WELCOME

FROM THE
DEPUTY VICE-CHANCELLOR
(STUDENT EXPERIENCE)

The University of Westminster has a long tradition of ensuring that all our students achieve their full potential, and we are very proud of this. You, our students, are at the heart of all that we do. You will work in partnership with our staff to experience the excitement of learning new ideas and gaining the skills that will enable you to meet the challenges of the future.

We offer dynamic and continually evolving courses and programmes that are relevant and at the forefront of contemporary research. We ensure that all our courses provide you with the tools and knowledge required for future employment, and many of our courses are accredited by professional bodies.

We are committed to being an inclusive community where all students, regardless of wealth, background, identity, disability or faith, are treated equitably in a caring and inclusive manner. We value every student as an individual. All students have a personal tutor who provides individual advice about your academic studies and any other issue that might arise.

We celebrate our openness to the world with large numbers of students from Europe and beyond. We ensure that all our courses are global in outlook and encourage all students to learn the intercultural skills required to meet the demands of a global workplace.

The University of Westminster is an exciting and dynamic institution preparing students for the challenges of the 21st century.

We look forward to welcoming you.

Professor Roland Dannreuther
Deputy Vice-Chancellor
(Student Experience)

WESTMINSTER FACTS & FIGURES

1838

Our tradition of shaping the future of professional life stretches back nearly 180 years, to the opening of The Polytechnic Institution in 1838.

39

39 separate professional associations accredit, approve or recognise undergraduate degrees across our portfolio.

We have more than

20,000

students on our undergraduate, postgraduate and professional courses.

£60m+

More than £60m has been spent in recent years on refurbishing our cutting-edge campuses in central London and Harrow.

1896

309 Regent Street is the home of the Regent Street Cinema – the birthplace of cinema in the UK, when the earliest of moving images were shown to a paying audience in 1896.

45

Our 45-acre Quintin Hogg Sports Ground at Chiswick includes football, rugby, cricket and hockey pitches, netball and tennis courts, and a boathouse.

1sts

Westminster is a place for pioneers, and for firsts: we were the first polytechnic in the UK, home to the first public moving picture show to a paying British audience in the UK, the first modern university to win the Queen's Award for Enterprise, and the first UN Habitat Partner University, to name just a few.

90%

The latest measure of the quality of our research. The REF2014 assessed 90 per cent of Westminster's research work as internationally recognised, internationally excellent or world leading.

3

Ambika P3, 309 Regent Street and London Gallery West provide gallery space to exhibit our students' creative work to a huge audience.

1,000,000

Latest estimates suggest there are more than one million businesses operating within 20 miles of the University of Westminster.

STUDY IN LONDON, LIVE IN LONDON

CAPITAL OF CULTURE AND LEARNING

Wherever you look, London is full of life. It's one of the world's great cities, and as a Westminster student, the UK's capital is your campus.

Few cities in the world can match London as a place of culture and learning. There are four UNESCO world heritage sites, more than 170 museums, and over 800 art galleries. A third of all the UK's archives are housed here, including the National Archives which date back to the 11th century and preserve William the Conqueror's Domesday Book. And among the city's 300+ public libraries is the British Library, within walking distance of our central London campuses, and home to the Magna Carta.

The academic and educational opportunities are matched by the culture of the creative arts. With over 200 professional theatres, you could visit a different show every weekend of your degree course and still not exhaust the city's theatrical venues.

Oh, and don't forget to drop into any one of the capital's 800 cinema screens – including our own, recently refurbished Regent Street Cinema – or catch one of the 17,000 music performances that take place across the city every year.

LONDON CULTURE

"London's history and heritage make it perfect for a history course, the access to archives and museums is really convenient when dissertation time comes around!"

THE WORLD'S BUSINESS CITY

London is the financial capital of the world; the Sunday Times Rich List 2017 names it as the city with the most billionaires in the world, and the capital is also top of the Global Financial Centres Index 2017. But the city's business strength is built on much more than finance and figures.

For centuries the city has been known as a place of pioneers and entrepreneurs, and the University of Westminster has played a key part in preparing and educating students to shape the future of the city's professional life.

Today, London is home to leading national and multinational companies, corporations and organisations across almost every professional and business sector imaginable.

From architecture and accountancy to travel and technology, computing and construction to manufacturing and the media, the city is at the forefront of the latest business developments. Which means that as a Westminster student, whatever your professional aims and aspirations, you will have the opportunity to network with future employers, find work placements and internships, and be in the best position to build a career after graduation.

CITY LIFE

“Studying business in the centre of the financial capital of the world definitely gets you much greater exposure to businesses and the many professionals conveniently based nearby, who come in to give talks, recruit interns and so on. The central metropolitan location is a great selling point.”

Marina Nancheva
Business Management –
Finance BA Honours, graduate

SOCIALISE, SHOP, OR JUST RELAX...

However you choose to spend your spare time, London has the answer. For a night out there's the glitz and glamour of the West End, the alternative music and fashions of the city's underground scene, and everything in between.

With over 6,000 restaurants and 4,500 pubs and bars it's not hard to find somewhere to eat, drink and relax, whatever your taste or budget. London is one of the most diverse cities in the world, with more than 300 languages spoken – more than any other city – so whether you're seeking your favourite international cuisine or eager to try something new, it's on the menu.

If you prefer your relaxation in the shape of retail therapy, you're also in the right place. London is a shoppers' paradise, and within walking distance of our central London campuses are three of the biggest shopping streets in the capital – Oxford Street, Regent Street and Bond Street. But it's just as easy to bag a bargain at one of the city's many markets, with everything from flowers and fruit to fish and fashion on offer.

And if you want to get away from all the hustle and bustle, don't worry – 40 per cent of London is green space, with playing fields and parkland covering over 66 square miles – that's three times the size of Manhattan.

If you are wondering what it would be like to study in London, visit thestudentroom.co.uk/london to get first-hand information about all the opportunities London students can benefit from.

LONDON LIFE

"There are many great things about being a student in London, including the diversity of cultures – London has to be one of the most diverse cities, with many opportunities to offer. The University is situated near Oxford Street, which is busy and lively all the time; there is always something to do and something to see, from galleries to museums to shopping. There is no time to be bored in London."

GETTING SET FOR YOUR CAREER

WESTMINSTER WILL PREPARE YOU PROFESSIONALLY FOR THE FUTURE

A degree is a major step in your career development, but preparing you for your professional future is about much more than exams. At Westminster you will have the chance to work with and learn from leading employers in all sectors.

Our close links with industry and professional organisations in London, across the UK and internationally mean we are able to attract the best guest speakers and lecturers, while extensive placement and internship opportunities give you the chance to gain experience working with leading businesses.

About 40 separate professional organisations and bodies offer accreditation, approval and recognition of our courses, or membership for our students after graduation. Our dedicated Careers and Employability Service provides support and guidance throughout your study and after graduation.

We have a proud tradition of shaping the future of professional life, a tradition which we work hard to maintain today. Studying for a degree is a significant investment of your time and money; we are determined to make sure that your investment reaps the best possible rewards for your career, and creates a future for you that is full of prospects.

EXPERIENCES AND OPPORTUNITIES

“The skills I learned from my placement at the Walt Disney Company were invaluable. I learned proper business etiquette and improved my communication skills (verbal, written and presenting). I also had a lot of exposure to how campaigns are planned and built, and the timelines they follow. My favourite part of the placement was that I was treated as a member of the team as colleagues from different territories used me as a first point of contact. I was also given a lot of responsibility to do my own work and developed so much knowledge in the marketing world.”

DEVELOPING YOUR SKILLS

HOW TO BROADEN YOUR PERSONAL AND PROFESSIONAL SKILLS

Studying for your undergraduate degree opens up a whole new world of learning and knowledge. But being an undergraduate at Westminster is about so much more than academic learning. It's also about your own personal development, and the experiences you have outside of the classroom and the lecture theatre.

It's about the individual and professional skills you can acquire through volunteering activities, mentoring initiatives, internship programmes, and opportunities abroad that are open to all students. It's about preparing you for life after Westminster, whatever path you decide to take. At Westminster, we will support you to plan ahead and make sure you have the skills and knowledge you need for your future.

The opportunities for Westminster undergraduates are boundless. You can teach in local schools, take up paid corporate internships, or join more than 400 other Westminster students who take part in volunteering initiatives through the University every year.

You can learn a foreign language through our Polylang Programme, which will make you more employable (see p170).

Importantly, the skills and achievements you acquire by taking part in these activities

will be formally recognised on your Higher Education Achievement Report at the end of your studies.

Your time at Westminster will prepare you academically, personally and professionally for the future; and just like life after graduation, your time with us will be full of opportunities.

You will be able to take part in several initiatives and schemes that will help you build and develop your transferable skills and network with potential employers, preparing you to face the ever-changing graduate job market. These activities will cover the following areas:

- Understand your strengths: you will be helped to explore your strengths, preferences and competencies
- Enhance your skills: you will have access to a variety of resources that will help you acquire new skills outside your core curriculum
- Grow your experiences at Westminster: you will have the opportunity to get involved in a number of activities organised by the University
- Work experience and volunteering: you will gain relevant work experience, enhance your knowledge of a particular industry and develop your professional skills
- Career Support: you will be able to take advantage of everything the Careers and Employability Service has to offer in terms of advice, support and mentoring.

OUR WORLDWIDE WELCOME

BECOME PART OF AN INTERNATIONAL COMMUNITY

Benvenuti, selamat datang, willkommen – and a warm Westminster welcome, in more than 150 different languages, to our students from all over the world. Wherever you come from, we can offer you a distinctly British learning experience within a truly international environment.

We have one of the largest and most diverse international student bodies of any university, and plenty of experience in giving you the help and support you need to make the most of your time with us.

Before you arrive, you will receive a full information pack with all the details you need about enrolment, healthcare advice and support services.

Once you are here, we have plenty of ways of making sure that our international students settle in and feel at home. These include our 'meet and greet' service for students arriving at Heathrow, our buddy scheme and our induction programmes.

The International Students' Welcome Programme gives you the chance to meet fellow new students and Westminster staff, find your way around the University and London, learn about our facilities and services, and meet current international students. Students from more than 90 countries take part in the three-day programme.

You will also be able to sign up for a wide range of additional courses to support you during your studies, including training and study skills and Academic English (p169). We also have a Pre-sessional English programme (p169) and an International Foundation course available (p168) if you require further preparation before beginning your studies at Westminster.

For more information visit [westminster.ac.uk/international](https://www.westminster.ac.uk/international)

COMMUNITY

Here's what two of the students taking part in our International Welcome Programme had to say:

"I've already met so many new friends, it really was helpful."

"It has been one of the best experiences in my life to meet so many lovely people from all over the world."

"To me, the greatest thing about my course and this University is the feeling of fitting in. As a foreign student I was worried I would struggle studying in another country. Both my fellow students and the staff and teachers were very open and welcoming, and made me feel integrated and part of the community."

Lara Cremer
Marketing Communications
BA Honours, graduate

EXPLORE INTERNATIONAL OPPORTUNITIES

As well as meeting and making friends with fellow students from around the globe, you can expand your international horizons by taking part in one of our many study abroad or exchange programmes which will offer you even more opportunities to enhance your international study experience. Westminster currently has 80 exchange partnerships across 25 countries, and we plan to grow this further. Options range from short international summer school opportunities and internships to full-year international work placements.

From America to Australia, Belgium to China, and hundreds of other destinations in between, Westminster offers a truly global education.

For more information visit [westminster.ac.uk/westminster-abroad](https://www.westminster.ac.uk/westminster-abroad)

OUR CAMPUSES AND FACILITIES

The University of Westminster was founded as Britain's first polytechnic in 1838. Since then it has developed into a university that still thrives delivering transformational education to people from all backgrounds, with extremely close links in business, professional and academic life within London, as well as overseas.

As a global university located right in the very heart of London, we offer a vibrant learning environment – fostering innovation and creativity, informed by professional practice, inspired by research, focusing on the academic areas in which we excel.

We focus on nurturing, transforming and inspiring distinctive graduates and future professionals who are able to make a difference in the world.

LONDON IS OUR CAMPUS

Three of our campuses are under five minutes' walk from central London Tube stations, and our Harrow Campus in north-west London, is only 20 minutes by Tube from central London.

So, whether you are looking for arts and culture, business networking, shopping or socialising, we are perfectly placed for you to take advantage of everything that London has to offer.

This enviable location also means that your classroom goes well beyond the walls of the University. Your teaching will be enhanced with study visits, guest lectures from key industry professionals or thought-leaders and close proximity to a vast range of employers.

VIBRANT CAMPUSES AND STUDENT EXPERIENCE

Your time at Westminster can be a life-changing experience, both personally and professionally. Whether you are studying, playing sports or enjoying the arts, our facilities make the University of Westminster an exceptional place to learn, live and work.

You will make friends from around the world and have the chance to enjoy a whole new range of social and cultural activities whilst you learn, explore and develop professional skills.

Across the campuses, our excellent facilities include libraries equipped with an extensive collection of books, journals, DVDs and other specialist materials, cafes and coffee shops, gym facilities, prayer and quiet rooms, advanced IT services and spaces and dedicated, innovative learning and lecture spaces.

Alongside all of this, we have unique and specialist resources and facilities for our students – available according to course of study – including:

- art, design, photography, film and TV studios
- world-class audio recording studios
- state-of-the-art scientific laboratories
- dedicated Architecture studios
- specialist workshops for a range of media

We are also one of the few universities in the UK to offer access to Bloomberg Financial Markets Suites and a new cutting-edge digital Fabrication Laboratory that offers a range of 3D printers and laser cutters.

See our campuses map, p192.

STUDENTS' UNION

Studying for a degree means a lot of hard work, but there's also plenty of time to relax and enjoy yourself at university, and few places offer more ways to have fun than Westminster. The University of Westminster Students' Union (UWSU) can help to make this significant time the best it can possibly be. Independent of the University, UWSU also represents your needs, protects your rights, and makes sure your voice gets heard.

The list of societies, sports teams and clubs you can join is almost endless. Alongside the usual sporting activities such as football, rugby, running and rowing, UWSU offers societies in everything from accounting-management and anime to musical theatre and yoga. There are already more than 100 clubs and societies, but if you can't find one that caters for your particular passion, no problem – UWSU can help you to set up your own society.

You can also get involved in the award-winning Smoke Radio and TV, the QH newspaper, and *Smoke Mag*. In 2017, Smoke Radio won 19 awards at the annual Student Radio Association awards, including one Gold and two Silvers. Anyone can get involved regardless of past experience, and it's a great way to gain skills, build your CV and make new friends.

For more information visit westminster.ac.uk/students-union

JOINING IN

"I was really nervous starting university. It was the beginning of a whole new chapter where I didn't know anyone, but I quickly found out that the majority of students were in the same boat as me and put in the effort to get to know others. I've made tons of new friends with the help of the Students' Union. They offer a range of sports clubs and societies from the Harry Potter Society to the Netball Club which help students to learn, socialise and just have fun. Attending society events has enabled me to meet incredible students from different backgrounds, people who I otherwise wouldn't have had the chance to meet. If there's a society that you want to set up, the Students' Union has great staff members who will help you to do that, ensuring your student experience is the best it can be."

STUDENT ACCOMMODATION

As a new student at Westminster you will be able to apply for a place at one of our two halls of residence – iQ Raffles House and Harrow Hall.

iQ Raffles House is our first-year student Hall, five minutes' walk from Wembley Park Tube station, and features almost 500 en suite rooms. iQ Raffles House is on the same development as Wembley Stadium and Wembley Arena, so there is always a lot going on.

Our Wembley Park accommodation is reserved exclusively for first-year students, to help you meet other first years at the start of term and make new friends. It is conveniently located at only two stops on the Tube from our Marylebone Campus, and three or four from our Cavendish and Regent campuses.

For more information see p175 and visit westminster.ac.uk/accommodation

MAKING NEW FRIENDS

"I was in University accommodation at Wembley Park, and as a first year that's definitely a great place to be. You get to know a lot of people in the first few weeks, and there's always something going on. We all went out together quite a lot, and the atmosphere was great. And London's a big city, but because of the transport network it's quick and easy to get anywhere."

Jessica Ryan-Gilbank
History BA Honours, graduate

Harrow Hall is for Westminster Media, Arts and Design students. The on-campus accommodation complex consists of self-contained units arranged in small, purpose-built, low-rise blocks, all surrounded by shrubbery and green lawns.

HOME COMFORTS

"I was in halls in the first year, and it was a great atmosphere, so I really enjoyed the whole university experience. There was always something going on."

James McLauchlan
Film and TV Production
BA Honours, graduate

If you don't want to live in halls or you are unable to get a place, there are plenty of alternatives in either private sector halls of residence, or private house-shares.

Westminster works in partnership with several high-quality private hall providers who offer accommodation across London. There are also private house-share opportunities throughout the city, and our Student Accommodation Team can help you to meet fellow student flat-hunters and find suitable properties.

OPEN DAYS

University Open Days are held across all of our locations, and are a great way to find out more about student life, see the University facilities and meet our students and staff.

Activities include:

- subject presentations by academic specialists
- the chance to chat with our course lecturers and academics
- one-to-one advice on how to apply for a course
- campus tours.

ACCOUNTING, FINANCE & ECONOMICS

Located in one of the world's main financial and business centres, Westminster Business School is internationally facing, professional and research engaged. We have been selected as one of the few postgraduate Centres of Excellence in financial markets by the Chartered Institute for Securities & Investment (CISI). Our recently updated Accounting course offers up to nine exemptions from Association of Chartered Certified Accountants (ACCA) papers (the highest available on a degree-level course) and is accredited by the Chartered Institute of Management Accountants (CIMA). These give you a great platform to become a Chartered Global Management Accountant.

Teaching and learning

These courses will provide an intensive learning of the theories and applied aspects of accounting, finance and economics, together with analysis to aid management decision making. Facilities at Marylebone Campus include our purpose-built Financial Markets Suite. This utilises the Bloomberg platform to provide a state-of-the-art teaching resource, giving you first-hand exposure to technology widely adopted in leading financial institutions. We have developed strong links with some of London's most successful and innovative businesses, giving you the chance to learn from practising professionals and establish your own contacts and networking opportunities while still a student.

Employability

You can choose to spend your third year on an industrial placement, extending your degree to four years, gaining valuable practical experience and enhancing your employability. From Goldman Sachs and BMW to the Universal Music Group and the Walt Disney Company, our students have been able to apply the skills and techniques they have learned in some of the world's best-known businesses and corporations. Alternatively, you can opt to study abroad for a year at one of our partner institutions. The skills and knowledge you acquire will open up a range of opportunities, helping you to build your career in areas such as financial accounting, management accounting, commercial and investment banking, risk tracking, private wealth management, and financial planning.

You will develop a detailed knowledge of the applied aspects of accounting, together with the team-working, problem-solving, communication skills and commercial awareness which companies need in a complex global business world. The course offers up to nine exemptions from Association of Chartered Certified Accountants (ACCA) papers (the highest available on a degree-level course) and is accredited by the Chartered Institute of Management Accountants (CIMA). There is considerable flexibility in the accounting areas in which you might choose to specialise, including subjects such as corporate governance, taxation and company law. You can also study a foreign language each year, and develop practical skills through the use of accounting software such as Sage, and the Financial Market Suite.

For module information and further details, please visit: westminster.ac.uk/accounting-finance-and-economics

Business Economics with Professional Experience BSc Honours

Business Economics with International Experience BSc Honours

Length of course: Three years full-time; four years full-time with work placement or study abroad

UCAS code: L114

Campus: Central London (see map p192)

Typical offer for September 2018: A Levels – BBB; International Baccalaureate – 28 points; Pearson BTEC Level 3 Extended National Diploma – DDM; GCSE minimum Grade 5 in Maths and Grade 4 in English. See also entry requirements on p185.

An in-depth understanding of economics and the unique insights it offers into how individuals, firms and organisations operate is invaluable in a complex and rapidly changing world; so too is the ability to communicate that knowledge. This course combines a thorough grounding in the discipline of economics, with a range of practical skills required in professional life and for postgraduate studies.

You will develop your ability to apply economic reasoning to real-world issues, using appropriate methods of economic analysis to inform decision making, solve business problems, and contribute to the design and implementation of economic policy.

You will extend your skills in accessing and exploring data, quantitative analysis and forecasting, applying these in a global context and becoming aware of the social, environmental and ethical context in which economic decisions are made. In addition, many graduates use their analytic ability in careers in finance and accounting.

The Finance BSc Honours will enable you to develop your understanding of modern finance theories and applications. The course enhances your analytical abilities, together with the team-working, problem-solving, communication skills and commercial awareness needed in a complex global financial environment.

You will gain a broader understanding of the socio-economic, legal and professional environment within which finance operates. A unique feature of the course is the opportunity to use Westminster Business School's Financial Markets Suite, which utilises the Bloomberg platform and shows you how the financial markets operate in real time. The skills and knowledge you develop will open up job opportunities in areas such as asset financing, banking, financial planning, hedge funds, investment analysis, risk management, stockbroking, wealth management and treasury.

ARCHITECTURE & INTERIORS

The University of Westminster is one of the largest providers of built environment education in the country, educating more than 2,000 students at our recently refurbished campus in central London. Westminster offers education in all the disciplines which link the design and development of our cities – from construction to tourism, property to urban design, architecture to transport, housing to planning. You will be given the opportunity for co-operative working across normal professional boundaries and specialisations, which will equip you to undertake the challenges of the working environment.

Teaching and learning

All our courses are delivered using an enquiry-based learning approach involving workshops, lectures, tutorials and independent study, blended with online resources. We use our central London location to great effect, and you will benefit from the strong connections and regular contact with professional bodies, and leading practitioners involved in the delivery of our courses. You will develop your skills by using cutting-edge facilities, and newly expanded and refurbished studios and workshops, including the Fabrication Laboratory, launched in April 2015. This offers advanced digital making facilities which enable processes such as ABS and plaster 3D printing, CNC knife cutting, large-scale CNC routing, CNC metal milling and robot fabrication. In 2017, a further £3.2m refurbishment enhanced and extended our established metal-, wood-, casting-workshops, photography and environmental laboratories, and print room.

Employability

We work with the main professional bodies for the sector, including the Royal Institute of British Architects (RIBA), the Architects Registration Board (ARB), and the Royal Town Planning Institute (RTPI). Structured work experience through our work placement module, coupled with the theoretical knowledge you gain, will equip you with excellent career prospects. Recent graduates have gone on to work for prestigious practices including Wilkinson Eyre, Foster and Partners, Studio E Architects Ltd, Rivington Street Studio, Atkins, KSS Design Group, David Chipperfield Architects, Neil Tomlinson Architects, Grimshaw Architects, PRP Architects, Flanagan Lawrence, and many others.

ARCHITECTURAL TECHNOLOGY BSc Honours

Length of course: Three years full-time; five years part-time

UCAS code: K130

Campus: Central London (see map p192)

Typical offer for September 2018: A Levels – BBC; International Baccalaureate – 28 points; Pearson BTEC Level 3 Extended National Diploma – DMM. See also entry requirements on p185.

You should prepare a portfolio of your own work which illustrates your skills, talents and interests through a variety of media and forms; it may include sketches, photos, drawings, collages, modelling and 3D work. The portfolio should evidence your creative process as well as the final outcome, so please include developmental work illustrating the observation, design and making process as well as final pieces (CAD drawings or software photo manipulations need not be included). You may be asked to attend an interview and present your portfolio, or submit work online.

Architectural technologists are specialists in the technological decisions necessary to solve design problems. They need a sound understanding of the processes of design and construction and the management tools for the communication of design information. The skills they require are wide ranging, from design and architectural composition, technical analysis and presentation, to the management skills necessary for contract procurement and administration.

This course will enable you to appreciate the multidisciplinary nature of the built environment, and gain a broad understanding of neighbouring disciplines. You will acquire the skills and knowledge to develop your career in an architectural design setting alongside architects, engineers, surveyors and other professionals, practice privately, or run a business in the architectural and construction industries.

ARCHITECTURE BA Honours

Length of course: Three years full-time

UCAS code: K100

Campus: Central London (see map p192)

Typical offer for September 2018: A Levels: AAB (Art, Design or Design and Technology is preferred as one of the choices, together with subjects from other fields) or Pearson BTEC level 3 Extended National Diploma in Art and Design: DDM, plus at least five GCSEs with Grade 4 or above (including English, Maths and a double award in science, or two separate sciences). International Baccalaureate: 32 points or more, including Visual Arts to a higher level. Applicants who have met the entry requirements above and are currently studying an Art and Design Foundation are also encouraged to apply; the entry requirement is Merit. See also entry requirements on p185.

You should prepare a portfolio of your own work which illustrates your skills, talents and interests; it may include sketches, drawings, collages, modelling, 3D work and painting. We want to see evidence of your creative process as well as the final outcome, so please include developmental work as well as final pieces. You may be asked to attend an interview and present your portfolio or to submit the work online with interview by Skype.

The course involves wide-ranging academic, practical and vocational activities, requiring creativity and imagination as well as technical knowledge and skills.

Leading practitioners teach 19 design studios, offering a diverse and stimulating range of approaches to design through tutorials, seminars and ‘crits’, workshop sessions, building visits, exhibitions, and optional field trips. History and theory study culminates in the researching and writing of a dissertation. The technology elements of the course include construction, structures and environmental design, and in the second year students shadow a construction site and attend site meetings. Students’ own technical research informs their final design project work. Preparation for practice is through a work placement module with a further practice mentoring option. The course is prescribed by the Architects Registration Board (ARB) and validated by the Royal Institute of British Architects (RIBA) as meeting Part 1.

Plus, at least three GCSEs at Grade 4 or above (including English, Maths and Science). If your first language is not English, you will need an IELTS of 6.0 overall (or equivalent). See also entry requirements on p185.

You should prepare a portfolio of your own work which illustrates your skills, talents and interests through a variety of media and forms; it may include sketches, photos, drawings, collages, modelling and 3D work. The portfolio should evidence your creative process as well as the final outcome, so please include developmental work illustrating the observation, design and making process as well as final pieces (CAD drawings or software photo manipulations need not be included). You may be asked to attend an interview and present your portfolio, or submit work online.

This new course encompasses the artistic and the scientific to create a new generation of architects who are not only architecturally competent and environmentally aware, but also able to explore the spatial poetics with a collaborative evidence informed approach, to selectively evaluate the design options and to quantify building performance, environmental benefits and impact of their designs.

On this course you will foster your creative space and form making, environmental design, technical and analytical skills through a variety of qualitative and quantitative design methods, as well as your critical thinking and contextual awareness at multiple and interconnected levels. Half of your time will be spent on studio-based design activities and half on historical, cultural, socio-economic and professional studies – however, all modules have a strong interdisciplinary and holistic approach that highlights the ‘added value’ environmental architects bring to the building industry and to society.

The course will be put forward for prescription by the ARB, and apply for validation by the RIBA in 2018.

DESIGNING CITIES: PLANNING AND ARCHITECTURE BA Honours

Length of course: Three years full-time

UCAS code: 4J12

Campus: Central London (see map p192)

Typical offer for September 2018: A Levels – BBB; International Baccalaureate – 28 points; Pearson BTEC Level 3 Extended National Diploma – DMM. See also entry requirements on p185.

If you have a background in art and design, you could prepare a portfolio of your own work to support your application. The portfolio should illustrate your skills, talents and interests; it may include sketches, drawings, pictures, collages, modelling, 3D work and painting. Your portfolio could include projects that you have done outside of an educational setting, eg a photographic study of an urban area, a travel diary, building a tree house. You might be asked to attend an onsite or Skype interview.

This integrated degree course enables you to develop a broad understanding of urban planning and design, and the contribution they can make to sustainable development.

The course is accredited by the Royal Town Planning Institute (RTPI) as meeting their requirements for the spatial planning element of initial planning education.

The course offers the first step in becoming a professional planner with skills in urban design, who can understand the forces that shape towns and cities and their current environmental challenges, and who can make a valuable contribution to sustainable development in an international context.

The curriculum is delivered through a variety of methods such as lectures, seminars, workshops, field trips and projects, with assessments including written and graphic work, with a creative element.

INTERIOR ARCHITECTURE BA Honours

Length of course: Three years full-time

UCAS code: W250

Campus: Central London (see map p192)

Typical offer for September 2018: A Levels – BBB; International Baccalaureate – 28 points; Pearson BTEC Level 3 Extended National Diploma – DMM. Applicants who meet these requirements and are currently studying an Art and Design Foundation are also encouraged to apply. See also entry requirements on p185.

You should prepare a portfolio of your own work which illustrates your skills, talents and interests through a variety of media and forms; it may include sketches, drawings, collages, modelling and 3D work. The portfolio should evidence your creative process as well as the final outcome, so please include developmental work as well as final pieces. You may be asked to attend an interview and present your portfolio, or submit work online.

Interior Architecture should be understood as a distinct and separate design discipline to Architecture, with a focus on the creation of innovative and exciting interior solutions, primarily through the adaptation and spatial manipulation of new and existing buildings. It is concerned not just with physical intervention but also with how space is understood and occupied.

The course implicitly embeds issues of sustainability, through its concern with reuse and refurbishment, as well as the critical ability to respond appropriately to a given context. It is interdisciplinary in its outlook and acknowledges the importance of other closely related areas, including interior design, exhibition design, set and lighting design, retail and product design, interior conservation as well as multidisciplinary and traditional design practice.

This course is designed to equip graduates with the practical skills and theoretical knowledge required to pursue a career in interior architecture and design related fields and/or go on to further awards in tertiary education, most typically a Masters qualification.

ART & DESIGN

Our art and design courses offer you the opportunity to work in generous dedicated studios, supporting both traditional and high specification digital technologies central to a wider range of art and design practices. You will work alongside students in related creative fields - film, television, photography, music, fashion, digital media, marketing and journalism, in a unique hothouse of creative opportunity.

The courses make full use of London's exciting cultural and creative environment, and include an extensive range of additional activities, workshops, lectures and events that are cross-course and inter-disciplinary. Visiting lecturers bring the creative industries into the learning environment.

Teaching and learning

These courses reflect the fast-changing opportunities in art, design and new media, and our teaching programmes combine the development of professional-level studio practice with the acquisition of skills, knowledge and understanding. We encourage your creativity, individuality and personal growth, employing a range of delivery and teaching strategies including project work, group work and collaboration, workshops, seminars, group tutorials, crits, and think-tank sessions.

Visits to current exhibitions, projects and events are an important element in our programmes. We also encourage our students to take every opportunity for work experience, and engage in external activities such as national and international competitions, and collaborations with industry.

Employability

We prepare you not only to enter the creative industries, but to shape and lead them. From exhibiting, curating, and creating companies, to writing, animating, filming, editing, directing, designing, lecturing, researching and teaching, our graduates succeed in all areas of the creative industries. Our alumni have gone on to take up key posts in a range of leading companies and organisations, including Apple, the BBC, the British Museum, the Discovery Channel, Guardian Newspapers and Orange.

ANIMATION BA Honours

Length of course: Three years full-time

UCAS code: W615

Campus: Harrow (see map p192)

Typical offer for September 2018: A Levels – CCC ; International Baccalaureate – 26 points, Pearson BTEC Level 3 Extended National Diploma – MMM depending on subject and overall academic/ skill profile. BTEC Foundation Diploma in Art and Design with Pass, but other equivalent qualifications are welcomed. You may be required to bring a portfolio of practical work to interview. See also entry requirements on p185.

Commercial animation is a rapidly growing and vibrant industry, encompassing a very broad range of rewarding and fascinating creative job opportunities. This exciting specialist course will enable you to develop your imaginative and creative skills, while giving you a sound knowledge and understanding of animation processes, techniques and critical theory.

The strong emphasis on creative practice will help to develop your skills in drawing and design, along with the imaginative development and innovation of ideas expressed sequentially. The course is delivered by a large team of experienced animation practitioners, staff and industry visitors, and you will work in dedicated specialist animation studios with facilities for blue screen, rostrum animation, CGI, drawing, stop-frame, film, photography, set building, sound and video.

FINE ART MIXED MEDIA BA Honours

Length of course: Three years full-time; five to eight years part-time

UCAS code: WVP23

Campus: Harrow (see map p192)

Typical offer for September 2018: A Levels – CCC; International Baccalaureate – 26 points; Pearson BTEC Level 3 Extended National Diploma – MMM. Ideally you should have passed the BTEC Foundation Diploma in Art and Design but other equivalent qualifications are welcomed. You should have a portfolio of practical work to bring to interview. See also entry requirements on p185.

This innovative course offers you the opportunity to explore and develop work across boundaries, within contemporary fine art disciplines. It encourages creativity, individuality and personal growth, and once you have acquired the basic skills you can negotiate your own individual study programme with tutors.

This studio-based course provides you with permanent studio space, depending on the type of work you engage with. You are encouraged to bring highly individual approaches to studio practice, coupled with an emphasis on experiential learning; these factors have established the course at the cutting edge of contemporary practice. The final year culminates in your degree show; you will fundraise, promote and curate this public event.

For module information and further details, please visit: westminster.ac.uk/art-and-design

“I applied to the University of Westminster due to its reputation as a Fine Art course with a lot of freedom, and decided to go there after attending my interview and seeing the facilities. I was blown away with how spacious and modern the studios were, with so much natural light.”

GRAPHIC COMMUNICATION DESIGN BA Honours

Length of course: Three years full-time

UCAS code: W211

Campus: Harrow (see map p192)

Typical offer for September 2018: A Levels – CCC; International Baccalaureate – 26 points; Pearson BTEC Level 3 Extended National Diploma – MMM. BTEC Foundation Diploma in Art and Design with Pass but other equivalent qualifications are welcomed. You may be asked to show a portfolio of practical work. See also entry requirements on p185.

This broad-based course aims to encourage your creativity, individuality and personal growth through the study of graphic communication design. The emphasis is on the application of skills to develop ideas and present information in ways that are engaging, meaningful, useful and worthwhile.

You will be encouraged to develop your awareness and understanding of the social contexts and environmental responsibilities of design, so that you can identify communication strategies that enrich people's lives by enabling them to be better informed about the world in which they live.

With significant opportunities for personal choice and independent study, you will learn to engage audiences through imaginative and creative design solutions that may challenge, persuade, shock, provoke, excite and entertain, but always aim to inform.

For module information and further details, please visit: westminster.ac.uk/art-and-design

ILLUSTRATION AND VISUAL COMMUNICATION BA Honours

Length of course: Three years full-time

UCAS code: W220

Campus: Harrow (see map p192)

Typical offer for September 2018: A Levels – CCC; International Baccalaureate – 26 points; Pearson BTEC Level 3 Extended National Diploma – MMM; BTEC Foundation Diploma in Art and Design with Pass. You may be required to bring a portfolio of practical work to interview. See also entry requirements on p185.

This course supports image-making and illustration across a range of technical creative processes through a flexible and multi-disciplinary approach to visual communication. A deep understanding of visual languages and the ability to articulate ideas through drawing are key to effective visual communication, whether it is for promotional materials, visual storytelling, documentation, social comment or decorative design and merchandising.

The wider context of study on this course is an enrichment and expansion of your visual and intellectual engagement with culture and creative enterprise. In addition to core study there are opportunities for peer collaboration, public exhibitions and cross-disciplinary learning. We provide for visits to exhibitions and galleries, location study and field trips, with opportunities for study abroad and an additional sandwich internship year.

BIOMEDICAL SCIENCES

As a biomedical sciences student at the University of Westminster, you will benefit from some of the best teaching and facilities available, with more than £30 million invested in creating state-of-the-art learning environments, laboratories and equipment.

Our Applied Biomedical Science and Biomedical Sciences BSc Honours courses are accredited by the Institute of Biomedical Science, and the Applied Biomedical Science BSc Honours is also approved by the Health and Care Professions Council.

Teaching and learning

You will learn through a combination of formal contact – such as large and small group lectures, seminars, tutorials, workshops, laboratory practical sessions and demonstrations – as well as independent work and online support activities. In your final year you will complete a major research project, developing the skills you need for genuine scientific inquiry.

Our experienced and research-active staff work in close collaboration with bio-industry, the National Health Service (NHS) and research institutions within the UK, Europe and the USA.

Employability

Our biomedical sciences courses prepare tomorrow's scientists for a wide range of careers. Recent graduates have gone on to work in fields as diverse as diagnostic pathology, healthcare management, medicine and medical research, and in hospitals, laboratories and major pharmaceutical organisations across the globe. The courses will prepare you for professional working life, and provide you with the combination of technical knowledge and practical skills that meet the needs of industry, research or further study.

APPLIED BIOMEDICAL SCIENCE BSc Honours

Length of course: Four years part-time, day release, one day per week

UCAS code: Apply directly to the University, at westminster.ac.uk

Campus: Central London (see map p192)

Typical offer for September 2018: A Levels – BBC/A*A* to include two science subjects from Biology, Chemistry, Physics and Maths; International Baccalaureate – 26 points to include a minimum of 4 in two Higher Level science subjects; Pearson BTEC Level 3 Extended National Diploma/National Diploma – DMM/D*D* in Applied Science. We consider applications that reflect a mixture of level 3 qualifications as long as they are equivalent to our typical offer requirements and include the Science requirements. See also entry requirements on p185.

The Applied Biomedical Science BSc represents an integrated approach to the study of human health and disease, with an emphasis on the diagnosis and understanding of disease processes from a medical diagnostic perspective. The course is delivered part-time over four years, and is only open to you if you are employed in a suitable accredited biomedical laboratory able to support work-based learning; you will need a written statement of support from your employer. The course builds on the practical knowledge developed within the workplace, and provides underpinning knowledge essential to the development of practising biomedical scientists.

This degree is approved by the Health and Care Professions Council, and accredited by the Institute of Biomedical Science and the Royal Society of Biology.

BIOMEDICAL SCIENCES/ BIOMEDICAL SCIENCES (SANDWICH) BSc Honours

Length of course: Three years full-time; four years full-time with sandwich year

UCAS code: B940; with sandwich B900

Campus: Central London (see map p192)

Typical offer for September 2018: A Levels – BBC/A*A* to include two science subjects from Biology, Chemistry, Physics and Maths; International Baccalaureate – 26 points to include a minimum of 4 in two Higher Level science subjects; Pearson BTEC Level 3 Extended National Diploma/National Diploma – DMM/D*D* in Applied Science. We consider applications that reflect a mixture of level 3 qualifications as long as they are equivalent to our typical offer requirements and include the Science requirements. See also entry requirements on p185.

Biomedical science is concerned with the detailed study of the human body – in health and disease – with emphasis on the diagnosis and understanding of disease states and the mechanisms involved. This course has been designed to prepare you for a career in medical diagnostic, pharmaceutical and research environments, and provides you with a thorough education in the disciplines required to understand and investigate disease. The sandwich version of the course is unique, built on our longstanding partnership with NHS and private laboratories in and around London, and offering a year-long industry placement for all sandwich students.

This degree is accredited by the Institute of Biomedical Science and the Royal Society of Biology. Honours graduates can expect to become registered with the Health and Care Professions Council as Biomedical Scientists, see website for more details.

BIOMEDICAL AND PHYSIOLOGICAL SCIENCES FdSc

Length of course: Three years part-time

Application: Apply directly to the University at westminster.ac.uk

Campus: Central London (see map p192)

Typical offer for September 2018: You must normally have completed a full Level 3 qualification in line with the University of Westminster's admissions regulations:

- one A Level pass in a related science subject
- NCVQ recognised awards, including relevant GNVQ at Level 3
- AVCE Science (single award)
- Irish Leaving Certificate with passes in five subjects at Higher Level
- pass in a link Foundation course
- Pearson BTEC Level 3 Extended National Diploma/National Diploma in Applied Science.

Equivalent qualifications and relevant professional experience will also be considered. Overseas applicants will be required to have achieved an IELTS of 6.0 overall or equivalent, with a minimum of 5.5 in each element.

Aimed at working healthcare science assistants and associate practitioners, this course will provides an excellent opportunity to study part-time by distance learning in order to obtain a higher education qualification in line with current and future healthcare science workforce requirements. Successful students will be qualified to progress onto an appropriate BSc Honours course.

The Foundation Degree in Biomedical and Physiological Sciences combines biomedical science and physiology undergraduate modules from the first two years of the full undergraduate biomedical sciences courses with work-based learning modules. Our virtual learning environment provides opportunities for flexible learning using a range of resources; it also enables live teaching at times to align with student's employment responsibilities. Although predominantly by distance learning, you will attend the University for a week of laboratory sessions every year. The course contains a substantial element of work-based learning aligned to your professional responsibilities in your employing laboratories. Work-based learning module activities are designed to promote development and deeper understanding of the theory and skills applied to your workplace activities.

This degree is approved by the Institute of Biomedical Science.

BIOSCIENCES

As a biosciences undergraduate student at the University of Westminster, you will benefit from some of the best teaching and facilities available, with more than £30 million invested in creating state-of-the-art learning environments, laboratories and equipment.

Teaching and learning

Our courses combine hands-on practical classes with virtual laboratory simulations, lectures and tutorials. Our students have opportunities to study a language alongside their bioscience modules or take an interdisciplinary module in art and science. In addition to the classroom activities there are student societies for life sciences, bioinformatics, synthetic biology and pharmacology. There are opportunities for students to take part in the international iGEM synthetic biology competition and the Antibiotics Unearthed project, both of which give you extensive laboratory, as well as science communication and outreach experience.

Your laboratory and research skills will be developed throughout your degree, culminating in your final-year project in which you will undertake original research of your own. A personal tutor will mentor you throughout the degree, initially helping you to make a smooth transition to higher education, and then providing academic advice and monitoring your professional development throughout your course.

Employability

Our biosciences courses prepare tomorrow's scientists for a wide range of careers. We provide extracurricular support focussing on career development in conjunction with our Careers and Employability Service. Recent graduates have gone on to work in fields as diverse as medical research, molecular and forensic science, pharmaceutical development, science communication and policy, financial management and teaching. Many graduates also go on to further postgraduate studies and research degrees. Our courses will equip you for professional working life and give you the combination of technical knowledge and practical skills that you need to succeed in industry, research or further study.

Biochemistry is the study of living systems at the molecular level; it is a pivotal degree discipline and a fundamental element of all the biological sciences. Biochemists examine the structure and function of molecules in living systems and identify the roles of specific genes within cells by carrying out experimental investigation of biological systems ranging from cell extracts in test tubes to whole organisms, and *in silico* computer models.

This course will give you the skills and knowledge to establish yourself in a range of careers related to biochemistry, including the pharmaceutical, diagnostic and biotechnology industries. The foundation of the course is our thriving research in diverse areas of biochemistry including biotechnology, cancer biology, genomics, molecular diagnostics and therapeutics, plant biochemistry, and protein structure.

The course is accredited by the Royal Society of Biology.

Typical offer for September 2018: A Levels – BBC/A*A* to include two science subjects, one from Maths, Physics, Chemistry and Biology, and one from Maths, Physics, Chemistry, Biology, Psychology, Geography and Economics; International Baccalaureate – 26 points to include a minimum of 4 in two Higher Level science subjects; Pearson BTEC Level 3 Extended National Diploma/National Diploma – DMM/D*D* in Applied Science. We consider applications that reflect a mixture of Level 3 qualifications as long as they are equivalent to our typical offer requirements and include the Science requirements. See also entry requirements on p185.

Biological science is about understanding the challenges faced globally and in our society and applying bioscience to help overcome these. The course covers the diversity of organisms, molecular science, applied bioscience and human biology. We offer you the chance to explore cutting-edge topics in molecular biology and genetics, the urban environment, global challenges, microbiology and biological applications. With a passion for scientific enquiry, our modules are research driven, training you to communicate bioscience to a range of audiences.

This course offers a range of option modules providing a more flexible way to study the life sciences and enabling you to tailor the course towards your interests. Alongside the bioscience teaching, you will develop a range of transferable skills enabling you to succeed in the workplace and there is an opportunity to take a work experience and career management skills module.

The course is accredited by the Royal Society of Biology.

PHARMACOLOGY AND PHYSIOLOGY

BSc Honours

Length of course: Three years full-time

UCAS code: BB12

Campus: Central London (see map p192)

Typical offer for September 2018: A Levels – BBC/A*A* to include two science subjects from Biology, Chemistry, Physics and Maths; International Baccalaureate – 26 points to include a minimum of 4 in two Higher Level science subjects; Pearson BTEC Level 3 Extended National Diploma/National Diploma – DMM/D*D* in Applied Science. We consider applications that reflect a mixture of Level 3 qualifications as long as they are equivalent to our typical offer requirements and include the Science requirements. See also entry requirements on p185.

Pharmacology is the science of how drugs act and how medicines treat diseases. Physiology describes how the body and its systems operate, not only in health but also in disease. Knowledge of the latter is therefore crucial for an understanding of the former.

At Westminster, you will gain a sound understanding of the biological actions of drugs and other biomolecules at the whole-body, tissue, cellular and sub-cellular levels, together with their use in treatment of diseases. Central to the course is development of students' practical skills, offered within our research and teaching laboratories. Teaching also makes extensive use of the APOLLO Patient Care Simulator, a cutting edge teaching tool which allows realistic modelling of human physiology, and clinical responses of drugs administered to 'virtual' patients. Additionally, our course focuses upon the exciting areas of personalised medicine, pharmacogenomics and new approaches to drug discovery.

The course is accredited by the Royal Society of Biology.

BUSINESS & MANAGEMENT

Located in one of the world's main financial and business centres, Westminster Business School is international, professionally focused and research engaged. Our business and management courses will help you to develop an enquiring, critical and reflective approach, enabling you to contribute proactively to the rapidly changing business environment. We are a CIPD Approved Centre, and have been selected as one of the few postgraduate Centres of Excellence in financial markets by the Chartered Institute for Securities & Investment (CISI). We are also recognised by the Chartered Management Institute.

Teaching and learning

Facilities at Marylebone Campus include our purpose-built Financial Markets Suite. This teaching resource utilises the Bloomberg platform, giving you first-hand exposure to technology widely adopted in leading financial institutions. Teaching methods range from active student learning through seminars, workshops, problem-based and blended learning, to the innovative 'learning by doing' approach employed in our Entrepreneurship BA Honours. We have strong links with some of London's most successful and innovative businesses, giving you the chance to learn from practising professionals via work placements and establish your own contacts while still a student.

Employability

Your experiences as a business and management student will help you to become global in outlook and socially, environmentally and ethically aware. You have the opportunity to complete a work placement between Years 2 and 3, to broaden your knowledge of business, develop your practical skills and enhance your employability. Alternatively, you may study overseas for a year or a semester at one of our partner institutions. Our graduates have gone on to start their own businesses as well as building successful careers in a variety of sectors including accounting, management consultancy, retailing and small business management.

We welcome applications from students who do not have the entry requirements outlined. The University will consider applications on the basis of evidence of personal, professional and educational experience, which indicates applicants’ ability to meet the demands of the degree. Applicants will be interviewed before an offer is made. The candidates must be able to demonstrate an ability to work effectively in teams and be self-motivated. Candidates should also be independent learners with an interest in entrepreneurship.

We are unable to accept applications for this course from students who require a Tier 4 visa to study in the UK. This is due to the course requirement to set up a company, which is not allowed for Tier 4 students under UK immigration rules. If you hold a different type of UK visa and would like to know if you are eligible to study on this course, please contact the UKVI Compliance team at tier4visas@westminster.ac.uk.

This innovative course is a highly practice-led programme aiming to facilitate your learning journey, to help you develop knowledge, skills and test your entrepreneurial mindset, whether you decide to lead the creation of new companies or work on business development inside enterprises.

We provide aspiring entrepreneurial students with the opportunity to gain a broad understanding of entrepreneurial learning theories, and put this into practice within a supportive, creative and challenging entrepreneurial environment. In addition to developing critical business skills through different business challenges, the course aims to enable you to develop criticality and communication skills, cultivate effective networks and work with business mentors and coaches to research the market and design a business concept capable of success.

Students will have the opportunity to be in constant contact with London’s vibrant business communities through our networks of entrepreneurs, accelerators and investors.

International Business (Arabic/Chinese): We are ideally looking for evidence of successful language learning formal or informal in the applicant's personal statement but please note that these courses are designed for students only at beginners or false beginners level in Arabic/Chinese and we may need to test you to determine your language level.

International Business (French/Spanish): We are ideally looking for evidence of successful language learning formal or informal in the applicant personal statement. We accept students at beginner and intermediate level.

This course is designed to develop the skills and knowledge you will need to succeed in the increasingly globalised business world. The course is offered with four possible languages – Arabic, Chinese, French or Spanish. The subjects studied incorporate cross-national perspectives, and the comprehensive language training places strong emphasis on the day-to-day use of language in a business environment, enabling you to deal with all aspects of business transactions.

This degree will equip you with fluency in a foreign language, and a range of professional skills and knowledge from relevant business areas. You will also have the opportunity to spend an optional year abroad, experiencing life, culture and work outside the UK while studying in the country where your chosen language is spoken. In some cases you can opt to combine study abroad with a work placement; or you have the opportunity of a work placement year in the UK.

BUSINESS INFORMATION SYSTEMS

As a business information systems student at the University of Westminster, you will benefit from some of the best teaching and facilities available, with more than £30 million invested in creating state-of-the-art learning environments, laboratories and equipment.

Teaching and learning

You will learn through a combination of formal contact – such as large and small group lectures, seminars, tutorials, workshops, laboratory practical sessions and demonstrations – as well as independent work and online support activities. The Business Information Systems BSc Honours will enable you to develop into an effective user or provider of technical business services. You will build knowledge and skills in business-enabling technologies and analytics. You will study in a department of practitioners and high-profile researchers, with access to the technologies used for managing business knowledge.

Employability

You will have a high level of contact with outside companies through your placement year (if you choose a four year option), project module and employers' visits. The course is accredited by BCS – the Chartered Institute for IT, and our graduates are highly employable. Recent graduates have gone on to work in a range of roles including business analysts, business intelligence consultants, information architects and enterprise developers, with companies such as GlaxoSmithKline, Hewlett-Packard, HSBC, IBM, ITV, the National Health Service (NHS) and PricewaterhouseCoopers.

Working in the world of information systems can be exciting and rewarding, as businesses become more and more reliant on information systems to support innovation, decision making and day-to-day operations. The creative use of information systems can transform organisations, and successful enterprises require hybrid managers and analysts who can evaluate and use the tools, gauge the risks and provide the key insights and sound direction for strategic business planning.

This course develops your understanding of the business challenges of an enterprise, and your ability to conceive and manage solutions which are increasingly ICT dependent. You will gain understanding of and exposure to businesses through project modules and employers' visits. You will integrate your skills of problem solving and information systems modelling with your knowledge of business processes and environments.

COMPUTER & NETWORK ENGINEERING

As a computer and network engineering undergraduate at the University of Westminster, you will benefit from some of the best teaching and facilities available, with more than £30 million invested in creating state-of-the-art facilities and resources. These include numerous laboratories offering access to Windows and Linux platforms, running industry-standard, computer-aided analysis and design applications.

Teaching and learning

You will learn the fundamental principles of computing and network engineering, and be encouraged to use initiative and confidence in approaching engineering problems, investigating solutions using a blend of analytical and practical skills. Teaching methods include lectures and seminars, laboratories and computer-aided engineering, group and individual projects, and online learning. Students specialise in networking, communications, system and network programming as well as interfacing hardware and software. Our aim is to develop graduates with the right skill-set in computer systems and networking for today's job market.

Employability

All of our courses offer you the opportunity to take a year-long industry placement between Years 2 and 3, giving you a competitive edge in the job market and contributing to your professional development. Our courses are accredited by the appropriate professional bodies, the Institution of Engineering and Technology (IET), the Engineering Council, and BCS – the Chartered Institute for IT, enabling you to become Chartered and Incorporated Engineers after gaining professional experience. Our graduates have gone on to work for BT, British Aerospace, CITRIX Systems, KDDI Global, Nokia, O2 Communications, Ping Networks and smaller private companies. Some have started up their own businesses in manufacturing or consultancy.

BSc Honours

Length of course: Three years full-time; four years full-time with industrial placement

UCAS code: G423

Campus: Central London (see map p192)

Typical offer for September 2018: A Levels – BCC/A*A to include at least one technical subject; International Baccalaureate – 26 points including 5 in a Higher Level technical subject; Pearson BTEC Level 3 Extended National Diploma/National Diploma – DMM/D*D* in Engineering, ICT or Computing, to include Maths at Level 3. We consider applications that reflect a mixture of Level 3 qualifications as long as they are equivalent to our typical offer requirements. See also entry requirements on p185.

Security is a vital aspect of any networked system, especially as the dependency on network infrastructures has grown over the past few decades. This course has been designed to meet the demand for graduates with application-oriented engineering skills and know-how, particularly in relation to local, wide and wireless area networks and network security. The course focuses on three main aspects – communication, network design and implementation, and security.

The course emphasis is on hands-on work at every level, with a focus on ‘learning by doing’ which enhances the development of your engineering skills. It will equip you with knowledge and understanding of current technologies applied to network security, of modern computer architecture, and of the role and responsibilities of the professional engineer.

We consider applications that reflect a mixture of Level 3 qualifications as long as they are equivalent to our typical offer requirements. See also entry requirements on p185.

Computer systems engineering is a growing market in today’s computer industry. Embedded systems have become widespread in industry and can be found in almost all modern consumer devices, from washing machines to cars. This course aims to develop your skills as a strong computer-based engineer, in demand in both industry and research. It will equip you with the necessary knowledge and engineering skills related to modern day computer and embedded microprocessors, as well as embracing their structure, design and efficient operation.

This course focuses on three main areas – the computer system, embedded systems and operating systems – and you will gain the technical expertise and knowledge to take a good idea from conception through to a viable product, a key characteristic for many employers.

For module information and further details, please visit: westminster.ac.uk/computer-and-network-engineering

COMPUTER SCIENCE & SOFTWARE ENGINEERING

As a computer science and software engineering undergraduate at the University of Westminster, you will be well placed to develop and exploit the existing and emerging technologies that play a key role in software systems used by both consumer and business markets. You will benefit from some of the best teaching and facilities available, with more than £30 million invested in creating state-of-the-art facilities and resources. You will have access to over 700 recently updated desktops equipped with Windows, Solaris, Linux, Mac OS X and iOS, and fully equipped multimedia and computer games laboratories, all supported by specialist technicians.

Teaching and learning

You will gain the skills to compete in the world's rapidly changing technology environment. Our courses provide you with core software engineering and programming principles while allowing you to specialise in one of the industry-focused pathways. Teaching methods include lectures and seminars, laboratory practicals, group and individual projects, and online learning.

Employability

All of our courses offer you the opportunity to take a year-long industry placement between Years 2 and 3, giving you a competitive edge in the job market and contributing to your professional development. Our courses are accredited by the appropriate professional bodies, the Engineering Council, and BCS – the Chartered Institute for IT. From designers and programmers to systems analysts and project managers, our graduates are flourishing in the business, commercial and entrepreneurial sectors.

This course studies the best ways to design, build, maintain and evaluate software systems. It uses many of the technical aspects of computer science, especially programming, and aims to develop the professional attitudes, interpersonal and technical skills you will need in the software engineering industry.

The course provides a solid foundation in software engineering theory and practice to develop professional software systems. You will study software development, programming languages, technologies and applications, including Java, C/C#, UNIX, UML, graphics, networks, concurrent systems, databases, artificial intelligence, and web and mobile computing. The BEng emphasises fundamental principles, design, and acquisition of practical skills and evaluation of technologies. You can also apply to complete an integrated Masters programme with the award of an MEng degree after completion of the BEng.

CRIMINOLOGY

Criminology is one of the most diverse and fluid academic subjects, and our uniquely creative approach to learning means our students develop a critical, independent approach. You explore definitions of crime, how criminal law is made and enforced, and how understandings of crime and justice vary by class, race or gender of offenders and victims. A distinctive feature of our course is considering these issues from a criminological psychological perspective. We encourage you to broaden your thinking to include ideas about global economic, political and social issues that affect us all, and frame these within core concepts of freedom, justice and human rights. You will have access to an unrivalled range of resources, and the chance to be part of a thriving, diverse and exciting capital.

Teaching and learning

Our dedicated criminology lecturers have many years' experience of teaching highly regarded courses, and have varied backgrounds in academia – such as sociology, law, social anthropology, cultural studies, social policy, psychology, international relations and politics – in policy work, and in the voluntary sector. Our teaching and assessment methods are designed to bring out the strengths in each student. You will consider classic theoretical frameworks, as well as emergent real-world case studies that apply to modern life and its challenges. You will also benefit from high-quality training in research methods which you will apply to your own research project in your final year.

Employability

Our strong links with criminal justice practitioners mean that you will be able to gain valuable work experience which is respected by employers in many sectors of the economy. As a criminology graduate you will have highly regarded research, analytical, evaluative and communication skills which will appeal to employers in the fields of social policy, the criminal justice system, education, the Civil Service, the media, and campaigning groups, as well as the police and other organisations linked to law and its enforcement.

With crime frequently in the news and always an important issue, criminology has never been more relevant. Our Criminology BA Honours aims to enthuse, inspire and equip you with the skills you need for a successful career, as well as making you a thoughtful and enquiring person who looks beyond the headlines.

Westminster's criminologists are concerned with who commits crimes and how offenders should be punished, but at the heart of criminology are fundamental questions about how crime is defined, how criminal law is made and enforced, and how definitions of crime and justice vary historically and cross-culturally. The subject engages with globalisation and culture throughout, and draws on up-to-date theoretical, qualitative and empirical approaches. Overall, it is one of the most relevant and dynamic subjects, and one which by its very nature attracts a diverse and creative group of students.

For module information and further details, please visit: westminster.ac.uk/criminology

"I thought the course might be very administrative and focus on issues like forensics, because that's the general impression of criminology. But once I started the course here I realised it was so much more than that – it's not the typical, often one-sided view of what criminology is about, you get a very broad overview."

DIGITAL MEDIA & GAMES COMPUTING

Our digital media and games computing courses will equip you with the required theoretical, creative and technical skills to become part of the next generation of the digital creative industry. You will benefit from some of the best teaching and facilities available, with more than £30 million invested in creating state-of-the-art facilities and resources. As well as a range of laboratories equipped with Windows, Unix and Mac OS X machines, you will have access to advanced specialist multimedia and computer games laboratories equipped with the latest graphics and animation software, motion capture equipment, game consoles, virtual reality devices (Oculus, Gear VR, Vive, HoloLens) and game engines/middleware allowing the development of highly interactive digital media products and games. This includes the state-of-the-art Motion Capture and Games Design Labs equipped with the latest Game Consoles and VR hardware.

Teaching and learning

Our courses are accredited by BCS – the Chartered Institute for IT, and our teaching team is shaped by a group of research active academics. The University has strong links with the digital industry and during your study there will be a number of talks from large creative computing organisations, as well as visits to computer shows and fairs.

Employability

Our graduates have successfully participated in various international and national competitions to gain internships and placements, and have been employed by companies including Feral Interactive, Microsoft, Quantel, Red Bee, SEGA, Siemens and TFL.

DIGITAL MEDIA DEVELOPMENT BSc Honours

Length of course: Three years full-time; four years full-time sandwich

UCAS code: GP43

Campus: Central London (see map p192)

Typical offer for September 2018: A Levels – BBC/A*A*; International Baccalaureate – 26 points; Pearson BTEC Level 3 Extended National Diploma/National Diploma – DMM/D*D*. We consider applications that reflect a mixture of Level 3 qualifications as long as they are equivalent to our typical offer requirements. See also entry requirements on p185.

Digital media development refers to computer-based systems, products and services which respond to the user's actions by presenting rich content such as text, graphics, animation and video. The digital media industry requires practitioners with a combination of specialised skills, such as an understanding of user interface (UI) and user experience (UX) principles, and also the technical competences for developing and controlling responsive interfaces that adapt to multiple platforms and devices.

This course covers the principles that contribute to effective UX design, content management and optimisation in interactive products. It offers three main directions of specialisation – web application design and development, mobile application design and development, and 3D interfaces design and development. You will be supported to build a rich portfolio, and to gain credit for industrial certification courses licensed by major commercial software developers.

For module information and further details, please visit: westminster.ac.uk/digital-media-and-games-computing-courses

“I have learned and developed many core computing as well as multimedia-specific skills. Through my optional modules I specialised in areas such as 3D modelling and mobile app development. I have learned how to plan and create a wide variety of multimedia products effectively – skills I will use in the workplace.”

Eduard Ghinea
Digital Media Development BSc Honours, graduate, Software Developer at Kainos

ENGLISH

In the study of English, Linguistics and Cultural Studies we make the most of our central London location, organising regular public events with institutions such as the British Library and Tate Britain. You will be surrounded by an unrivalled range of library, cultural and archive resources; you will also benefit from our programme of regular guest lectures by high-profile published writers. All of our English students are able to choose to study abroad as part of their course, with our partners including universities in Europe, the United States, Canada and Australia.

Teaching and learning

The main mode of learning is in seminars and workshops, with individualised tutorials to support your work. There is also a significant amount of independent study conducted (individually and in groups) beyond the classroom, in the library, at home, and via electronic resources. Our teaching is informed by an established and lively research culture that embraces a range of critical approaches and various periods. Research areas include medieval and early modern English, 19th-century literature and culture, Gothic studies, modernism, contemporary writing, and critical and cultural theory.

Employability

Our courses all offer the opportunity to complete work placements and internships, enabling you to further develop your professional skills and enhance your employability. Employers value the skills of communication and collaboration, critical thinking, research and presentation developed by English graduates, and you could go on to work in a wide range of careers including professional and/or creative writing, teaching, journalism, publishing and arts management.

Foundation pathway

We offer Foundations as a route onto some of our undergraduate programmes. For module information and any further details, please visit: westminster.ac.uk/foundation-courses

CREATIVE WRITING AND ENGLISH LANGUAGE BA Honours

Length of course: Three years full-time

UCAS code: QW38

Campus: Central London (see map p192)

Typical offer for September 2018: A Levels – BCC/A*A including English or at least one humanities-related subject; International Baccalaureate – 28 points including a minimum of 5 points in Higher Level English A or 6 points in Higher English B; Pearson BTEC Level 3 Extended National Diploma/National Diploma – DMM in a creative subject /DM with humanities A Level Grade C. We consider applications that reflect a mixture of Level 3 qualifications as long as they are equivalent to our typical offer requirements. If your first language is not English you must have an IELTS of 6.0 overall (or equivalent), with 6.0 in each element or equivalent. A portfolio of creative writing may be required in addition to these academic qualification. See also entry requirements on p185.

This course combines the opportunity to improve your creative writing skills with the development of a thorough knowledge and understanding of the structure, history and usage of the English language. In addition to studying how the language works in its spoken and written forms, and the different kinds of English that exist today, the course provides structured support and guidance in the development of writing skills in various genres (the novel, the short story, poetry, drama and non-fictional writing).

Your knowledge and understanding of English will be enhanced by focusing on its creative possibilities. The course is best suited to those interested in pursuing a career that involves the highly skilled use of language, such as publishing or journalism, professional writing or teaching.

If your first language is not English you must have an IELTS of 6.0 overall (or equivalent), with 6.0 in each element or equivalent. See also entry requirements on p185.

This course considers English literary texts against their background in the history of ideas, the other arts and British culture. It makes the most of our central London location – in the midst of galleries, museums, cinemas and theatres, and the urban landscape – as a resource for studying the social and theoretical issues relating to literature.

The course will be of interest to those whose first language is English and who have some prior experience of literature, as well as international students wishing to complete a degree in the UK. It offers a full and balanced coverage of dramatic, poetic and prose works, including many from outside the usual literary canon, and you will have the opportunity to examine literary and non-literary works of all periods.

For module information and further details, please visit: westminster.ac.uk/english

“The English Literature BA is really flexible, and includes subjects from a lot of different fields. For example, I studied Modernism and Art in my second year, and Psychology in my final year, and it has given me a lot more career options.”

FASHION

The University of Westminster has a world-class reputation for producing highly creative fashion professionals, and our alumni include London Fashion Week designers Roberta Einer, Claire Barrow, Liam Hodges and Ashley Williams; Stuart Vevers, Creative Director of Coach, and former President and Chief Creative Officer of Burberry Christopher Bailey. In February 2018, the University of Westminster became the first university in the world to show a selection of their graduate collections on the official London Fashion Week Schedule (Fashion Design BA Honours).

Teaching and learning

We foster new thinking, new ideas and new possibilities. Taught by active practitioners in a research-intensive environment, you will work alongside students from film, photography, music, art and design, and journalism – a unique hothouse of creative opportunity. 2017 saw the launch of the Westminster Menswear Archive, a collection of over 1,500 menswear garments covering the last 120 years. This exceptional resource allows students, researchers and industry to study examples of menswear design covering military uniforms, industrial garments and the designer outcomes from a technical and functional point of view.

Employability

Most of our courses offer you the opportunity to take a year-long industry placement, and encourage internships throughout your time at Westminster, giving you a competitive edge in the job market and contributing to your professional development. During London Fashion Week our design students work with companies including Alexander McQueen, Tom Ford, Burberry, Celine, Christopher Kane and Stella McCartney.

Our courses have incredibly strong links with the international fashion industry. During their internship year, students undertake placements with international fashion houses which include Balenciaga, Kenzo, Givenchy, Lanvin, Balmain, Chloe, Louis Vuitton, Martin Margiela, Tom Ford, Dior, Marc Jacobs, Alexander Wang and Thom Browne.

Graduates from 2016 are already working for companies including Alexander McQueen, Tom Ford, Mulberry, J.W. Anderson, Loewe, Burberry, Acne, Max Mara, and Norse Projects.

HISTORY

As a history student at the University of Westminster, you will be based in the heart of London's West End. In our teaching on this highly stimulating course, our lecturers make the most of this central location: London regularly becomes our classroom. You will also be able to take advantage of all the opportunities for socialising and relaxation that central London has to offer. With committed staff, unparalleled access to archives and libraries, and distinctive module offerings, you will be supported and challenged throughout your time with us, developing highly valued graduate skills in writing, presentation and independent research.

Teaching and learning

History at Westminster combines lectures, seminars and workshops with field walks, museum visits and archive tours to bring great variety to your learning experience. There are also opportunities to travel to European cities throughout the course. We offer a choice of stimulating modules in social, political, diplomatic, international and cultural history – many of which are unique to Westminster – and research underpins much of our teaching. We encourage you into a community of scholars through teaching that will enthuse and inspire you. A creative and wide-ranging set of assessments helps you to develop as a historian and you will obtain transferable skills that will last you a lifetime.

Employability

Students of history acquire a range of skills highly sought after by employers, including critical and evaluative thinking, information handling, research, and writing. Graduates of the Westminster History degree have used their knowledge and skills in a wide range of careers including policy-making, curatorship, marketing, teaching, central and local government, working in NGOs, journalism and the law. All of our undergraduates also have the opportunity to undertake a work experience or internship module. Former students have held placements at the Imperial War Museum, the London Metropolitan Archives, the National Archives and the Museum of London, among many other institutions.

HISTORY

BA Honours

Length of course: Three years full-time; five years part-time

UCAS code: V100

Campus: Central London (see map p192)

Typical offer for September 2018: A levels – BBC/A*A*; International Baccalaureate – 28 points; Pearson BTEC Level 3 Extended National Diploma/National Diploma – DMM/D*D*. We consider applications that reflect a mixture of Level 3 qualifications as long as they are equivalent to our typical offer requirements. See also entry requirements on p185.

History remains among the most fascinating and best loved of the arts and social science disciplines, and this is an exceptional degree which makes the most of our unique central London location. The course is modern in its focus and allows students to explore Britain and her relationship with Europe, the empire and the wider world. Specialist modules also include topics such as Vichy France, Anglo-German relations, Irish history and the post-civil war USA. We have a strong strand of London history, exploring the social, cultural and economic aspects of London's past since the dawn of the Victorian age, and we also offer modules which explore how this past is remembered, such as in London's museums and public memorials.

Learning both inside and outside the classroom, you will graduate as a well-trained and experienced historian, ready to launch yourself into the world of work, research or further study.

For module information and further details, please visit: westminster.ac.uk/history

“Westminster is one of the best locations in the UK to study, with almost unlimited access to some of the best libraries, archives and museums. The degree was both engaging and enjoyable; one moment you could be debating the impact of the Anti-War Movements in the USA on the Vietnam War and the next you could be on a guided walk in London discussing the Blitz during the Second World War.”

HISTORY AND POLITICS

BA Honours

Length of course: Three years full-time; five years part-time

UCAS code: VL22

Campus: Central London (see map p192)

Typical offer for September 2018: A levels – BBC/A*A*; International Baccalaureate – 28 points; Pearson BTEC Level 3 Extended National Diploma/National Diploma – DMM/D*D*. We consider applications that reflect a mixture of Level 3 qualifications as long as they are equivalent to our typical offer requirements. See also entry requirements on p185.

This course gives you a unique opportunity to study two deeply complementary disciplines, history and politics. Combining these disciplines will equip you with the analytical tools to explore and understand societies both then and now.

Based in the heart of London, this degree makes the most of the city's resources, allowing you truly to interact with the subject matter through field walks, visits and internships. At the same time, we have a global outlook: history modules include a wide range of lectures on Europe, China, Africa, South-east Asia and America, whilst politics modules also have a global focus, including modules on the Middle East, Latin America, Africa, Asia and America.

You will gain a wide range of research, analytical and evaluative skills that are highly sought after by employers in education, government, international organisations, media, marketing, NGOs and all sectors of industry.

For module information and further details, please visit: westminster.ac.uk/history

“My lecturers helped me to be confident when applying for jobs, because they believed in me. I could have gone into finance, banking, marketing or sales, making a lot of money, but that's not what I care about. I care about other people. For this reason I chose an internship with a charity in Peru to help impoverished communities.”

The Digital Media and Communication BA Honours is a communication degree for the 21st century. It is not tied to a particular media industry, but instead recognises the ongoing practical and conceptual convergence between technologies, industries and ways of communicating.

Our graduates are skilled researchers, critical thinkers and creative communicators. You will understand the production, distribution and uses of networked digital media, and will have informed critical perspectives on the social and cultural significance of mediated communication. Taught by established scholars from the world-renowned Communication and Media Research Institute as well as expert practitioners, you will develop high-level skills through academic study, through producing websites to a professional standard, and through devising and conducting an original research project. Many of our graduates build successful careers in the creative industries, but the degree will also enable you to work across a broader range of sectors and professions.

The University’s student-run radio station Smoke Radio won 19 awards at the annual Student Radio Association awards, including one Gold and two Silvers in 2017.

LANGUAGES

Westminster offers an exciting range of opportunities to study European and non-European languages. As a languages student, you will be based in the heart of a vibrant, multicultural city where more than 300 languages are spoken. You will be able to take advantage of our central London location, with its unrivalled range of library, archive and cultural resources, as well as its social diversity.

Teaching and learning

Our courses are taught in small classes, and all of our lecturers are professional linguists or specialists in their academic discipline who have used their language and intercultural skills in the real world. There is a strong focus on applied language skills, and we consider the study of culture integral to language learning; study abroad opportunities are available, as are work placements both in Britain and overseas.

Employability

We aim to train competent linguists in modern languages ready to enter the workplace. You will be able to improve your employability through language-related internships, voluntary opportunities and professional simulations, as well as a module on "Career Competences for Linguists" which all form part of the curriculum. Our graduates find employment as translators, interpreters and teachers, and in other sectors including law, marketing, journalism, the Civil Service, administration, international business and financial services.

Foundation pathway

We offer Foundations as a route onto some of our undergraduate programmes. For module information and any further details, please visit: westminster.ac.uk/foundation-courses

LAW

London is a global hub for law. More than half the world's leading law firms have chosen the capital as their headquarters, and London has the largest concentration of judicial expertise anywhere in the world. Westminster's law teaching takes place in the heart of central London, with easy access to courts, key legal employers and legal institutions. As a leading legal education institution we offer an extremely wide range of practically oriented courses and very strong links to professional organisations.

Teaching and learning

We have an international reputation for research into the legal profession and legal practice, international law and human rights, and commercial and financial law. Our flexible courses are designed to help you develop rapidly into a confident professional and we aim to provide you with a host of opportunities to boost your career and develop your professional and transferable skills. Our teaching and learning methods include lectures, seminar-based discussions, class presentations, invited guest speakers and practical group exercises. At the same time, our extensive network of partner law schools in Europe and beyond offers a variety of opportunities to study abroad during your time with us.

Employability

We have an extremely strong focus on employment, and on supporting you to develop your career. From the outset we concentrate on professional and transferable skills, employability, and personal development planning. You'll also be given a host of opportunities to boost your career and develop your professional and transferable skills such as legal skills workshops, networking sessions, work placements, mooting and more.

Large numbers of our graduates enter the legal profession and enjoy highly successful careers. Our alumni include presidents of the Law Society, judges and QCs, as well as young lawyers or barristers of the year. Many of our Masters and PhD students have chosen careers in international tribunal and commercial institutions or as academics.

Foundation pathway

We offer Foundations as a route onto some of our undergraduate programmes. For module information and any further details, please visit: westminster.ac.uk/foundation-courses

LINGUISTICS

The University of Westminster has a 40-year tradition of linguistics teaching and research. As a linguistics student you will be based in the heart of a vibrant, multicultural city where more than 300 languages are spoken. You will be able to take advantage of our central London location, with its unrivalled range of library, archive and cultural resources, as well as its social diversity.

Teaching and learning

Our student-centred approach is designed to foster confidence in language and communication, promote the ability to analyse and critically evaluate diverse information, and encourage an interdisciplinary ethos to cross-cultural practices. The main learning mode is seminars, which are an interactive and engaging mix of different activities within each session. Seminars are supported by lectures, and by our programme of individualised tutorials. Independent learning is guided by tutors and enabled by extensive digital resources.

Employability

Employers value the strong communication abilities and the precise analytic and research skills of linguistics graduates. Our recent graduates have entered a wide variety of careers, including employment as teachers, translators and interpreters, and in various sectors such as law, marketing, journalism, the Civil Service, administration, international business and financial services.

MARKETING

Located in the heart of the largest European centre for global brands and the creative hub of the world's advertising industry, Westminster Business School is a globally engaged, practice-focused and research-informed provider of higher education in marketing. We are committed to developing the next generation of marketers, industry-ready by the time they graduate.

The School is an accredited study centre for The Institute of Direct and Digital Marketing (IDM) – the UK's only government-approved institute for the professional development of direct and digital marketers – and strong links with the Digital Marketing Institute (DMI) and the Chartered Institute of Marketing (CIM), the world's largest professional marketing association.

Teaching and learning

Based in the heart of London, our marketing courses are continually adapted to match the requirements of professional bodies and the high expectations of the fast-moving marketing industry. Our experienced, multicultural faculty bring a wealth of academic and real-world practitioner expertise to the learning experience. You will hone your capacity for analysing complex marketing and business situations and reaching decisions on appropriate courses of action. You can choose to add even greater value to your course by taking advantage of the opportunity to study overseas for a year at one of our partner institutions, or by completing a work placement in the UK.

Employability

Our marketing courses will prepare you for a variety of careers in marketing, such as digital marketing, marketing management, brand management, PR and sponsorship, product development, not-for-profit roles, or in an agency. All three courses offer you the opportunity to complete an optional work placement between years 2 and 3, to broaden your knowledge and professional experience, develop your practical skills, and enhance your employability. Previous students have taken placements at the Walt Disney Company and iconic UK fashion brands such as Burberry and Stella McCartney, as well as within the University itself, to name just a few. We are proud of our worldwide alumni many of whom now hold prestigious positions in companies and countries around the globe.

Marketing managers are responsible for 'doing the business' of business – deciding what products to sell, to whom, for what price, where, when and how. They work with colleagues from across the company, such as R&D, finance and sales, and with external agencies for product and packaging design, advertising, and PR. Marketing management is considered one of the most stimulating and satisfying sectors, and this course will give you the skills to embark on this rewarding career.

The course is a general undergraduate degree in marketing, for those who see their future career in marketing but do not, at this stage, wish to specialise any further. All of our specialist degrees in marketing have a shared first year which allows you to experience all the main areas in marketing.

MUSIC

Music teaching at the University of Westminster has a sector-leading reputation and links with leading popular music centres around the world. The amazing success of our staff and alumni remains one of the core strengths in our provision of opportunities for our graduates entering this network. We offer some of the best media and music education facilities in Europe including 21 fully equipped rehearsal studios, 13 fully equipped recording studios, a purpose-built venue with video and streaming available, and satellite public performance spaces, two dedicated music labs and an Emerging Media Space. You will work alongside students from art and design, fashion, film, journalism, and photography, in a unique hothouse of creative opportunity. We also offer 'Triple A' training and certification for Avid, Apple and Adobe products for our students.

Teaching and learning

From DJs to record producers, top performers and songwriters to mixers and engineers, to entrepreneurs and thinkers, we attract some of the most talented students, taught by teams of successful musicians, entrepreneurs and audio experts. We offer innovative programmes, designed not only to educate and enhance your natural talent, but also to prepare you for your potential career in the music industry.

Employability

Our graduates don't just succeed in the music industry – they shape it. Our students have become recording artists with major and independent record labels, and performers with high-profile artists. Others have started their own successful businesses or pursued careers in music entertainment law. The University also owns and operates MusicTank (musictank.co.uk), the business development network for the UK music industry, to which students receive free membership and access to information.

NUTRITION

As a nutrition student at the University of Westminster you will gain the specialist scientific knowledge and practical skills you need to meet your future career challenges. You will benefit from some of the best teaching and facilities available, with more than £30 million invested in creating cutting-edge facilities and resources.

Teaching and learning

Nutrition explores the evidence base relating to the relationship between diet, physical activity and health, and the role that interventions can have in promoting health and treating disease. Teaching makes use of our state-of-the-art facilities such as the BodPod, VO₂ max and specialist nutrition labs. Your studies will also be enhanced by the high calibre of our teaching staff.

Employability

Our recently updated Human Nutrition BSc Honours is accredited by the Association for Nutrition (AfN) and graduates from this course are eligible to join the Register as an Associate Nutritionist. The AfN recognises the high standards of training offered on our accredited courses. The Associate Nutritionist (ANutr) designation is designed to help you make a rapid transition to full registration, normally after a period of three years, and develop a career in nutritional science.

Our graduates in this exciting field gain employment as nutrition advisors, sports nutritionists, teachers and researchers.

HUMAN NUTRITION

BSc Honours

Length of course: Three years full-time

UCAS code: B401

Campus: Central London (see map p192)

Typical offer for September 2018: A Levels – BBC to include two science subjects, including one from Chemistry and Biology, and one from Chemistry, Biology, Maths, Physics and Psychology; International Baccalaureate – 26 points to include a minimum of 4 in two Higher Level science subjects; Pearson BTEC Level 3 Extended National Diploma/National Diploma – DMM/D*D* in Applied Science. We consider applications that reflect a mixture of Level 3 qualifications as long as they are equivalent to our typical offer requirements and include the science requirements. See also entry requirements on p185.

Public and media interest in what we eat has never been greater. Human nutrition integrates knowledge from diverse areas of science to present a unified view of this dynamic discipline and its applications. You will examine how nutrients and eating patterns impact on health and well-being, and the role of diet in both health and disease.

We have well-equipped laboratories in all bioscience disciplines including a suite of biochemical test facilities for nutritional analysis, whole-body metabolism and determination of body composition. In Years 2 and 3, you can choose to follow a theme focusing on human nutrition, or can select the theme of human nutrition with exercise science, which focuses on the role that exercise and nutrition play in all aspects of human health and disease.

For module information and further details, please visit: westminster.ac.uk/nutrition

The course is accredited by the Association for Nutrition (AfN).

“The course covers a variety of topics, and there are many inspiring visits from guest lecturers. All of the lecturers at Westminster are so supportive, approachable, and enthusiastic, and this enthusiasm is contagious, which makes staying motivated effortless.”

PHOTOGRAPHY

Photography education at the University of Westminster has a tradition dating back to 1839, and the world's first photography degree was delivered at our predecessor, the Regent Street Polytechnic. Our courses have always reflected and influenced the state of the art. The Photography Centre offers six large, newly upgraded and professionally equipped studios with top of the range Profoto lighting and Phase One digital camera systems, industry-standard post-production and digital print facilities. We support full analogue workflow with black and white and colour darkrooms and colour film processing service. We also specialise in alternative processes (salt print, cyanotype, wet plate, photogravure) and offer professional standard print finishing and mounting facilities. You will have access to an enormous selection of photographic equipment from our stores including all formats of analogue and digital cameras and accessories, portable flash lighting and wide range of specialist equipment.

Teaching and learning

You will be taught and supported by world leading academics, practitioners and highly experienced technical staff. You will have opportunities to collaborate with artists, journalists, fashion designers, filmmakers, illustrators and musicians. We make use of the rich resources in central London with regular visits to galleries, studios, production houses and archives.

Employability

Throughout the course you will be encouraged and supported in developing your professional practice – through portfolio and website development, external opportunities such as work placements and public exhibitions and freelance business practice. You will be exposed to a rich mix of visiting professionals from across the world of photography (artists, photographers, curators, writers and entrepreneurs).

Our graduates develop careers as photographers in the fine art, editorial and commercial sectors, as magazine and picture editors, writers, curators, archivists, advertising creatives and arts administrators and many go on to pursue further studies at MA and PhD level at world leading institutions.

POLITICS, INTERNATIONAL RELATIONS & DEVELOPMENT

The University of Westminster is recognised internationally for its innovative teaching and research in politics, international relations and development. The student experience is at the heart of everything we do. We are in the centre of one of the world's greatest cities and we use this vibrant, multicultural setting to ensure that our students discover innovative solutions to the problems facing our world. We also host the world-renowned Centre for the Study of Democracy (westminster.ac.uk/csd).

Teaching and learning

We value innovation in learning and excellence in teaching. You will be taught by some of the leading thinkers in the field, who are committed to sharing their knowledge with you. Our non-hierarchical learning culture makes us a refreshing choice for studies in politics, international relations and development. We believe that learning is enhanced through engagement with ideas and issues beyond the classroom: we therefore offer a lively programme of seminars, talks and workshops involving academics, activists, policy makers and thinkers from different parts of the world.

Employability

Our curriculum builds skills for employability into your learning. Our accredited internship programme will give you an opportunity to gain valuable work experience, improve your career prospects and build relationships with employers. Our students have carried out their internships at institutions and organisations like the Houses of Parliament, the London Assembly, the European Commission, the British Red Cross, the Institute of Economic Affairs and many more. We also organise regular events that bring together students and potential employers.

INTERNATIONAL RELATIONS AND DEVELOPMENT BA Honours

Length of course: Three years full-time

UCAS code: LL12

Campus: Central London (see map p192)

Typical offer for September 2018: A levels – BBC/A*A*; International Baccalaureate – 28 points; Pearson BTEC Level 3 Extended National Diploma/National Diploma – DMM/D*D*. We consider applications that reflect a mixture of Level 3 qualifications as long as they are equivalent to our typical offer requirements. See also entry requirements on p185.

Our International Relations and Development BA Honours gives you an understanding of the global dimensions of world politics and how these are linked to economic, social and political change. It focuses on international development and the challenges associated with political and economic change in the international system. It enables you to explore questions of poverty, inequality and under-development. We consider the relationships between the global north and south and ask difficult questions about the nature of justice in international relations and global economy.

We examine different regions, cultures and territories, and consider the impact that key political, economic and social policies have had for individual states and societies and in different parts of the world, including Africa, Asia, the Middle East, China, India and Latin America. The course provides a theoretical framework for understanding the international distribution of power at the global, regional and national levels.

For module information and further details, please visit: westminster.ac.uk/politics-and-international-relations

“Not everything I learnt happened in the seminar room. Field trip destinations included Istanbul, Brussels and Tashkent in Uzbekistan. I experienced how issues that affect my generation are being perceived in a completely different way by others, making me more open to understand other people’s perspectives.”

INTERNATIONAL RELATIONS BA Honours

Length of course: Three years full-time

UCAS code: L250

Campus: Central London (see map p192)

Typical offer for September 2018: A levels – BBC/A*A*; International Baccalaureate – 28 points; Pearson BTEC Level 3 Extended National Diploma/National Diploma – DMM/D*D*. We consider applications that reflect a mixture of Level 3 qualifications as long as they are equivalent to our typical offer requirements. See also entry requirements on p185.

The International Relations BA Honours gives you a rich understanding of the evolution of the international system and how we understand the structure of world politics through the state, political identities and territorial claims. We ask students to critically engage with the geopolitical dimensions of contemporary politics and examine the history of world politics through different social, political and economic perspectives.

This course provides a theoretical framework for understanding the international system and the distribution of power at global, regional and national levels. You will examine patterns of global governance, consider the just use of force within international politics and examine the security practices of states against the backdrop of the ‘war on terror’.

You will focus particularly on the changing dynamics of international security, political violence and the ethics of global order. Our graduates understand the world in which we live because they are able to reflect on the structures, processes and global powers within the international system.

For module information and further details, please visit: westminster.ac.uk/politics-and-international-relations

“The large variety of modules offered, which ranged from international security to developmental studies, truly enriched my studying experience. What is really unique at Westminster is how many students from different cultural and educational backgrounds study here: this is a highly multicultural environment.”

POLITICS AND INTERNATIONAL RELATIONS BA Honours

Length of course: Three years full-time; five years part-time

UCAS code: L290

Campus: Central London (see map p192)

Typical offer for September 2018: A levels – BBC/A*A*; International Baccalaureate – 28 points; Pearson BTEC Level 3 Extended National Diploma/National Diploma – DMM/D*D*. We consider applications that reflect a mixture of Level 3 qualifications as long as they are equivalent to our typical offer requirements. See also entry requirements on p185.

The Politics and International Relations BA Honours provides an integrated approach to the study of power in comparative and international politics: who, what, when and how?

We seek to understand the comparative dimensions of politics at the local, regional, national and global level. You will engage with the philosophical, theoretical, institutional and issue-based concerns relating to governance in world politics.

You will be encouraged to think about practices of states and citizens as they confront the future global challenges in terms of environmental security, identity politics, patterns of conflict and co-operation between states, and the dynamism of the political transformation in different regions of the Western as well as postcolonial world. You will develop specialist knowledge of important political actors and emerging trends in global politics, along with critical and analytical skills in the understanding of social, economic and political problems.

For module information and further details, please visit: westminster.ac.uk/politics-and-international-relations

“With students from more than 100 countries and lecturers working on various issues of the global arena, the University of Westminster prepared me accurately for a global career. We consider applications that reflect a mixture of Level 3 qualifications as long as they are equivalent to our typical offer requirements. See also entry requirements on p185.

In our Politics BA Honours you will explore the relationship between government and society in regions across the world, and develop an understanding of different political systems, institutions and modes of governance and decision making. You will be introduced to political theories and ideas, which will help you to analyse and think critically about political events and topical debates.

The course offers a wide range of modules, building on the expertise and research interests of our academic staff. It provides particular focus on the study of democracy, power, political violence, political identity, citizenship and political culture. It also embeds the study of politics in a wider context by providing a foundation in international relations and development studies.

Taking advantage of our central London location, we offer visits to the Houses of Parliament, the UK Office of the European Parliament, museums and other institutions of political interest, as well as inviting distinguished external speakers to the university.

For module information and further details, please visit: westminster.ac.uk/politics-and-international-relations

“The Politics BA at Westminster prepares you not only for your success at university, but for the real world, too. Employers want to see your experience in how things really work; this course is built with that in mind, giving you the right foundation for a career in politics.”

PROPERTY & CONSTRUCTION

The University of Westminster is one of the largest providers of built environment education in the country, educating more than 2,000 students at our recently refurbished campus in central London. Westminster offers education in all the disciplines which link the design and development of our cities – from construction to tourism, property to urban design, architecture to transport, housing to planning. You will be given the opportunity for co-operative working across normal professional boundaries and specialisations, which will equip you to undertake the challenges of the working environment.

Teaching and learning

All our courses are delivered using an enquiry-based learning approach involving workshops, lectures, tutorials and independent study, blended with online resources. You will benefit from our central London location as well as the strong connections and regular contact with professional bodies, and leading practitioners involved in the delivery of our courses. You will also benefit from cutting-edge facilities, and expanded and refurbished studios and workshops. These include the Fabrication Laboratory, launched in 2015, offering advanced digital making facilities which enable processes such as ABS and plaster 3D printing, CNC knife cutting, large-scale CNC routing, CNC metal milling and robot fabrication.

Employability

We have a long association and work closely with the main professional bodies, including the Royal Institution of Chartered Surveyors (RICS), the Chartered Institute of Building (CIOB), and the Chartered Association of Building Engineers (CABE). Our property and construction courses have a professional focus; when you graduate will be able to handle the technological, managerial and market processes associated with the production, post-construction and asset management of buildings.

Our lecturers have worked on buildings including **Heathrow Terminal 2** and the **London 2012 Olympic Equestrian venue**

BUILDING SURVEYING

BSc Honours

Length of course: Three years full-time; five years part-time

UCAS code: K230

Campus: Central London (see map p192)

Typical offer for September 2018: A Levels – BBC; International Baccalaureate – 28 points; Pearson BTEC Level 3 Extended National Diploma – DMM. See also entry requirements on p185.

Building surveying is a dynamic professional discipline which focuses on the development, management, conservation, refurbishment and maintenance of buildings. In practice the nature of the work may range from the design of large, multi-million-pound structures to modest adaptations and repairs, being called upon to give evidence in court in cases where building regulations have been breached, and as expert witnesses on building defects and dilapidations, or working on preventative measures to keep buildings in good condition and investigate ways to make buildings sustainable.

This course will provide you with the key skills you need as a building surveyor. You will gain a thorough understanding of building design, construction technology, building pathology, the law of contract and contract management, and learn a range of skills, including how to perform surveys, convert and adapt buildings, identify and remedy building defects, and interpret building dilapidations.

For module information and further details, please visit: westminster.ac.uk/property-and-construction

“What sets Westminster apart is the dedicated and supportive teaching staff, who bring their extensive industry experience and first-hand knowledge of the field.”

CONSTRUCTION MANAGEMENT

BSc Honours

Length of course: Three years full-time; five years part-time

UCAS code: K220

Campus: Central London (see map p192)

Typical offer for September 2018: A Levels – BBC; International Baccalaureate – 28 points; Pearson BTEC Level 3 Extended National Diploma – DMM. See also entry requirements on p185.

Construction management is an established discipline managing the production of construction work including new build, refurbishment, maintenance and design information. Construction managers have specialist skills and knowledge in domestic, industrial and commercial building, construction processes, planning, project life-cycle assessment, and people and business management.

In addition to the core themes of management and technology, the role requires a range of management skills including team working and effective communication. Gaining these skills is integrated into the learning strategies of this course, giving you the potential to become a construction manager or to follow a career in project management.

For module information and further details, please visit: westminster.ac.uk/property-and-construction

“All the day-to-day decisions I am making in my job are coming from the knowledge I have learnt from the Construction Management course, like programming, construction activities and so on.”

PROPERTY AND PLANNING

BSc Honours

Length of course: Three years full-time; five years part-time

UCAS code: KK24

Campus: Central London (see map p192)

Typical offer for September 2018: A Levels – BBC; International Baccalaureate – 28 points; Pearson BTEC Level 3 Extended National Diploma – DMM. See also entry requirements on p185.

Property and planning are dynamic and stimulating professions offering variety, travel, networking opportunities and high-earning potential. The work has a huge impact – every organisation and every person requires somewhere to work and somewhere to live.

This course gives you a detailed understanding of the nature and philosophy of town planning and the planning process, focusing on sustainable development, urban regeneration and the environment. Your learning in these areas will be complemented by other aspects of property and development including valuing, developing, and investing in property markets.

As property and planning are not taught at school, students come to us from a wide variety of A Levels and equivalent qualifications. The most important requirements are an analytical mind and a clear motivation towards the course.

For module information and further details, please visit: westminster.ac.uk/property-and-construction

QUANTITY SURVEYING AND COMMERCIAL MANAGEMENT BSc Honours

Length of course: Three years full-time; five years part-time

UCAS code: KN22

Campus: Central London (see map p192)

Typical offer for September 2018: A Levels – BBC; International Baccalaureate – 28 points; Pearson BTEC Level 3 Extended National Diploma – DMM. See also entry requirements on p185.

Operating in all sectors of the built environment, quantity surveyors and commercial managers are primarily concerned with the value and financial management of construction projects and the subsequent building life cycle.

Quantity surveyors provide clients with detailed information on which to base decisions and are valued for their creative ideas and solutions. They add value by monitoring the functions of cost, time and quality in projects of any scale. The commercial manager's role requires excellent business sense and a good understanding of management and construction processes. They assess the value of work to be done and manage and monitor costs as the project progresses. This course gives you the skills and knowledge to take up these roles.

For module information and further details, please visit: westminster.ac.uk/property-and-construction

“The experience and guidance I got at Westminster helped me to understand various aspects of project management and procurement, and equipped me to carry out my duties as a construction professional today.”

REAL ESTATE BSc Honours

Length of course: Three years full-time; five years part-time

UCAS code: N230

Campus: Central London (see map p192)

Typical offer for September 2018: A Levels – BBC; International Baccalaureate – 28 points; Pearson BTEC Level 3 Extended National Diploma – DMM. See also entry requirements on p185.

Real estate is a dynamic profession; every company and every person requires somewhere to work and somewhere to live. A good understanding of property is essential for every business.

This practical course, which has a high employment rate, is based on the RICS pathways and gives you a thorough understanding of all aspects of both commercial and residential real estate including buying and selling, valuing, developing, planning, managing, and investing in various property markets.

Many of our lecturers are chartered surveyors who have held senior appointments in business, and many are practising part-time. As we are based in London we are also perfectly placed to invite directors of leading property firms to deliver guest lectures and arrange various site visits.

For module information and further details, please visit: westminster.ac.uk/property-and-construction

“My course at Westminster was a good mix of theoretical and practical study. I got a good theoretical grounding in my chosen field of work, while the practical side of the course has proven invaluable in the workplace. The skills that I picked up have been put straight to use in my day-to-day work life and have given me a strong advantage over other new starters.”

PSYCHOLOGY

Psychology at Westminster has a vibrant culture of research which is distinctive for its openness, collaboration and interdisciplinarity. As a psychology student you will be based in the heart of London; you will benefit from our central location with its unrivalled range of library, archive and cultural resources, as well as its social diversity. You will also be able to take advantage of our excellent teaching, learning and technical facilities, including laboratories, observation facilities, computer-based teaching laboratories, research cubicles, and a workshop and resource centre.

Teaching and learning

We believe strongly in maintaining close links between our research and teaching, which means that you will be taught by international experts in psychology – active researchers who are passionate about their subject and staff who have won prestigious awards for their teaching. As a student, you'll have the option of taking modules that cover the full breadth of psychology and that offer you a unique learning experience. We also provide an optional work placement year, giving you the opportunity to gain workplace experience in a psychology or cognitive and clinical psychology-related setting in the UK or abroad. Students who successfully complete the work placement year will graduate with a Psychology BSc with Professional Placement or Cognitive and Clinical Neuroscience BSc with Professional Placement. We encourage our students to study abroad and students can choose to spend a year at one of the university's partner institutions. Students who take this study abroad option will graduate with a Psychology BSc with International Study or Cognitive and Clinical Neuroscience BSc with International Study.

Employability

Our graduates have taken up careers in business psychology, clinical psychology, counselling, forensic psychology and health psychology. Many use their skills in related professions including education, healthcare, human resources, market research, public relations and social work. Additionally, a significant proportion of our graduates use their BSc as a platform to earn Masters and Doctorate degrees en route to pursuing their career of choice.

This exciting interdisciplinary degree considers how the structure and function of the brain gives rise to mental processes. The Cognitive and Clinical Neuroscience BSc Honours blends experimental, applied and theoretical aspects of psychology with neuroscience, and draws from physiological psychology, comparative psychology, cognitive psychology, clinical neuropsychology and psychopharmacology.

Delivered by a passionate and research-active faculty, this unique course places a particular focus on brain-behaviour relationships, bringing together evidence from molecular and cellular neuroscience, brain injury and neurological illness investigations, and evolutionary and developmental cognition studies. It explores a wide range of research-based and clinically relevant methodologies including brain imaging, computational modelling and behavioural cognition. During the degree, you will consider all aspects of cognitive functioning, from perception, attention, learning and memory through to concepts such as communication systems, intelligence and consciousness.

Towards the end of the second year students can choose to take a work placement or study abroad year leading either to a Cognitive and Clinical Neuroscience BSc with Professional Placement or a Cognitive and Clinical Neuroscience BSc with International Study.

SOCIOLOGY

Sociology at the University of Westminster is a dynamic and contemporary subject, taught in a stimulating and international learning environment. Staff are dedicated, supportive and passionate about high-quality teaching and research and this is reflected in our consistently excellent student satisfaction ratings in the National Student Survey. The sociology courses offer an exceptional range of option modules that allow you to explore and develop specialist interests and to cultivate highly valued graduate skills in writing, thinking, presentation and communication.

Teaching and learning

Our sociology courses take London, with its ever-changing cultures, institutions and people, as an inspiration and subject for your study. Whether it is the workings of the Old Bailey and the BBC, the origins of street art, or patterns of migration to the East End, we provide you with the tools to conduct your own hands-on social research in one of the most exciting cities in the world. You will be taught by active researchers who are committed to challenging social injustice and whose innovative books and articles are helping to set the global sociological agenda. Our friendly and supportive teaching team will provide you with first-class training in critical thought and data analysis. Modules offer a range of specialist topics with a variety of assessment formats to suit different learning styles. You will also have the opportunity to study abroad for a semester during your studies.

Employability

All sociology students have the opportunity to do a credit-bearing work experience module, allowing you to put into practice the personal and professional skills developed in your studies. Our students graduate with the knowledge and expertise that gives them a competitive advantage in a wide range of graduate careers, including in the charitable and NGO sector, education, government, journalism and media, management, social and youth work, and academic research. The combined degree in Sociology and Criminology enables you to be sufficiently specialised in criminology to enter professions connected to the criminal justice system, but also benefit from the broader careers available to sociologists.

SOCIOLOGY BA Honours

Length of course: Three years full-time; four years part-time

UCAS code: L300

Campus: Central London (see map p192)

Typical offer for September 2018: A levels – BBC/A*A*; International Baccalaureate – 28 points; Pearson BTEC Level 3 Extended National Diploma/National Diploma – DMM/D*D*. We consider applications that reflect a mixture of Level 3 qualifications as long as they are equivalent to our typical offer requirements. See also entry requirements on p185.

Studying Sociology at Westminster means never thinking about society in the same way again. Whether it is understanding how we define ourselves through consumption, examining changing gender identities or considering religion's role in secular society, the nature of social structures and their impact on people's everyday lives is central to the course. We consider questions of how power is exercised and normalised at all levels of society, from the state to the family to individual emotions. Through your studies you will gain a sensitive understanding of diversity as well as a keen self-awareness and ability to make sense of your own place in society.

The course starts with a broad introduction to social theory and contemporary sociological debates. In the second and third years you will develop your theoretical knowledge and expertise in research and choose option modules from the range of specialist topics available.

We consider applications that reflect a mixture of Level 3 qualifications as long as they are equivalent to our typical offer requirements. See also entry requirements on p185.

Immigration, human trafficking, social injustice and youth unemployment are concerns that make headline news almost daily. If you want to understand what's behind the headlines – why migration may be linked to global inequalities, or why crime statistics cannot simply be treated as 'facts' – then the Sociology and Criminology BA Honours will allow you a unique insight into these central social issues. Combined, these two disciplines answer questions about the many ways in which society and crime shape and influence each other.

Each year you will take core modules that provide you with the key concepts and theories in each of your disciplines, as well as dedicated combined-discipline modules. Your other modules are chosen from the wide range of options. Subjects include the psychology of crime, youth culture, leisure in London and everything in-between.

TELEVISION, FILM & MOVING IMAGE

London is the media capital of Europe and provides a unique bridge to the rest of the world's media hubs including Cannes, Hollywood, Mumbai and Seoul. Our television, film and moving image courses, with our contacts and connections, can bring you closer to the heartbeat of this vibrant and creative city. Our students have won many awards in recent years, including the Best Student Short at Dub Web Fest 2017 in Dublin, Best Film School award at the International Student Festival VGIK 2016 in Moscow, and a Commendation from The Royal Television Society in London in 2017. We are a world leader in media, arts and design research, and are rated in the top five in the UK. Our documentary research department was responsible for the BAFTA-winning feature documentary *The Act of Killing*.

Teaching and learning

With full-size, purpose-built studios, a set construction workshop and professional film, television, sound and editing facilities, we can offer you an ideal environment to prepare for professional life. Our teaching team consists of leading lecturers and practitioners. Industry-leading visiting professionals – including producers, screenwriters, directors, cinematographers, editors, production designers, sound mixers and production managers – also collaborate with and inspire our students.

Employability

Our graduates go on to forge impressive and successful careers within global media industries. These include Contemporary Media Practice BA alumnus Aqil Ahmed (Head of Religion and Ethics at the BBC 2009-2017), Film BA alumnus Seamus McGarvey (winner of the 2017 IMAGO Award for *Nocturnal Animals*), and Television Production BA alumnus Charlie Booker (writer and creator of Channel 4's *Black Mirror*). Recent graduates have secured roles with the BBC and ITV and have worked on films such as *Justice League*, *Paddington 2* and *Mission: Impossible 6*.

CONTEMPORARY MEDIA PRACTICE BA Honours

Length of course: Three years full-time

UCAS code: W900

Campus: Harrow (see map p192)

Typical offer for September 2018: A Levels – CCC; International Baccalaureate – 28 points; Pearson BTEC Level 3 Extended National Diploma – MMM. Applicants should have a portfolio of practical work to bring to interview. See also entry requirements on p185.

This unique course is built on our long tradition of teaching interdisciplinary media practice across moving image, photography and interactive media. Our approach combines the creative exploration of art school traditions with academic and professional excellence. We have extensive industry-level facilities and equipment, and to develop your skills and knowledge we use a variety of assessment methods including practical projects, presentations, written work, research tasks and portfolios.

The course sets high standards for professional achievement in creative practice and specific media industry roles, preparing you for the challenge of a multi-skilled portfolio career. Our graduates include Aaqil Ahmed (former Head of Religion and Ethics at the BBC), Ori Gersht (artist, filmmaker and photographer) and Martha Fiennes (director and artist). Recent graduate successes include Kit Dafoe, whose short film *In the Flesh* (2016) was screened at the Cannes Film Festival, and Rebecca Graham, whose film *Mockingbird* (2017) won the award for Best Student Short Film at Dub Web Fest 2017.

FILM BA Honours

Length of course: Three years full-time

UCAS code: W620

Campus: Harrow (see map p192)

Typical offer for September 2018: A Levels – ABB; International Baccalaureate – 34 points (minimum); Pearson BTEC Level 3 Extended National Diploma – DDD. If English is not your first language, you may need an IELTS of at least 6.5 overall (or equivalent), with 6.0 in writing. See also entry requirements on p185. Please note: we do not accept applications for deferred entry.

Selection for the course is highly competitive. You are considered for interview on your grades (predicted or achieved), your responses to a questionnaire, and the portfolio of relevant work you can bring to your interview; this could include film or video work, photographs, artwork, scripts or creative writing. We are looking for self-motivated students who will work well in a team and individually.

This is one of the best-known film courses in the world, with an international reputation for its academic and practical teaching, and the excellence of its studios and technical provision.

The environment is academic and practical, scholarly and creative, and all students study film history, criticism and aesthetics alongside their practical work. You will learn to collaborate creatively in areas such as screenwriting, producing, cinematography, directing, production design, editing and sound, working on both film and top-end digital, in industry-size production teams.

Our students' films are shown at festivals internationally, and recent awards include a Student Oscar, a Grierson and best short at the Atlanta International Film Festival. Graduates won a BAFTA and an Oscar in 2017: Babak Anvari for *Under the Shadow* (BAFTA for best debut feature) and Kristof Deak for *Sing* (Oscar for Best Live Action Short). In recent years film graduates have been nominated for nearly 40 BAFTAs, winning 10.

We aim to develop thinking film-makers who have something to say to, and about the world. Recent work from alumni includes the BAFTA and OSCAR winning *Senna* and *Amy* (Asif Kapadia, director), and *Skyfall* and *Bond 25* (Neal Purvis, screenwriter).

The course receives substantial support from the industry and you will gain experience of working with professional actors, facilities and equipment hire companies.

See also entry requirements on p185.

This is a practice-based course taught by broadcast industry professionals, combining critical analysis with hands-on practical skills, and focusing on how television programmes are conceived, produced, commissioned and distributed in a digital broadcast and multi-platform environment. Students work across a digital work flow supporting single camera and multi-camera studio production modes, and produce programmes across all genres – from documentary and drama series to TV commercials and entertainment shows – in our multi-camera studios.

Practical skills in editing, camera operations, sound recording, lighting and graphics are underpinned by critical analysis of television programmes and the fast-changing, globalised broadcast and digital media industries. Our students have won numerous Royal Television Society (RTS) awards, and our graduates have gone on to work at all the major terrestrial, digital and satellite broadcasters as well as major film and television independent production companies. Recent graduate Ross Boladai won the 2016 C4 First Cut award of £100,000, and Jennifer Sheridan won the Virgin Media Shorts prize with *Rocket*, earning a £30,000 bursary to make her first short feature, *Acoustic Kitty* (2015). Oliver Gardiner is a director on *Good Morning Britain* and Lewis Wright is a director on *This Morning*; Mark Cobbis is the cinematographer on *Firecracker* (2016).

In 2017 our students made documentary films in Ukraine, Italy, Israel, Namibia and The Faroe Isles. The year before in Iran, Jordan, Germany, Scotland and Kurdistan as well as across the UK. We seed fund all these projects.

TOURISM & EVENTS

With almost 25 years' experience of tourism education and research, the University of Westminster is consistently ranked as one of the best universities for teaching quality and research in this area. When studying at Westminster, you will develop the skills necessary to successfully plan and manage tourism and event experiences in the private, public and third sector from the perspective of destinations and venues, local authorities, corporate businesses and not-for-profit organisations.

Westminster is one of the few universities in the UK to bring together all the disciplines that inform the design and development of our cities. From tourism to sustainable development, architecture to transport, events to urban design, housing to planning, all are central to our urban futures.

Teaching and learning

Teaching and learning takes place in a number of ways, including lectures, seminars, tutorials, private study, individual and group project work. We strongly believe field trips can make a huge contribution to student learning and we take full advantage of our superb location to visit central London hotels, event venues, visitor attractions and cultural sites. You will have the opportunity to undertake a residential field trip each academic year, ranging from historic UK cities and seaside resorts to Mediterranean islands.

Employability

The employability of our students is vitally important; we actively encourage and support you in enhancing your career potential and embed experiential learning opportunities throughout the course. Our lecturers bring to the classroom a variety of industry experience in tourism and events thanks to a network of local, national and international connections. Our graduates progress into a wide range of employment throughout the world, in small businesses as well as large public sector organisations and multinationals, including national tourism organisations, airlines, tour operators, heritage organisations, conference and convention bureaux, event agencies, and event venues.

TOURISM AND EVENTS MANAGEMENT BA Honours

Length of course: Three years full-time

UCAS code: N890

Campus: Central London (see map p192)

Typical offer for September 2018: A Levels – BBB; International Baccalaureate – 28 points; Pearson BTEC Level 3 Extended National Diploma – DDM. See also entry requirements on p185.

This course is designed for students who have an interest in the tourism sector generally and are keen to focus on the dynamic field of events management. The course is structured to provide a combination of the practical elements of events management with an in-depth understanding of the influence of events on businesses and society, and their role in developing destination product and destination image.

The course takes an international perspective and includes a field trip in each year of study. Its modular structure, comprising core (mandatory) modules and option modules, allows you to specialise and create your own course pathways. The modular system also includes the opportunity to learn a language throughout the course.

For module information and further details, please visit: westminster.ac.uk/tourism-and-events

“The lecturers are always friendly and ready to help you in any way they can. I would say the highlight of my course would be the trips you get to do every year, as well as the fact that in the third year I got to create, run and manage my own event!”

Tourism is a major component of the global economy and has now become an established academic discipline, with roots in geography, economics, sociology, planning and business.

Located in the heart of London, we offer an unrivalled and stimulating environment in which to study tourism. This course explores the relationship between tourism and the wider environment, developing the skills you need to successfully evaluate and manage tourism in host destinations. It focuses on destinations – the planning, development and regeneration of destinations, the role of government policy, and the contribution of tourism to the built environment. The course is accredited by the Tourism Management Institute (TMI), the professional association for destination management in the UK.

For module information and further details, please visit: westminster.ac.uk/tourism-and-events

“The course offered me a wide range of modules which covered the whole tourism industry: from heritage and culture to event planning, from airport management to sporting events tourism, and the choice of studying a new foreign language (I studied Spanish for all three years).”

TOURISM WITH BUSINESS BA Honours

Length of course: Three years full-time

UCAS code: NN18

Campus: Central London (see map p192)

Typical offer for September 2018: A Levels – BBB; International Baccalaureate – 28 points; Pearson BTEC Level 3 Extended National Diploma – DDM. See also entry requirements on p185.

This course is designed for those wishing to enhance their business skills, while learning about the dynamics of the tourism industry, one of the world’s most entrepreneurial and sustainable economic sectors. We are seeking students who have demonstrated ability, potential and self-motivation, and who have a genuine interest in learning about the tourism industry and the challenges of this fascinating sector.

The course focuses on the business of tourism – its role in post-industrial economies, the business inter-relationships between destinations, modes of travel, hotels and visitor attractions, and the crucial role of marketing and management in successful tourism enterprises. It will enable you to develop your business management acumen and explore key themes such as information and management systems, financial analysis, and marketing.

For module information and further details, please visit: westminster.ac.uk/tourism-and-events

“This was such a stimulating course, with practical experience in how the tourism industry works. The transferable skills help you understand what you will be doing in the workplace before you even start working. The teachers are outstanding and really passionate about tourism and everything they teach.”

ACADEMIC ENGLISH MODULES & PRE-SESSIONAL ENGLISH COURSES

The University of Westminster offers a number of Academic English modules which you can take as part of your studies in the first or second year of your course (as a free-choice module) depending on eligibility.

If you are an international student, you can register on one of our pre-sessional English Language courses which will help you develop the language and study skills you need for academic success on a full-time undergraduate course.

Our Academic English modules and pre-sessional English Language courses will develop:

- your understanding of what is required on your future degree course
- the accuracy of your English, including academic language
- your range of academic vocabulary, with a focus on collocation and word families
- your ability to apply academic language across a variety of text types in your research
- your essay and report-writing skills through ongoing practice
- effective strategies for reading academic books, journal articles and case studies
- the listening and note-taking skills necessary to benefit from university lectures
- your ability and confidence to participate in group discussions and seminars on academic topics
- your presentation skills, including pronunciation, stress and intonation
- your confidence in being able to follow university-level courses in English.

ACADEMIC ENGLISH

Our credited Academic English modules have been designed to allow you to consolidate, extend and develop your proficiency in Academic English. During orientation week members of the Academic English Team will give a short presentation to explain the

importance of Academic English and the rationale for the modules offered by the Westminster Professional Language Centre.

Enrolment for Academic English will take place during orientation week and learning week one. Exact dates and time-slots will be published in early September. During enrolment we can determine whether an Academic English module is appropriate for you. You can find more information online, at westminster.ac.uk/academic-english

PRE-SESSIONAL ENGLISH

Our pre-sessional English courses at the University of Westminster will enable you to develop the language and study skills necessary to meet the demands of your academic course in an independent and responsible manner. You will also experience student life through our social and welcome programmes. Our aim is to provide you with a solid foundation for when you start your degree course, and to give you the skills, knowledge and experience to make the most of your time at university. The course materials and assessments will also have a disciplinary focus, as a further means of preparing you for your future degree.

As a full-time pre-sessional student you will also be expected to do homework which will lead to formal assessments at the end of the course. In addition, you will have access to the University's extensive facilities, including libraries, computers and the fitness suites.

You can find more information online, at westminster.ac.uk/pre-sessional

GAINING NEW SKILLS

LEARNING A FOREIGN LANGUAGE WILL MAKE YOU MORE EMPLOYABLE

You can study a foreign language with Polylang, the University of Westminster open language programme, as part of or alongside your degree.

Studying a foreign language will benefit you personally, professionally and financially. You will gain insights into other cultures and enhance your communication skills. Speaking a foreign language will make you more employable.

Polylang was established in 1991. With about 1,300 students on the programme every year, it is one of the largest and most established language programmes of its kind in the UK.

As an undergraduate student, you can join Polylang without any additional cost whenever your course allows you to take an elective module. We offer tuition in the following languages:

- Arabic
- Chinese
- French
- German
- Italian
- Japanese
- Russian
- Spanish.

You can start a new language as a complete beginner or you can continue with a language you already have some knowledge of. All languages are graded at five levels, from beginners to advanced*.

HOW THE MODULES WORK:

- all modules carry credits and can potentially count towards your degree classification
- most languages and grades are offered at different times on different days to maximise the chances of fitting with your timetable
- teaching takes place in an atmosphere that is enjoyable and interactive
- online materials support your learning and help you make rapid progress.

If your course structure does not allow you to choose Polylang, you may still be able to take a language module. However, you will need to pay an additional fee. For further information, including how to register for a Polylang module, please visit westminster.ac.uk/polylang

Polylang is offered as a University of Westminster elective module.

WHAT OUR STUDENTS SAY

“My Polylang module is the best language course I have ever taken.”

“The material and the teaching were challenging and motivating. I also received constructive feedback and help when I needed it.”

“I loved the lessons. It felt like being in a foreign country for two hours a week.”

“Polylang helped my career prospects and opportunities hugely. After graduation I found a job abroad and used my language skills every day.”

“When I met the father of my Japanese girlfriend for the first time, I was apparently so culturally aware that he thought I was half-Japanese. Thanks Polylang.”

*Please note that in any given academic year, we might not be able to offer all languages at all levels.

WESTMINSTER ELECTIVES: DRIVING YOUR EMPLOYABILITY

Cross-disciplinary modules provide you with opportunities to expand your professional skills and engage with different disciplines within the University. They are also key to helping you realise your graduate potential, giving you more choice in what you study and broadening your educational horizons. Employers are looking for graduates who are highly literate, who are able to think critically about the world, and who can respond creatively to future challenges. The Westminster Electives modules are credit-bearing and are offered across the University to eligible students.

Westminster Electives encourage you to reflect on your academic, professional and global journeys. Some of the opportunities include:

- work-based learning modules
- student project modules
- career and professional modules
- cross-disciplinary modules
- Polylang (language) modules.

Each year the University will update the range of cross-disciplinary modules to ensure that our graduates are some of the most resilient and adaptable in their chosen fields.

Some courses (particularly those where course content is closely aligned to professional accreditation) are ineligible for the cross-disciplinary modules programme. Please note that some elective modules may require you to travel to a campus which differs from where your primary teaching for your course is based.

You can find out more about the range of cross-disciplinary modules offered and check whether your course is part of the Westminster electives programme on the University's website westminster.ac.uk/westminster-electives

Look out for the Westminster Electives symbol on the course pages to see if your course is eligible.

The University of Westminster is recognised by the industry as one of the top media teaching institutions in the UK. A number of our courses are approved by Creative Skillset, the industry training body supporting the creative industries.

The rigorous approval process for our Media, Arts and Design courses shows them to be not only of high quality in their education but also totally relevant to the needs of the industry. The Creative Skillset Tick is a mark of quality that to date fewer than 120 undergraduate courses across the country have received (December 2017).

The approval process required us to submit details of the teaching, the hours taught, a review of equipment and resources, as well as details of applicants, their progression and their employment.

Currently the following courses have been awarded the Tick:

- Contemporary Media Practice BA Honours
- Fashion Design BA Honours
- Film BA Honours
- Radio and Digital Production BA Honours
- Television Production BA Honours

You can find out more about the Skillset Tick online, at courses.creativeskillset.org

The Creative Skillset Tick has been commended in Lord Heseltine's report, *No Stone Unturned*, as a recommended model for kite-marking degree courses which have been endorsed by employers; you can find out more at bis.gov.uk/heseltine-review

"The Creative Skillset Tick is an essential signpost that helps potential students choose courses that are approved by industry. It tells them the course has gone through thorough assessment, including a review of graduate employment, work experience and links with industry, which contribute to improved employment prospects on completion of the course."

Common room, Harrow Hall

Bedroom, Raffles House

Harrow Hall

Kitchen and dining area, Raffles House

Laundry room, Harrow Hall

We have almost **1,000 places** in halls of residence available to full-time, first-year students

ACCOMMODATION

After choosing your course, one of your biggest decisions will be where to live. Whether you want to apply for our halls of residence or live in private housing, we can help you to find the right accommodation.

Once you have accepted a place on a full-time course you can get more information about accommodation through the Student Accommodation Team.

All of these halls are well served by public transport; you will be able to reach our Marylebone Campus in around 20 minutes, and our other central London campuses in around 30 minutes

Halls of residence

We have almost 1,000 places in halls of residence available to full-time, first-year students, which means that around three-quarters of those who apply are offered a place. Applications open at the beginning of April, and are processed on a first-come, first-served basis, so it's best to apply as soon as you have accepted an offer of a place on a course.

First-year undergraduates are housed at iQ Raffles House or at our Harrow Campus. iQ Raffles House is our first-year hall based at Wembley Park student village, a short walk from Wembley Park underground station, and features 481 en suite rooms. It is located on the same development as Wembley Stadium and Wembley Arena, so there is always a lot going on. There are also around 500 places for first-year students at Harrow Hall, where media, arts and design students have priority for rooms.

Private accommodation

If you are planning to live independently in or around the city, we can help you to find your ideal student home. London has a huge supply of private accommodation, including privately run student halls, and most students studying in central London commute from travel zones 2 or 3, a journey of around 30 – 40 minutes. Rents depend on where you live but, as an example, you can expect to pay around £190 – £220 per week for a room in a shared flat or house in these zones or around Harrow.

For more details on our halls, their locations, pictures, how to apply, what is included as well as information about private accommodation, please visit our web page at westminster.ac.uk/accommodation

The student funding scheme provides loans for higher education fees and living costs for you, if you live in England and meet the residence conditions, as long as this is your first higher education course. If you qualify, you will not have to pay your fees up front.

The fee loans are not means tested, so you do not need to provide information about income levels. Maintenance loans are assessed against your parents' income unless you are 25 or over or qualify for independent status. Loan repayments will start the year after you graduate or leave the course, and only when your salary reaches £25,000* or more.

UK (Home) students – applying for student finance

You do not need a confirmed place at university to apply for your student finance. It's best to apply as early as possible even if you are not sure which University you will be going to. Please see gov.uk/student-finance for guidance on the application process, eligibility and support available. You can use the student finance calculator to estimate:

- student loans
- extra student funding, eg if you are disabled or have children or an adult dependant.

Please also see our website, westminster.ac.uk/study/fees-and-funding for further information regarding other support available.

Confirmation of your place at Westminster and fee payment

When you enrol at university you will need to take your Student Finance Entitlement

letter to show that your loans have been approved and that the University of Westminster is shown as your place of study. The University can then send confirmation of registration to Student Finance England, so that payment of the Maintenance Loan can be made to your bank account and the Tuition Fee Loan paid directly to the University.

University of Westminster Scholarships

The Scholarships Office offers a range of scholarships for both UK/EU and international undergraduate and postgraduate students. To be eligible to apply for a scholarship, you must first have been offered either a conditional or unconditional place on a course. Successful applicants are chosen on the basis of various

criteria including academic excellence and financial need, and all of our scholarships are very competitive.

University of Westminster UK undergraduate fees

Undergraduate fees for UK students who meet the residence

European Union Students

At the time of printing (February 2018) we have no information available about fees, loans and any passport and visa requirements for EU nationals starting a course after September 2018. For further guidance and the latest information, check gov.uk, visit our website or contact Student Advice.

requirements are regulated by the UK Government. In September 2017 our tuition fees were £9,250 a year. For the latest information please visit our website.

University of Westminster international undergraduate fees and processes

Latest details of undergraduate international fees can be found on our website. As an international student, you will be asked to pay a deposit towards your fees when you accept your offer of a place to study with us. We will then issue you with a Confirmation of Acceptance of Studies (CAS) which you can use to apply for your visa. We have a team of visa advisers who can help you through this process. Please read the full deposit information at westminster.ac.uk/international-student-deposits

PERSONAL TUTORING

Personal tutoring provides academic and pastoral support for undergraduate students on a planned and regular basis.

ACADEMIC ENGLISH

We offer a number of credited Academic English modules which you can take in your first or second year (as a free-choice module) depending on eligibility. westminster.ac.uk/academic-english

STUDENT CHARTER

An effective partnership between students and staff is vital to the success of the University and our students, and our Student Charter forms the basis of this relationship. westminster.ac.uk/student-charter

PERSONAL ADVICE AND STUDENT SUPPORT

Student Advice – We offer practical information and

professional advice on a range of issues including student finance entitlement, welfare benefits and money management. We provide immigration and visa advice to international students, and advice on other general issues such as working in the UK. We offer additional support to students who have been in care and students who are estranged from their family.

With one of the UK's largest international student populations, the University of Westminster has plenty of experience in giving you the help and support you need to make the most of your time with us.

EU students: see p177.

Meet us in your country

Members of the University frequently travel overseas to meet and interview potential students at exhibitions, schools, partner institutions and other events. We also work with representatives around the world who can help you with your application to Westminster. For more information, visit [westminster.ac.uk/international](https://www.westminster.ac.uk/international)

We also have teams based in Beijing and Delhi.

E: india@westminster.ac.uk
E: china@westminster.ac.uk

Institutional partnerships

We have a wide range of partnerships with universities and academic institutions in the UK and overseas that allow students to progress onto degree courses at Westminster. For a full list of our partners visit [westminster.ac.uk/international](https://www.westminster.ac.uk/international)

Westminster's Study Abroad scheme is one of the largest in the UK

Student visas

If you are a non-EU/EEA passport holder you will need to check your visa requirements for study in the UK by visiting UK Visas and Immigration at gov.uk/tier-4-general-visa

EXCHANGE PROGRAMMES

Westminster students

We run student exchanges with institutions in Asia, Europe, the Americas and Australasia. These exchanges allow Westminster students to spend time studying abroad, and are an amazing opportunity to live and learn in another country. [westminster.ac.uk/westminster-abroad](https://www.westminster.ac.uk/westminster-abroad)

Westminster is an active participant in the Erasmus+ programme which is supported by the European Commission; we have more than 50 Erasmus+ partnerships.

Erasmus+

Non-Westminster students

The exchange programmes also offer the opportunity for students from partner institutions to come to Westminster for a semester or year. The exchanges are subject-based, so visit [westminster.ac.uk/exchanges](https://www.westminster.ac.uk/exchanges) for details of the study opportunities available.

STUDY ABROAD AND SUMMER SCHOOL PROGRAMMES

Westminster's Study Abroad programmes give you the opportunity to come to study (or combine study and an internship) for the summer, one semester or the academic year. The programmes are designed to immerse you into the life of the University and the city of London. They offer you the chance to enhance your academic learning and future employability, and to undertake a unique adventure that will be a life-changing experience. [westminster.ac.uk/studyabroad](https://www.westminster.ac.uk/studyabroad)

The University of Westminster is proud to be a Generation Study Abroad commitment partner. [westminster.ac.uk/international](https://www.westminster.ac.uk/international)

MATURE STUDENTS

Around one in six of our full-time first degree or undergraduate students are over 21 when they apply. The vast majority of mature students who are accepted successfully complete their course, but returning to study can be challenging. To help you meet that challenge you will have access to tutorial support, and we provide a series of workshops on getting to grips with university life, and brushing up on your study skills.

Formal qualifications are only one measure of your ability to study at a higher level. Work or other experience, maturity of approach, commitment and enthusiasm are also important. We take these factors into account when making offers of places.

Students of any age who have acquired certificated learning at an appropriate level can be exempted from specific modules, through the Recognition of Prior Learning

We provide a series of workshops on getting to grips with university life, and brushing up on your study skills

(RPL) system. However, if you are 21 or over, the knowledge and skills which you have gained through life, work experience and study may be eligible for credits towards your course under the Recognition of Prior Experiential Learning (RPEL) programme.

PART-TIME STUDENTS AND FLEXIBLE STUDY MODES

Many of our students are studying part-time, either taking degrees, on short courses or working to gain professional accreditation. Achieving a degree part-time usually takes up to four years (typically attending classes two evenings plus six to 12 hours of personal study each week during term time). You apply directly to the University for a part-time course on our website [westminster.ac.uk](https://www.westminster.ac.uk)

Studying at Westminster will enable you to develop friendships with fellow students from around the world, and those experiences and connections can continue to thrive after you graduate

We are here to help you stay in touch with your friends and a worldwide community of fellow graduates who have shared the Westminster experience. Upon graduation all students automatically become members of the 180,000-strong global alumni community in over 180 countries.

Alumni are entitled to a number of benefits and services including discounts on further study, dedicated careers support, invitations to exclusive networking events in the UK and overseas, and professional development opportunities.

To find out more about what's on offer for alumni visit westminster.ac.uk/alumni

For full-time courses you must apply online via the Universities and Colleges Admissions Service (UCAS), at ucas.com

If you are resident outside the UK, you can get advice from your school or college, or one of the University's official representatives, at westminster.ac.uk/international We also have teams in Beijing and Delhi who can support you through the application process.

If you are a mature applicant resident in the UK, you can seek advice from careers organisations. Please feel free to contact us.

If you are applying for a part-time degree, you should apply directly to the University online at westminster.ac.uk

Entry requirements

For each course you will find the typical offer given to applicants starting their course in September 2018 (or anticipated offer in the case of new courses) on the relevant course page. For many courses, these will remain the same for 2019, but up-to-date information can be found on our website or on the UCAS website. As well as qualifications, we will look for additional evidence of suitability for a course; if your qualifications or experience indicate that you are more

suitable to a Foundation-level course at Westminster or an associated institution, you will be advised of this.

A LEVEL AND GCSE REFORMS

We do not expect to make major changes to entry requirements in relation to the changes to A Levels and GCSEs. Individual courses may make some changes to subject requirements after our 2019 Prospectus has been printed. We will update entry qualifications on our website as soon as they are confirmed.

A Levels

We consider each application on its merits and, although we do look at AS grades (if available) as part of our selection process, we also consider the applicant's predicted grades, GCSEs, personal statement and reference when making an academic decision. We understand schools will be adopting a number of approaches to the reforms and we would not expect all applicants to have AS Level qualifications.

At the time of printing (February 2018), we do not require a pass in the practical element of science A Levels for science and engineering courses. For non-science degrees we are likely to ask for an overall grade with no requirement for a pass in the practical element. Please

visit our website for the most up-to-date information about course entry requirements.

GCSEs

We require GCSE in English Language and Maths for all courses (and Science or Double Science where specified).

Standard entry requirements:

- three GCE A Level passes plus two GCSEs at Grade 4 (C in grading system prior to 2017) or above including English Language and Maths; or
- two GCE A Level passes plus three GCSEs at Grade 4 (C in grading system prior to 2017) or above including English Language and Maths; or
- five passes in the Scottish Certificate of Education, of which three are at Higher Grade including English Language and Maths; or
- four passes in the Scottish or Irish Certificate of Education, all at Higher Grade including English Language and Maths; or
- a pass in Pearson BTEC National award or HNC/HND; or
- a pass in an Access to HE Diploma with 45 credits at Level 3 with a minimum number of Level 3 credits at Merit or Distinction (passes in English and Maths at GCSE Grade 4 (C in grading system prior to 2017) or equivalent may be required); or
- Foundation course; or
- an International or Welsh Baccalaureate.

These should be seen as benchmarks; we recognise that a variety of other qualifications and learning may provide appropriate evidence of an applicant's suitability for admission. The University will use its discretion to interpret such formal attainment levels in terms of equivalence, with advice from external agencies.

Please note that we are happy to consider applications that reflect a mixture of Level 3 qualifications either passed or being taken as long as they are equivalent to our standard entry requirements. For example, we would consider a combination of A Levels and BTEC Level 3 qualifications equivalent to three A Levels or a BTEC Extended Diploma.

EU students: see p177.

International entry requirements

We have extensive experience in evaluating non-UK qualifications. For country-specific information, please visit [westminster.ac.uk/international](https://www.westminster.ac.uk/international) or email course-enquiries@westminster.ac.uk

Language requirements

If your first language is not English, you will need a minimum IELTS of 6.0 overall with 5.5 in each element, or a Westminster recognised equivalent. For some courses the minimum IELTS score will be higher, so please check individual course entries.

These minimum scores may change if English requirements are increased by the UK Visa and Immigration Department. We offer pre-sessional summer programmes if you need to improve your English before your course; see p169, or visit [westminster.ac.uk/efl](https://www.westminster.ac.uk/efl)

International visa requirements

Unless you hold an EU/EEA passport you should apply for a Tier 4 (General) student visa. Before you apply for your visa you must have accepted our unconditional offer of a place and have a Confirmation of Acceptance for Study (CAS) from the University of Westminster. The CAS is a unique reference number which confirms that you will be studying at Westminster. You will need this number for your visa application form.

Your CAS will be issued once you have paid the minimum deposit towards your tuition fees. Further information about the deposit can be found on our website at [westminster.ac.uk/international-student-deposits](https://www.westminster.ac.uk/international-student-deposits)

If you need to apply for a student visa in order to study with us then please read the information on our website at [westminster.ac.uk/visas](https://www.westminster.ac.uk/visas)

Admissions process

We take care to ensure the confidentiality of your application information.

All details are held on the University computer system for internal administrative purposes and the compilation of statistics. However, if requested, we may provide information to UCAS, local education authorities, police forces and government departments (eg UK Visas and Immigration).

You can request access to your computer file with payment of a fee. If you have any comments about our admissions procedures, please contact us by email, at admissions@westminster.ac.uk

If you prefer, you can write to the Director of Admissions, University of Westminster, 101 New Cavendish Street, London W1W 6XH.

Interviews

For many courses a decision will be made on the basis of your application form alone. However, for some courses the selection process may include an interview in London or by Skype, usually between December and April for full-time students, or March to early September for part-time students.

Students with disabilities

We encourage applications from people with disabilities, long-term health conditions and Specific Learning Difficulties (dyslexia, dyspraxia, dyscalculia and ADHD).

The University of Westminster values the contribution disabled students make to its diverse community and admits its students on academic merit alone. However, for individual disabled students, it is important that we establish the reasonable adjustments possible and required to minimise the impact that their impairment might have on their studies.

If you have a disability, long-term health condition or Specific Learning Difficulty, please indicate this clearly on your application form. This will allow us to contact you as soon as you have been made an offer.

Determining an appropriate support package and applying for all sources of support, internal and external to the University, can take some time (eight weeks on average). A late disclosure of a disability may delay your support or make it impossible to put in place. Therefore, we are keen to hear from you as early as possible in the application process to avoid a deferral of entrance and disappointment.

For more information on the disclosure process and support available, please feel free to contact our Disability Learning Support team.

Admissions Policy and Guides

Our Admissions Policy and Guides are available on our website. The guides aim to provide applicants with information on how we process applications and make decisions as well as, for example, how to make a complaint if something has gone wrong during the pre-application and application process. You will also find the terms and conditions for students once enrolled at the University. Please contact us by email, at admissions@westminster.ac.uk

Notes for applicants

We will answer any enquiries you may have concerning application, fees, registration or transfers from other institutions, although many of your questions will be answered in this Prospectus, on our website, or in the UCAS Guide for

Applicants. While courses are offered as described at the time of going to press, sometimes revisions are made, mainly to ensure our courses are kept up-to-date. We will only cancel a course if it is unavoidable and will keep applicants informed of any major changes. There is no guarantee that courses that are undergoing validation will be approved.

TERMS AND CONDITIONS

Our Terms and Conditions are available via the course pages of our website. A link to download these terms is also provided as part of your offer of a place at the University.

Health and Safety

The University complies with the requirements under Section 3(i) of the Health and Safety at Work Act 1974. The University has a responsibility to the student and the public visiting the site, but the student has a responsibility to conduct himself/herself so as not to endanger his/her own health and safety, or the health and safety of others.

The University has a legal obligation to keep a record of all accidents that occur on its premises, and students involved in any accident, however slight, are required to report the circumstances immediately to a first aider, safety contact or their supervisor.
