

Masters' Prospectus 2019

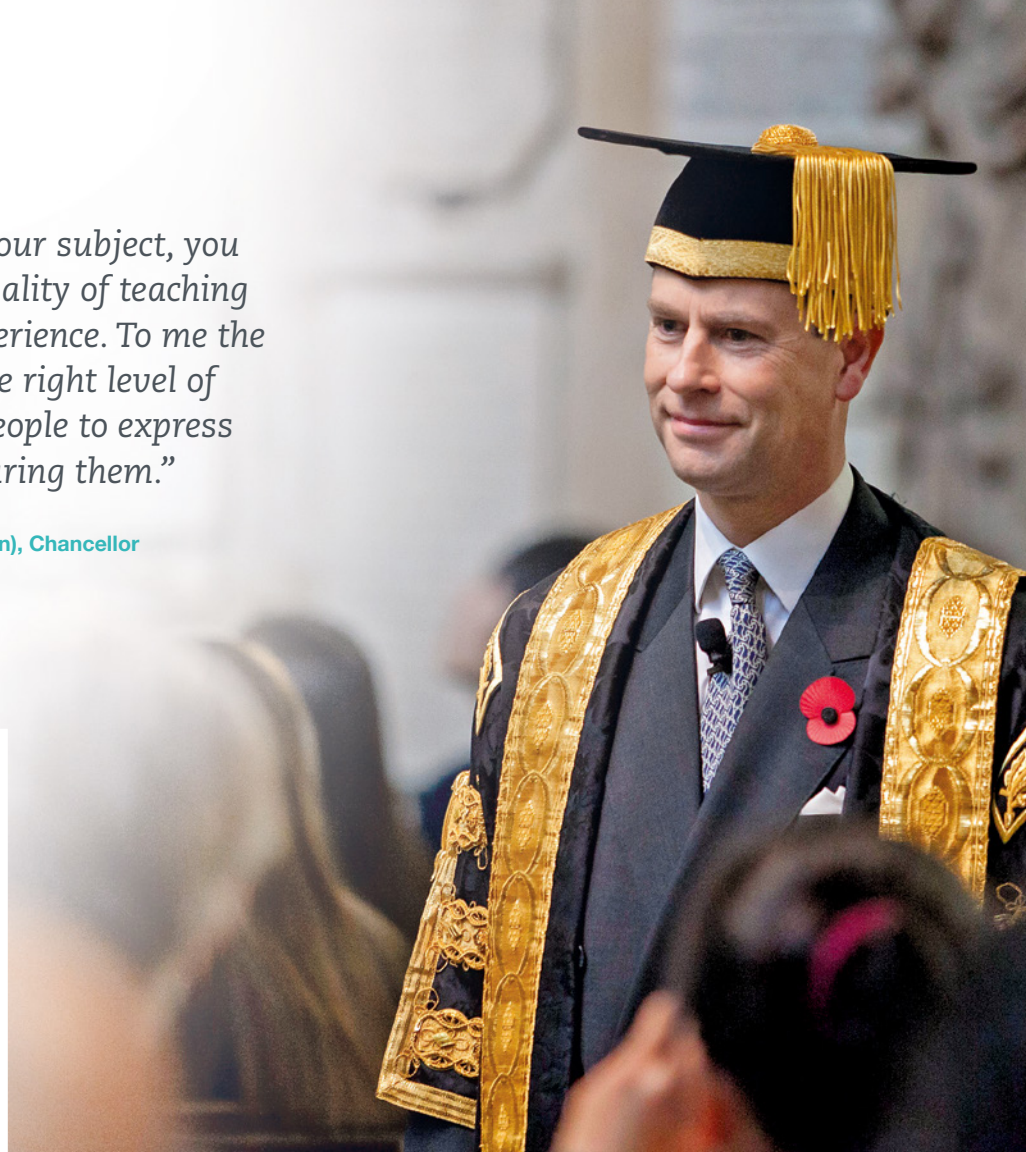

UNIVERSITY OF
BATH

“If you are very serious about your subject, you are going to get a really good quality of teaching and a really good quality of experience. To me the University of Bath is creating the right level of support and trust that allows people to express ideas and not to be afraid of sharing them.”

His Royal Highness The Earl of Wessex
Prince Edward KG, GCVO, SOM, AdC(P), LLD(Hon), Chancellor

The Chancellor is the ceremonial head of the University and one of its most prominent ambassadors. Prince Edward took up the role on 1 August 2013. He was officially installed as the University's fifth Chancellor at a formal ceremony in Bath Abbey on Thursday, 7 November, 2013.

Choosing your course

At Bath we will help you make the transition from an undergraduate to a postgraduate course; your degree will now be more academically challenging and specialised.

The postgraduate degree you choose will depend on your subject interest and career ambitions. We offer a range of master's degrees, including full-time, part-time and new online courses to suit your lifestyle and career aims.

You will be able to study subjects in the following areas:

- Architecture and civil engineering
- Business and management
- Chemical engineering
- Computer science
- Drug discovery
- Economics
- Education
- Electronic and electrical engineering
- Health (health and wellbeing, sport and exercise medicine and sport physiotherapy)
- Interpreting and translating
- Mathematics
- Mechanical engineering
- Molecular biosciences
- Politics and international studies
- Psychology
- Social and policy sciences

Our courses allow you to specialise in an area that matches your interest and your career ambitions. You can choose to build on your knowledge gained in your undergraduate studies or to study something completely different. We offer different types of master's degrees and the following table gives you an overview of the possible routes:

MA MSc	Master of Arts Master of Science	<p>The taught courses will either:</p> <ul style="list-style-type: none"> • Build on your undergraduate studies, exploring your subject in more depth. You will be expected to work more independently and think more critically. • Complement your undergraduate degree with knowledge, tools and skills in a different subject area - for example by taking an MSc in Computer Science or an MSc in Management.
MBA	Master of Business Administration	<ul style="list-style-type: none"> • A postgraduate course for those with at least three years of full-time, post-graduation professional or managerial work experience. An Executive MBA requires 5 years' work experience. • An MBA can prepare you for a senior management role, can accelerate your career and help you become a better leader. It is a great option if you want to start your own business.
MRes	Master of Research	<ul style="list-style-type: none"> • A taught course that combines the academic study of a particular subject with a comprehensive exploration of research methods. • It is a qualification in its own right, but can be used as a preparation for a PhD- '1+3' (MRes +PhD) pathway.
PG Dip PG Cert	Postgraduate Diploma Postgraduate Certificate	<ul style="list-style-type: none"> • Qualifications at the same level of study as master's degrees, but they do not include a written dissertation. • A PG Dip takes longer and is worth more credits than a PG Cert.

Our taught masters are listed on page 47 to 51 and for more information check our website at go.bath.ac.uk/pgt-study. This prospectus does not include details of research degrees. To find out more about them visit us at go.bath.ac.uk/postgraduate-research

What our students say

Find out what our students think about studying a master's degree at the University of Bath.

Tina Zhou

MSc Modern Applications of Mathematics

"I wanted to study at a university with a top ranking as well as an excellent and friendly academic environment. Bath is definitely the right place and the MSc programme offered me a fantastic project with the MET Office in Space Weather Modelling. The postgraduate courses are flexible and you can choose to go for any applied areas of maths or pure maths based on your interest. The programme is really intense but extremely well designed to prepare me to be a proper mathematician who can solve real problems for companies. I also had the opportunity to be part of a European Study Group with Industry (ESGI) working closely with PepsiCo to help them improve their manufacturing process. You would not be given such responsibilities and challenges as an undergraduate."

Raphael Ofoe

MSc Molecular Plant Sciences

"The teaching offered to me at Bath has shaped my thinking and research capabilities. The lecturers are not just knowledgeable, but also highly experienced in research, friendly and easily accessible which makes studies at Bath remarkable. I enjoy the lab practical sessions in well-furnished laboratories with modern equipment and talks presented by guest speakers with amazing research discoveries. This arouses my research interest and will challenge me in my future research career."

Aziza Larvet

MSc Business Analytics

"I chose the University of Bath for its reputation and because my MSc course specialises in a field that developed recently. The fact that such new courses are introduced reflects the general will of the university to innovate. The lecturers constantly seek feedback and reflect on it. They are also very supportive which is reassuring considering that, at a postgraduate level, there is a greater workload and more expectations. The university is very multi-cultural and as an EU student I felt extremely welcome straight away."

Elizabeth Clark

MA Teaching English to Speakers of Other Languages

"As a mature student with a disability, I wondered at first how I would fit in with life on a modern campus, but everyone was welcoming and valued my life experience. Master's level study is more intensive than undergraduate study, as you complete the course in a year. It's important to read and prepare in advance for lectures and seminars so that you can participate in discussions. The librarians are really helpful too, when you're researching a particular topic. Getting involved with the Students' Union as an Academic Representative was a great experience too. It gave me an opportunity to learn how the university is run and to meet a wider range of people."

Sam Thomas

MA International Relations

"Studying International Relations at the University of Bath, focusing on various key aspects of politics and policy making, has not just been educational but an eye opener too. Our professors are so passionate about what they teach. I really like the fact that I can focus in-depth on a particular subject within the module that interests me. I feel that when we engage in any discussions in class, we are given the role of International Relations professionals, not just students. The SU along with the Uni come up with events targeted at postgrads. At the end of the day, the hashtag is right, you #BelongatBath."

Your learning

At Bath we will provide you with a challenging yet supportive postgraduate learning experience, reinforced by teaching excellence, an academic and personal skills development programme and world-class learning facilities.

Teaching excellence

We know that by choosing to study a master's degree, you are looking to gain a competitive edge in your chosen field. Our academic programmes are designed to provide both rigorous intellectual challenge and real-world relevance, giving you the opportunity to study with researchers and practitioners who are leaders in their field. Our staff are experts in their subject areas and use their industrial links, research and discoveries to ensure you are taught the most up-to-date topics.

We hold the Gold Award in the Teaching Excellence Framework (TEF), indicating that the teaching at the university is of the highest quality in the UK, and we were ranked 4th out of 122 in the 2018 The Times Higher Education Student Experience Survey*.

We are constantly seeking to improve learning and teaching, acting on the feedback of our students to ensure their experience is as good as it can be. All of this contributes to our student success and employment rates, factors which were instrumental in us receiving the TEF gold award.

**Rankings based on undergraduate data.*

Some examples of the skills you can develop include:

- Thinking critically to enhance your writing
- Creating well-written, clearly structured essays, reports and dissertations
- Giving polished and effective academic presentations
- Managing and analysing numbers, data and statistics
- Learning a new language or improving an existing one
- Using IT tools and resources efficiently

These skills will help you in your studies and also ensure you are well prepared for the workplace.

We provide a wide range of employability-focused activities including the following current workshops:

- Write effective job applications and CVs
- Succeed at interview
- Manage your time
- Lead and manage projects

Academic study facilities

We continuously invest in new teaching facilities, informal learning spaces and laboratories for our students. We are currently constructing a major new School of Management building which will include lecture theatres, seminar rooms, study and social space to enhance the learning experience of our students.

Alongside general teaching spaces there are many other bespoke facilities tailored to our different subjects. Our Psychology observation suites, refurbished Engineering laboratories and other specialist equipment will give you a great opportunity to put theory into practice. In addition to the physical learning environment, our Virtual Learning Environment will allow you to access course materials, quizzes and recorded lectures, as appropriate for your subject.

You will have access to our state-of-the-art library, open 24/7, working around you and your studies. Alongside the library and general learning commons, we have dedicated postgraduate student informal learning spaces.

Skills development

In addition to subject specific-skills development embedded in your course, we offer an additional skills programme which is designed to meet your academic and personal development needs. This will help you get the best out of your studies, enhance your employability and achieve success in

your future career in industry, or in further studies, including doctoral studies.

You will have access to a range of skills development opportunities covering four key areas – Academic Skills, Employability, Language Skills and Personal Skills.

You can tailor your own development programme to fit flexibly around your other academic studies.

To help meet your learning style, we offer skills development in a variety of different ways including:

- One-to-one tutorials
- Workshops, talks and presentations
- Online resources and independent study

For more information on skills, visit go.bath.ac.uk/pgt-skills-development

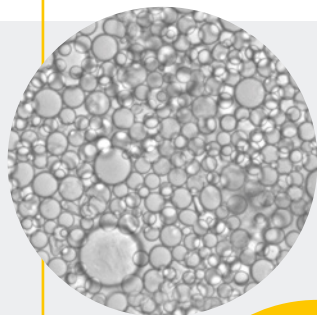

Inspiring research

The University of Bath is recognised for its impactful research, ranked in the top 15 of British universities for research quality (The Complete University Guide 2019).

Postgraduate students work alongside some of the leading researchers in their field from across the globe. Strong links with industry, government, NGOs and policymakers provide unique opportunities for collaborations ensuring Bath postgraduate students' research has an impact far beyond academia.

87% of our research was ranked as world leading or internationally excellent according to the Research Excellence Framework (REF) exercise carried out in 2014. While at Bath, your studies will be informed by some of the most exciting and innovative ideas around, whether you are working to develop new drugs to cure breast cancer, collaborating with industry leaders such as Ford to develop fuel-efficient engines, or are involved in our Queen's Anniversary Prize-winning research into child poverty.

Enthusiasm and nurturing new research talent is one of our highest priorities. We have 17 dedicated training centres for doctoral research students and around 2,000 current postgraduate research students.

Making a difference

Our research is not only improving lives but changing the world we live in

87%

of our research is classed world-leading or internationally excellent

The Research Excellence Framework - REF 2014

go.bath.ac.uk/pgt-uob-research

Some research highlights:

- We have recently launched the Milner Centre for Evolution, the first centre of its kind in the UK, positioning Bath at the forefront of evolutionary science
- Our chemists created a dressing which can detect the early onset of infection, fighting antibiotic resistance and saving lives
- A long-standing research partnership with the automotive industry is helping us develop future generations of ultra-low emission vehicles
- Our scientists have created a patch which allows for bloodless testing in diabetes monitoring
- We are shining a spotlight on business practice to help combat modern slavery
- We have developed microbeads made from sugar to help reduce ocean pollution
- We are helping sports clubs identify stars of the future with biobanding - a technique that compares young athletes to others with similar maturation rather than just age alone.

This prospectus focuses on Masters' courses. Find out more about our research degrees at go.bath.ac.uk/postgraduate-research

Living and studying in Bath

"Bath is a small and exquisite city, perfect for learning and recreation. When I first came to Bath, I was fascinated by the Georgian architecture here."

Fumin Zhang, MSc Robotics and Autonomous Systems

Our city

Bath is a Unesco World heritage city and studying at the University of Bath means that you will benefit from both a historic and bustling city and a beautiful and thriving campus.

If you like exploring new cities and places, there are plenty of ways to transport yourself into the hub of Bath, and beyond.

A taxi of friends can cost as little as £2 each from the campus to the city.

The University of Bath bus runs every 6 minutes during the day and takes 10-15 minutes from the campus to city.

Catch the train from Bath Spa station and be in Bristol in 12 minutes.

If you fancy taking in the beautiful countryside, you can take a canal boat along the river Avon, which runs through the city.

If you want to plan a day trip to a city further afield, you can catch a train to London in 94 minutes or be in Cardiff in 63 minutes.

www.visitbath.co.uk

Why we love Bath

Bath is known for its natural hot springs, striking architecture and fascinating history. But there is much more to the city. Peek beneath the surface and you'll find a modern city, with experiences well beyond the ordinary.

Explore your world heritage city

Living in a historical city like Bath has many benefits, such as being surrounded by beautiful places to visit. The Roman Baths, Skyline Walk, and The Abbey are all worth a visit, as well as the various parks spread around the city.

Go for a bite to eat

From sushi and tapas to pizza and pies, Bath has over 400 different restaurants to suit your tastes. While there are several well-known chains, Bath is all about promoting independent businesses, and new places pop up all the time. Restaurants and cafés have student promotions on throughout the year, so remember to keep your NUS card handy!

Hit the shops

Bath's shops are scattered between intriguing side streets and picturesque alleyways - all within easy walking distance of one another. Most of the high street stores can be found in the Southgate Centre, with quirky artisan and vintage shops dotted throughout the city.

Get cultural

Whether you are interested in history, science or art, the city has many museums and galleries to explore in your spare time. The city also has a couple of cinemas for the film enthusiasts and three theatres, including The Theatre Royal, which frequently host plays straight from a West End run.

For a small city, Bath manages to host a huge amount of activities throughout the year. These include The Bath Festival (a two-week multi-arts event), The Film Festival, Comedy Festival and Bath Fringe Festival to name but a few. Other events include the famous Bath Christmas Market and The Great Bath Feast.

Put on your dancing shoes

Bath has something for everyone. If you are looking for a quiet couple of drinks in a cosy bar or a big night, you're guaranteed a good time. Bath has a great nightlife and with lots of hidden gems for you to explore you'll never be stuck for something to do on an evening. There are several music venues in the city, including Komedia, who host over 400 events a year, and the Pavilion which often serves as a warm-up venue for acts on their way to Glastonbury.

Get active

From paddle boarding on Pulteney Bridge to hot air balloon rides over the Royal Crescent, Bath has a host of outdoor activities that can be enjoyed throughout the year. The surrounding countryside is perfect for walking, running and cycling, and can be easily accessed from the city. Our much-loved Bath Rugby Club hosts Premier League Rugby Union games throughout the season.

Beyond Bath

Bath is surrounded by beautiful countryside but if you want to explore a bigger city, Bristol, Cardiff and London can all be reached by train. The must-see monument of Stonehenge is only an hour away from Bath too!

[go.bath.ac.uk/
pgt-city-and-sw](http://go.bath.ac.uk/pgt-city-and-sw)

Our campus

Our campus offers the best of both worlds: a thriving community atmosphere and the natural tranquillity of the Somerset countryside. It is one of the safest campus sites in the UK and the first university in the country to win a police-approved security award.

In addition to our library, Sports Training Village, arts centre, multi-faith Chaplaincy Centre and award-winning Students' Union, we have much more all within a five minute walk.

- | | |
|---|---|
|  Supermarkets |  Computer shop |
|  Medical Centre |  Banks |
|  Dental Centre |  Restaurants and coffee shops |
|  Laundrette |  Bars, pubs and a club |
|  Post Office | |

From campus, you can hop on the bus (running 24 hours a day during term time) and explore the city centre.

"The environment of the campus is good for both socialising with friends and concentrating when studying. Multiple types of facilities are available to help me achieve my maximum potential."

Raine Luo, MSc Marketing

Accommodation

Choosing your accommodation is an exciting part of the student journey. There are many options available while studying in Bath.

University managed accommodation

We offer accommodation both on campus and in the city specifically for postgraduate students. Living in a university managed building means that everything is included in your rent and your accommodation is looked after by our experienced housekeeping team. Therefore you have more time to really focus on your studies.

Polden is our newest building, completed in 2018. It has been designed with postgraduates in mind so that you can meet, live and work alongside students who understand the demands of postgraduate study. Polden is located on the quiet, far west side of our campus, just a few minutes away from the library.

We also have off campus accommodation around the city. The main shops, restaurants, bars and cafés are all located within a short distance. All our accommodation is just a few minutes' walk from the bus stop, so you can get to campus quickly and easily.

We understand that every student is individual so our accommodation needs to be flexible to suit you.

To make you feel safe and at home our accommodation can only be accessed using swipe cards and we have dedicated Accommodation Security Officers available 24 hours a day, seven days a week. Our campus is also an accredited Secured Environment, giving you complete peace of mind.

All our rents include your bills, insurance cover for your belongings and high-speed Wi-Fi.

Privately managed accommodation

All fee-paying postgraduate students can apply for private accommodation managed by Hello Student. If you are an overseas fee paying student you will be guaranteed a room if you apply before the deadline.

The residences are all conveniently located close to the city centre and the University of Bath is only a short bus ride away. Your utilities, contents insurance and high speed Wi-Fi are all included in rent.

We can offer:

Self-catered accommodation

Single or double rooms

Communal bathrooms or en-suite rooms

Family accommodation

Single and mixed-sex flats

Private renting

The Student Accommodation team offers a range of services to help you find private accommodation.

If you choose to find housing in the private sector, you should make sure you allow for gas, electricity, water and internet, as these usually are not included in the rent.

Take a 360° tour of our accommodation options and find out more at:

go.bath.ac.uk/pgt-accommodation
or **+44(0)1225 383111**

“Living on campus is a great way to engage in all of the university’s events. Polden is the postgraduates’ on campus accommodation. It is very safe with lots of communal areas to study in groups or enjoy the evening with other students.”

Ghina Rachid, MSc Sustainable Chemical Engineering

Outside your studies

The Students' Union (The SU) will provide you with lots of ways to socialise, gain new experience, give something back, and get your voice heard. The SU is a registered charity and everything they do is run by students, for students.

Groups

Societies and sports clubs are a great way to meet people, develop new skills, and gain experience. There are over 160 groups that you can join through the Students' Union. As a postgraduate student, you are automatically a member of the Postgraduate Association (PGA).

Support

The SU has an independent Advice & Support Centre with professional advisors who are on-hand to guide and support you with any problems during your time at Bath. They offer confidential, independent and non-judgemental advice and support. A number of support groups run by students also organise campaigns and events for awareness or action purposes. The SU also offers support through peer mentoring and peer assisted learning.

Development

The SU encourages you to think ahead and start planning for the future as soon as you arrive. There are lots of options available from part-time jobs and volunteering to skills training and enterprise opportunities. You will meet and share experiences with so many students along the way and make life-long connections.

Postgraduate officer

Bath is one of only a handful of Students' Unions in the country with a dedicated Postgraduate Officer, and we really care about making sure all our postgrads feel represented, welcomed and supported. We have a wide range of services specifically for postgrads, from advice and study support to social activities and sports, volunteering and other personal development opportunities.

"As your Postgraduate Officer, it's my responsibility to make sure that the overall postgraduate student voice is being heard and represented at all levels of the University."

Jiani Zhou, Postgraduate Officer

The Postgraduate Association (PGA)

The PGA represents and helps build community for the 4,200 taught and research postgraduates at the University of Bath. You have the chance to be a member of the PGA Executive Committee and work on priority issues, organise events and be part of the change.

Your voice

You can nominate yourself to be a Postgraduate Academic Representative or Faculty Representative to represent your peers to improve your study and research experience. If you want to get involved in postgraduate community building, you can stand to be a Hall Representative!

Find out more:
go.bath.ac.uk/pgt-su

Sport at Bath

At Bath, we offer a huge range of recreational opportunities so everyone at the University can enjoy sport and exercise - regardless of ability. Our facilities and expertise are open to all.

Tuition is available in a range of activities in a professional, open and friendly environment. Our team of coaches, sports science personnel and physios work with a wide range of performers from student recreation up to Olympic level.

We are open seven days a week and students have plenty of opportunities to use our sports facilities. We have a student recreational sport programme (Bath Active), and also offer personal development opportunities through coaching, volunteering, innovation and leadership schemes.

Bath Active, our student recreational sport programme, works in conjunction with the

Postgraduate Society to provide bespoke opportunities for postgraduate students. It offers personal development opportunities through coaching, volunteering, innovation and leadership schemes.

At Bath we have one of the leading high-performance environments in Europe, hosting around 250 international-level athletes and national and regional squads across 10 sports. As a postgraduate student, you will also have the opportunity to watch top sport on campus, as we play host to profile events such as the European Modern Pentathlon Championships, Invictus Games GB team trials, Netball Superleague and Super Rugby matches amongst others.

Our facilities

Our extensive range of sports and recreation facilities can be accessed via your Sports Pass which will be added to your library card when you start as a student. This gives you access to the Sports Training Village, Founders Complex and Sulis Sports Club (off-campus). Take a look at what we have to offer:

-  **Newly-opened Team Bath Gym and Fitness Centre*, expanded across three floors**
-  **50m Olympic legacy swimming pool**
-  **A floodlit eight-lane all weather athletics track**
-  **An indoor athletics hall featuring a 132m sprint straight**
-  **Multipurpose sports hall including 12 badminton courts**
-  **Eight-court indoor tennis hall plus four acrylic, four artificial clay and two clay outdoor tennis courts**
-  **The UK's only outdoor bobsleigh/skeleton pushtrack**
-  **Water-based hockey and general purpose all-weather pitches/areas**
-  **Several football and rugby pitches**
-  **300 square metre judo dojo**
-  **Fencing salle including eight pistes**
-  **16-station air pistol range**

** Many of these facilities are free to use but a charge may be made for some of the facilities and membership of specific clubs and there is a charge for gym membership.*

 go.bath.ac.uk/pgt-sport or www.teambath.com

 go.bath.ac.uk/pgt-virtual-stv

The Edge: art, research, adventure

The Edge is the hub of creative life on campus. Here you'll find opportunities to participate in art and creative practice using top-class facilities.

The Edge Arts Community free membership provides students with exclusive events, discounts on visual arts, music and dance classes, and opportunities to become more involved behind the scenes too.

Alongside your own creative pursuits, our professional programme encourages and nurtures art and research collaborations, from mechanical engineers and sculptors interested in moving structures, to architects working with artists, and inventors merging the lines between science and art.

The Edge also offers a range of arts development platforms to facilitate excellence in creative ambition. We support students who are keen to develop their arts interests alongside their studies. You could receive up to £1,500 and be part of a scholar network, collaborating with like-minded peers and performing or exhibiting at our art centre and beyond. Arts Scholarships, bursaries and awards are offered to support the best creative ideas and proposals.

The Edge team also works alongside the Students' Union to provide space for the creative endeavours of student societies engaged with the arts, making the most of the fantastic facilities.

go.bath.ac.uk/pgt-arts

go.bath.ac.uk/pgt-virtual-edge

The state-of-the-art Edge building offers galleries, theatres, music and art studios, plus a lively café/bar – a destination that promotes the art in science and the science in art.

From complete beginners to accomplished artists and performers, there are all sorts of ways to get involved in the arts at Bath:

Music tuition

Handpicked expert tutors subsidised by the University

Music rehearsal

State-of-the-art practice rooms

Performance and exhibiting opportunities

Lunchtime concerts, photo competitions and more

Dance classes

From Ballet to Contemporary

Life drawing lessons

Inspirational art classes

Scholarships

Funding and showcase opportunities

Arts societies

Excellent rehearsal and performance spaces

Galleries

Free exhibitions on campus

Art and research collaborations

Science and arts projects to get involved with

Supporting you

Support and welfare

At Bath we have a network of support services designed to help you whenever you need it. You will have access to help and expert advice on a wide range of issues, from disability support, money to health and wellbeing.

Students' Union's Support Scheme: Nightline

Nightline is a confidential listening, support and practical information service run by trained students, for students. You can talk to them about anything – big or small – in confidence, remaining fully anonymous. They won't judge you or tell you what to do. They will simply listen. They are open 8pm - 8am every night of the semester. Their telephone number is on the back of your library card.

go.bath.ac.uk/pgt-nightline

Money

Managing your money can be a challenge but we have a Student Money Advice team on hand to support. They provide a confidential service on all aspects of student finance, including hardship funding, budgeting and practical tips.

go.bath.ac.uk/pgt-money-advice

Email: studentmoneyadvice@bath.ac.uk

Disability

The Disability Service provides advice and support for students with any form of disability. This includes: mobility and sensory impairment; specific learning difficulties; autistic spectrum disorders; mental health difficulty; and long-term health conditions.

go.bath.ac.uk/pgt-disability-service

Email: disabilityadvice@bath.ac.uk

Childcare

Westwood Nursery provides quality campus-based care for children aged six months to school entry age. Places are subject to availability. Contact the Services Manager for further details.

Email: nursery@bath.ac.uk

Phone: +44 (0)1225 386518

Faith

The University Ecumenical Chaplaincy Centre welcomes those of all faiths and no faith, with a Chaplain on call for students every weekday. We have a Muslim prayer room on campus with washing facilities. go.bath.ac.uk/pgt-chaplaincy

Health

There is a University Medical Centre and Dental Practice situated on campus, providing a wide range of NHS services. You will need to register when you arrive here.

www.umcbath.co.uk

Wellbeing service

Here to smooth out any bumps along the way when you start your postgraduate degree, our Wellbeing Advisers are on hand to help and support you. You can talk to a Wellbeing Adviser about anything - they work hard to create a safe and inclusive space. Welfare and wellbeing drop-in sessions are run every day*.

go.bath.ac.uk/pgt-wellbeing

*Hours may vary during weekends and University vacation. Please visit our webpages for further information.

Counselling and mental health

The Counselling and Mental Health team can help you get the most out of your studies through individual and group support. All support is free and confidential and the team are able to cover a range of issues. go.bath.ac.uk/pgt-counselling

Support for international students

The Bath community is made up of staff and students from all over the world. Over 100 nationalities are represented among our 3,500 international students and we embrace the diversity and multi-culturalism that our international students bring to Bath.

We recognise that to study in the UK and to move far away from home is a big decision for you. That's why we provide a range of services to ensure your move to Bath is as straight forward as possible. Our International Student Recruitment team makes regular visits to universities and fairs across the world and offers application support and advice. We can also help you connect with our former students around the world to find out how it is like to study at Bath.

go.bath.ac.uk/pgt-international

"Before moving to the UK to study, I was so apprehensive, but Bath is both safe and exciting at the same time. I love it!"

**Raine Luo (China)
MSc Marketing**

Before you leave for Bath

We will communicate with you regularly to help you plan for your journey to Bath. We also suggest that you contact the British Embassy or High Commission/Consulate in your own country for advice for entry to the UK as a student.

Your application

We have a dedicated team to help you with any questions you may have when applying for a postgraduate course.

Accommodation

You will need to submit an online application for accommodation once you have accepted an offer to study at the University. As an international student (not including EU students) you are guaranteed university accommodation if you apply for it. You will be housed with other postgraduate students and more than likely with other international students. There are several accommodation options to suit different needs and budgets, and more information can be found on pages 24 and 25.

Extra support when you arrive

All our international students can expect a helping hand on arrival: we can collect you by bus from London Heathrow Airport and get you settled into your new accommodation. We organise a welcome programme of events for our international students, including information sessions, tours of the campus, city and social events. You can also speak to an adviser in person at one of our daily drop-in advice sessions in the Student Services Centre.

Language support

If you are not a native English speaker, you will be offered English language support to help you continue to build your language skills while you study. You can attend an intensive summer pre-sessional course to prepare you to succeed here at Bath. Successful completion of the course means that you meet the English language requirements for your postgraduate degree programme and that you will not need to take another IELTS test.

Tier 4 visas

Many of our international students live outside the EEA and so will require a Tier 4 visa to study in the UK. We currently have around 2,800 Tier 4 students at the University of Bath. Our Student Immigration Service is here to advise on all aspects of your visa application and to support you when you are here. We also offer 'check and send' appointments for visa applications.

Get involved

We encourage all our students to get involved with activities outside of their lectures. Joining a society, a sports club or becoming a community volunteer are great ways to meet new friends, familiarise yourself with UK culture, develop your skills, and improve your conversational English.

Preparing for the future

We know that one of the reasons to do a master's degree is to boost your employability skills and improve your career prospects. At Bath we offer courses created with the job market in mind and we help you develop the right skills to achieve your career goals.

We can help you gain experience, provide CV and interview guidance and facilitate opportunities for you to make useful contacts.

Connecting you to the employers

The Careers Service also arranges for up to 400 employer recruitment visits to the University each year - including career fairs. These visits are excellent networking opportunities to help you build connections and explore the career opportunities open to you.

Career advice and job searching skills

Our Careers Service team are here to help you with career planning and job search skills. You will have access to online resources and one-to-one appointments and career workshops.

The service includes:

- one-to-one career guidance appointments
- advice on job search, CV writing, job applications and interview techniques
- workshops on all aspects of the recruitment process
- mock interviews and assessment centre activities
- support for aptitude tests

The Bath Award

The Bath Award recognises the experiences, skills and strengths you have gained through participation in extra-curricular activities, volunteering, work experience, part-time work, global opportunities and more. The qualification appears on your degree transcript, and provides potential employers with the evidence of the transferable skills you have developed in your time at university.

Open up global possibilities

Learning a language can increase your employability by opening doors across the globe and in international businesses. You can choose to learn a new language, brush up on your existing skills or improve your English language proficiency by taking advantage of our free weekly language classes or by meeting with international students in our Language Exchange programme.

go.bath.ac.uk/pgt-skills-development

Our alumni

Studying at the University of Bath means belonging to a global network. Our alumni are proud of their Bath connection, and they want you to succeed too. They are on hand to support you while you're studying, helping you to get the most out of all the opportunities that make being at Bath so special.

Iain Nettleton, who supports students and graduates at our Get Connected networking events in the UK, studied for two postgraduate qualifications here at Bath. He's now Partner and Head of International Development Projects at BDO LLP. Iain says:

“Undertaking the MSc in International Development gave me the academic grounding, to fit alongside my finance

training, to make the career shift from UK focused work to an international role. The Bath MBA then provided me with a wider managerial skillset which has been crucial in progressing my career. When I started the MBA, I was a senior consultant at BDO LLP and at graduation, I was a director – subsequently made partner. It has given me many of the skills I needed to sustain, develop and grow a diverse and globally impactful business.”

Yadira Contreras Leon came to Bath to study from Mexico City. Returning home following graduation, she now works for Tiendeo as a Business Development Manager representing Latin America. Yadira is also one of our international alumni network volunteers, organising events for Bath alumni living and working in Mexico. She says:

“During my year studying for the Bath MBA I loved the multicultural environment. It gives you the opportunity to be tolerant, empathic, learn and thrive. When I have met fellow graduates outside Bath, it means they are willing to get in contact and help.”

Make the Bath Connection

Whatever you're aiming for, our former students want to help you get there. Bath Connection is an easy way to take advantage of the support our graduate community offers. You can network with graduates all around the world to receive careers support, CV advice and interview tips.

You will find profiles of thousands of graduates around the world to speak to, including high profile execs, start up owners and more. From asking a quick question about working for a particular organisation to finding a mentor for ongoing support, you will learn from someone who has 'been there already' and wants to help you succeed too.

International applicants: When you receive your offer of a place, you can access Bath Connection to connect with graduates who'll share their own experiences of studying at Bath with you.

Study here

Fees, funding and scholarships

Studying for a master's degree is a great investment in your future. We also understand that it is expensive. That's why we aim to provide you with all the latest information regarding fees, loans and scholarships in order for you to make an informed choice.

Tuition fees

Tuition fees will vary depending on your course and whether you are a UK/EU or an overseas student. Fees for the academic year 2019/20 for individual taught courses are detailed in the course index in this prospectus (47 to 51 or at go.bath.ac.uk/pgt-tuition-fees). If you are an EU student you will pay the same fees as a UK student for our 2019/20 courses.

Postgraduate taught loans

Getting a postgraduate loan could significantly reduce the burden of paying for your studies. Eligible UK and EU master's students can currently borrow up to £10,609 (2018-19 academic year) to support their postgraduate studies. Part-time students can also apply. Loan repayments will begin after you have completed your master's degree and you have an annual income over £21,000. Students from Scotland, Wales and Northern Ireland have access to different loans for their postgraduate study and more information can be found when you visit www.gov.uk/masters-loan.

Scholarships and bursaries

We want you to have the means to pursue your postgraduate study so we provide a number of scholarships and bursaries to help you invest in your future:

Faculty scholarships

The faculties of Engineering & Design, Humanities & Social Sciences and Science offer the following scholarships:

- **Dean's Award for Academic Excellence:** each faculty is offering eight scholarships worth £5,000. These scholarships reward academic excellence. Offer holders will be invited to apply.
- **Global Leaders Scholarships:** the faculties are funding forty-five postgraduate scholarships, each worth £5,000. You can apply for the Global Leaders Scholarship once you have received an offer.

Business and management scholarships

The School of Management runs a number of scholarship schemes both for MSc and MBA students.

- **MSc Scholarships:** You could be considered for a scholarship to help you study at Bath. You do not have to pay it back. If you are eligible the money is applied as a discount fee waiver on your tuition fee. The School of Management currently has more than thirty scholarships worth £5,000 each. Check our website for more details of how to apply at go.bath.ac.uk/pgt-som-msc-fees-funding

- **MBA Scholarships:** the School of Management offers a number of scholarships across both the Full-time and Executive MBA programmes, ranging from £3,000 up to 30% of the tuition fee. These are awarded on a rolling basis from point of application by submission of a separate essay statement. Awards funded by alumni, industry and key partners are also available to support the best talent from around the world.
go.bath.ac.uk/pgt-funding-mba

Bath students and Alumni bursaries

The University of Bath offers bursaries to its graduate students and alumni:

- **Bath Alumni:** if you have graduated with an honours degree or equivalent from the University of Bath and are self-financing, you may qualify for a 10% discount on tuition fees for a postgraduate course here at Bath. Your fees will be automatically discounted if you receive an offer.
- **Taught Postgraduate Master's Bursaries:** we offer ten bursaries, each worth £6,000, to students with home (UK) status who have an undergraduate honours degree from the University of Bath. Preference will be given to those who meet a widening participation criteria. Applications for 2019 entry will open in May 2019.

For the most up to date information about scholarships visit us on go.bath.ac.uk/pgt-funding

Part-time work

Working part-time during your studies is a great way to contribute towards your costs while studying and can be really useful for future employment, so it is worth exploring the options available in Bath. If you already have a job with a large organisation, you could see if it is possible to transfer to a local branch. The Students' Union also advertises part-time work opportunities, both on and off campus, to students.

For more advice about employment rights as an international student please visit go.bath.ac.uk/pgt-tier-4-visas.

Applying to Bath

1 Choose a course
Before you apply, find out more about our postgraduate taught courses at go.bath.ac.uk/pgt-study. You can also contact us at pgtadmissions@bath.ac.uk or if you apply for a management course please email mn-msc@bath.ac.uk

2 Review the entry requirements
Entry requirements vary by course and are there to make sure that you have the necessary skills to succeed. We will consider your whole application when assessing your suitability for your chosen course and may recommend an alternative when appropriate.

3 Check the application deadline
Deadlines to apply may vary so please check when you need to submit your application for your specific course. We recommend that you apply as early as possible; the entry to many courses is competitive and you need to allow enough time to apply for funding, accommodation and visas if required.

4 Apply online
Register online and complete the online application at go.bath.ac.uk/pgt-apply. You will be able to save and update your information before you submit your application. You will also need to

include a personal statement and upload supporting documents such as degree certificates, an academic reference and your CV.

5 Your offer
If you receive an offer, use our online portal called Application Tracker to accept or decline as soon as possible. For some courses you will need to pay a deposit when you accept the offer. You can receive an unconditional or a conditional offer. With an unconditional offer, you have met all the required academic conditions and we are offering you a place. If the offer is conditional you will need to work towards meeting the conditions of your offer. These requirements may include English language scores, degree results and satisfactory references.

 go.bath.ac.uk/pgt-admissions

Course finder

Find out about the postgraduate taught courses you can study at Bath in this course directory.

The directory includes fees for both UK/EU and international students. Fees are for the 2019/20 academic year only.

Tuition fees are liable to increase annually for all University of Bath students. Once you have started your studies, you should budget for an increase of up to 5% each year for every further year of study. We will not increase your fees each year by more than this percentage. If you defer your entry, you will pay the fees for the year that you start your course and these may be more than 5% higher than the previous year.

The directory shows whether you can study part-time or full-time. The fees are for full-time courses starting in 2019 unless the courses are only available part-time. The fee for part-time courses is normally half the cost of full-time courses. Fees for online courses and distance learning are shown per unit.

Our courses are grouped in tables by subject area and then listed by alphabetical order.

Please visit our website for more information about entry requirements and the content of the courses.

Important information that you should know

This prospectus is published for the guidance of students who wish to enter the University in the 2019-20 academic year. The information in the publication is correct at time of going to press. For the latest information about the University of Bath and its courses, see go.bath.ac.uk/pgt-study

There may be occasions where due to unforeseen or unavoidable circumstances it becomes necessary to make significant changes to a course or to withdraw it or part of it, for example a particular unit/module. Such action could become necessary if for example the following were to occur:

- a member of staff leaves the University and we are unable to find a suitable replacement (e.g. with the requisite academic knowledge/experience)
- a professional body or regulator/accreditor requires changes to be made to a course or withdraws their accreditation of a course
- changes have to be made to reflect legislative changes/requirements
- changes have to be made to reflect changes in standards set by relevant regulators and/or in keeping with best practice or developments related to the particular discipline/subject area
- student feedback clearly indicates that immediate changes be made to a course or unit
- unexpected low recruitment to a course or unit/module means it is simply no longer viable or practical to run it.

The Edge

Thinking ahead to doctoral study?

Many of the students we support started their postgraduate study journey at Bath and decided to stay.

If you're interested in following your Masters with a research degree, get in touch and find out more about joining our vibrant and diverse community.

"By the time I came to do my MSc, I didn't feel ready to leave Bath. And by the time I came to do my PhD, I still wasn't ready, especially as I could see how my department was growing, developing and innovating - it's always held my interest."

Tamsyn Hawken, PhD student
Department of Psychology

Journey times by train:

To London - 1 hour 30 minutes

To Birmingham - 2 hours

To Cardiff - 1 hour 15 minutes

To Manchester - 3 hours 20 minutes

To Southampton - 1 hour 30 minutes

To Exeter - 1 hour 30 minutes

By car

M4 to Junction 18 and A46 to Bath.
Follow signs for The American
Museum and University. The campus
is located in Claverton Down, on the
east side of Bath.

Parking on campus

Visitor parking pay & display spaces
are accessed via the main entrance
on Claverton Down Road, turning
onto Norwood Avenue. Spaces
are limited.

By coach

A frequent National Express service
operates from London Victoria and
London Heathrow Airport to Bath.

By bus

There are a number of frequent
bus services available. The U1,
U1X and U2 services start and
terminate on campus.

By air

The nearest airport is Bristol
International Airport. There are also
regular connections by train or coach
from London Heathrow Airport.

By train

Bath Spa station is on the main
line between Bristol and London
Paddington. It can be reached from
the North and South via Bristol
Temple Meads.
