advantage of combined accommodation and catering packages along with a variety of other student discounts around the city.

International Merit Alumni Scholarship

Current University of Chester international students are eligible for an alumni scholarship of £1,000 - £2,000 when continuing from undergraduate Bachelor's programmes to postgraduate taught Master's.

You must meet the university's postgraduate entry requirements and be applying for an eligible programme. Terms and conditions apply.

Additional Costs

Your course will involve additional costs not covered by your tuition fees. This may include books, printing, photocopying, educational stationery and related materials, specialist clothing, travel to placements, optional field trips and software. Compulsory field trips are covered by your tuition fees. For up-to-date details of additional costs, visit the course page on the University website at www.chester.ac.uk

Tuition Fees

Course	Annual Tuition Fee
Pre-sessional English	see website
International Foundation Programmes	£9,250
Bachelor's degrees including a Foundation Year	£9,250
Undergraduate	£11,800
Postgraduate	£11,850
MBA	£12,850
Research Degrees - MRes/MPhil/PhD (Lab Based)	£15,973
Research Degrees - MRes/MPhil/PhD (Classroom Based)	£12,400

Marcel Goto

BSc Computer Science – Science without Borders Scholarship recipient

"I was lucky enough to get a scholarship from Science without Borders programme – I could have gone to many European countries; however I wanted to study in the UK as it is in close proximity to the rest of Europe – and I am planning to visit a number of other European countries in the summer."

Tanzila Sharmin

MSc Oncology student and a Commonwealth Shared Scholarship recipient

"I have managed to get the scholarship thanks to a little bit of luck and a lot of hard work! I spent quite a lot of time preparing my statement of purpose so that the jury panel could get to know me better and understand who I am, and why I am the person who should be getting the scholarship!"

Davaajamts Choindon

MSc Management and Chevening Scholarship recipient

"I feel privileged being member of the luxury Chevening scholarship network that unites over 44,000 influential young people worldwide. Only few candidates are accepted each year through a sophisticated selection procedure that is managed by the Chevening Secretariat, mandated under Foreign Commonwealth Office. Through the Chevening scholarship I am obtaining a master degree in UK within a year, which is shorter than many other destinations and important for career building professionals."

How to Apply

Applications

You can make an application in one of two ways:

- You can make a free and direct application for an undergraduate, postgraduate or MBA course by completing the application form on our website at www.chester.ac.uk/international – ‘Apply Now’
- Undergraduate applicants can also apply through Universities and Colleges Admissions Service (UCAS). Applications can be made using the ‘Apply’ link on the UCAS website – www.ucas.com. The institution code name for the University of Chester is CHSTR and code is C55.

Supporting Documents

When submitting your application, you must also provide additional documentation. This should include the following:

- Academic transcripts/marksheets and certificates/diplomas in English
- Proof of English language (IELTS, WAEC, Standard XII)
- Personal statement/statement of purpose
- Reference
- A copy of your passport (and all previous UK CAS and visas, if applicable)
- Portfolio (if applicable)

Research

To apply for a PhD, MPhil or other postgraduate research programme, please contact: pgradmissions@chester.ac.uk

What Happens Next?

We will keep you up-to-date with the progress of your application by email.

Tuition Fee Deposit

All self-funded, full-time international applicants must pay a tuition fee deposit (a minimum of £3000) as a condition of their offer, to confirm their place and also assure the UK Visas and Immigration that they are a genuine student.

Payment Methods

- Credit card. Please telephone us on +44 (0)1244 512071 with your details.
- Direct credit/bank transfer. The following details will be required for processing your transfer:

Bank: National Westminster Bank PLC

Address: 33 Eastgate Street, Chester, CH1 1XA

Sort Code: 60 40 08

Account Name: University of Chester Maintenance Account

Account Number: 79821898

Swift Code: NWBKGB2L

Iban code: GB74NWBK60400879821898

- Cheques either drawn on a personal account or sent via overseas bank transfer. They should be made payable to: “The University of Chester”. Please address cheques directly to the International Centre.

CAS

Once you’ve paid your tuition fee deposit and met all other academic and CAS requirements, we will issue you a Confirmation of Acceptance for Studies (CAS) which you will use to make your Tier 4 Visa application.

EU Fees – How to Apply

EU Students

We actively welcome students from the European Union. Students from the European Union (EU) are classified as ‘home’ students for fees purposes, and therefore pay the same rate as UK students.’

Fees

Foundation – £9,250

Undergraduate – £9,250

Postgraduate – <http://www.chester.ac.uk/Fees-per-module>

Tuition Fees Loan

If you are a first time undergraduate student, you are entitled to apply for a loan to have your tuition fees paid for on your behalf by the Student Loans Company: www.slc.co.uk. This non-income assessed loan is paid directly to the University in three instalments.

You will not be required to pay off the loan during your studies. To determine the amount you can take out and the repayment terms, please visit <https://www.gov.uk/student-finance-forms>

How to Apply

Undergraduate

- Applications for full-time undergraduate courses must be made through UCAS. If you are currently at school or college, you will be able to submit an application to UCAS via the online application system, Apply. If you are not at school or college, you will be able to apply online through the UCAS website www.ucas.com. The institution code name for the University of Chester is CHSTR and code is C55.

Postgraduate

- For a taught postgraduate programme, you can apply online to the appropriate Admissions Service by visiting <http://www.chester.ac.uk/apply/postgraduate-applications>

Notes for Applicants

Please take a moment to read through some of the regulations and procedures that govern the admission of students to courses at the University of Chester ('the University'). If you have any questions or concerns about anything you read below, please contact us, and we will undertake to explain matters further.

Admissions Policy

The admission of all students to courses at the University is contingent on the reasonable expectation that the student will be able to complete their course of study successfully. The offer of a place is based on the University's stated entry criteria, and an interview or audition, where deemed applicable. The University's recruitment strategy is informed by its strong commitment to advice and guidance, and reflects the University's mission statement and widening participation strategy. The University accepts General Studies and language qualifications, other than English, achieved by native speakers of that language, as part of our offer.

Complaints Procedure

The University of Chester is committed to providing the highest possible standard of service for all applicants. However, if something should go wrong, or you feel that you have some genuine cause for complaint, please tell us so that we can endeavour to put matters right.

Most complaints/queries can be resolved informally and will be dealt with as quickly as possible, and as close as possible to the point at which they arise. If you have a query or complaint regarding the admissions process or a selection decision, you should, in the first instance, refer it to the relevant Admissions section.

If you remain dissatisfied, you should contact the Head of International. Thereafter, if you are not satisfied with the response, the matter will be referred to the Dean(s) of Faculty and, if necessary, to University Senior Management.

Data Protection

In accordance with the Data Protection Act 1998, some or all of the information that you supply to us may be held in paper-based or electronic filing systems, and may be used by us to further inform you about courses, services, facilities and events provided by the University

of Chester. If you enrol as a student with us, this information may be shared with appropriate third parties in connection with the provision of our educational and other services. On payment of a £10 administration fee, you are entitled to ask for a copy of any information that we hold about you, whether paper-based or electronic, and you have the right to request that inaccurate information be changed or removed.

Disabilities

The University is committed to ensuring equality of educational opportunity for all applicants and welcomes applications from individuals with disabilities. All applications are considered on the same academic grounds as non-disabled applicants and there is no judgement or assessment of disability prior to an offer being made. We would encourage you to contact Disability Support to arrange an appointment to discuss your needs in more detail – this can be at any time in the process but we would recommend it is before you arrive to enable any support to be identified and set up as efficiently as possible.

While we will make every effort to implement adjustments, in very occasional circumstances where adjustments cannot be reasonably made, or where fitness to practice concerns exist, we may have to withdraw an offer. This decision is very rare, however, and taken only after every reasonable consideration has been made.

Changes and Cancellations

We are committed to informing applicants of changes without delay, and to offering them advice, guidance, and/or alternative programmes of study.

Every effort is made to ensure that the information provided to applicants about programmes at the University of Chester is complete and correct at the time of publication. Since information is prepared so far in advance of delivery, it is subject to changes to or withdrawal of courses, locations or entry criteria. Applicants will be notified of substantive changes to programmes of study or course cancellations, as early as possible in the application cycle. In the case of course cancellations, the University will undertake to offer applicants an alternative course.

Equality

The University is committed to the active promotion of equality of opportunity, and aims to ensure that all applicants are treated solely on the basis of their aptitude, ability and potential to pursue all modes and forms of study, and to achieve their full potential. The University will seek to ensure that no one will be disadvantaged or discriminated against on the grounds of age, disability, gender reassignment, marriage or civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation. The University also seeks actively to increase levels of recruitment from groups currently under-represented in higher education and aims to offer educational opportunities to those members of the community who are capable of benefiting from them.

Enrolment Conditions

A place at the University of Chester is offered subject to our contractual terms and conditions of enrolment. These make explicit your and our rights, responsibilities and obligations and include your agreement to abide by our regulations, rules, bylaws and codes of conduct. When you accept the offer of a place, a contract will come into existence between you and the University on these terms and conditions and you are required to agree, and sign an undertaking, to comply with them. Breach of any of these conditions may give rise to disciplinary action being taken, under the disciplinary procedures of the University and/or termination of the agreement. The University's terms and conditions of enrolment may be found in full on our website.

Freedom of Information

As a public organisation, the University of Chester is subject to the provisions of the Freedom of Information Act 2000. Subject to specified exceptions, this confers a right to ask the University about information that it holds. Anyone making such a request has the right to be informed in writing whether that information is readily available, and to have the information communicated to them. Further details about this entitlement may be found at www.legislation.gov.uk

Quality Assurance

The University affirms its commitment to the precepts derived from the UK Quality Code for Higher Education, with respect to the recruitment and admission of students (2012).

Freedom of Speech

The University of Chester is committed to freedom of speech within the law for students and staff (section 43 of the Education (No. 2) Act 1986) and to promoting the rights and responsibilities of freedom of inquiry and expression which lie at the core of scholarship.

Alternative Formats

This document is available in alternative formats upon request. If you require any parts of this prospectus in other formats (for example large print, on tape or in Braille) please contact our Enquiries Team by telephone on 01244 512471 or email enquiries@chester.ac.uk

India Office

Namaste, I am Kiran Appana and I am the official representative of the University of Chester in India and Sri Lanka. I am also an alumni of the University. I have been working in overseas education for more than 10 years, and through my experience in Chester and the industry, I will be able to provide you with advice regarding the UK education system and studying at the University. I can guide you on course selection, the admissions process and visas and immigration.
